

## **ELC Applicant Self-Assessment**

The English Language Center is an intensive English language program. To be successful here, students **MUST** have some knowledge or prior study of English before they begin. The ELC does not offer classes for the true beginner. Students must be able to read, write and speak English well enough to understand classroom commands, talk about family, home and themselves.

If a student arrives at the ELC for orientation and testing and tests into a true beginner level he or she will be asked to transfer to another program.
