& SOCIAL SCIENCES

Department of Psychology

Assistant-level, tenure-line Faculty position in Psychology
Affect Science

We seek candidates who can contribute to our department focus on affective science by investigating social groups or culture. Examples of relevant research areas include, but are not limited to, effects of groups or culture on emotion perception, experience, communication, or regulation; or the role of emotion in stereotyping, prejudice, stigma, attitude formation/learning, information transmission, or social cognition. Successful candidates will demonstrate a strong interest in mechanism, such as using computational approaches, experimental methods, or biological measures. All candidates' research statements should clearly indicate how their research contributes to a program in affective science.

Our research-oriented department values a collaborative and integrative approach to psychological science to fosterers intellectual curiosity and innovation, invests in people in a supportive and inclusive environment, and serves the public good (see www.du.edu/psychology for more information). Our mission is to advance psychological science by generating and sharing new knowledge through collaborative scholarship, educating and mentoring student scholars, and contributing to the public good. Our vision is to be an inclusive intellectual community that fosters discovery and innovation.

The University of Denver's vision is to be a great private university dedicated to the public good. The University values inclusive excellence, recognizing that its success is dependent on how well it values, engages, and includes the rich diversity of constituents (to learn more about inclusive excellence at the University of Denver, please visit <http://www.du.edu/cme/resources/inclusive-excellence.html>). Students and faculty in the Psychology Department actively contribute to [inclusive excellence](#) goals through scholarship, teaching, and service. The University of Denver is situated in the Denver metro area, a vibrant and diverse urban center in the Rocky Mountain region that is home to 2.8 million people. Our urban location supports faculty collaboration across a number of local universities. The University, ranked in the top 100 universities in the country, is comprised of approximately 5800 undergraduates (with over 500 psychology majors), 5900 graduate students, and over 700 full-time faculty.

Successful applicants will have an outstanding record of research achievement. All candidates should have a strong commitment to both undergraduate and graduate education and demonstrated aptitude for excellence in teaching. Candidates should also be committed to working with diverse student and community populations.

Candidates must apply online through www.du.edu/jobs to be considered. Applications will include a letter of interest, research & teaching statements, an inclusive-excellence statement, a vita, and reprints/preprints. The separate inclusive-excellence statement should be a succinct description of how the candidate's research, teaching, and/or service contribute to inclusive excellence. In addition, at least three recommenders should email letters of reference to AHSS.PsychRec@du.edu. We will give priority to applications received by October 1, 2017, but will consider applications until the positions are

filled.

The department and university are committed to enhancing the diversity of its faculty and students. Individuals from members of traditionally underrepresented groups including women, minorities, members of the LGBT community, people with disabilities and veterans are particularly encouraged to apply. The University of Denver is an EEO/AA employer.
