SIT provides orientations, housing, educational excursions and extensive support.

## ACADEMICS

The Modernization and Social Change program offers the opportunity to examine the roles of history, culture, religion and economic development in Jordan's modernization. This program has a set curriculum (24 credits total) including intensive Arabic language study, a Modernization and Social Change seminar, a field study seminar, and an independent study project (ISP). The ISP is conducted in the final weeks of the program, and provides you with a unique opportunity to research a topic about which you are passionate in collaboration with community members and organizations.

## LOCATION: AMMAN, JORDAN

This program is based in the modern Arab city of Amman (pop. 2.5 million). Jordan is bordered by Syria, Iraq, Saudi Arabia, and Israel. It is a nation at the crossroads of ancient traditions and modern development, and serves as a conduit of trade and communication in the region and beyond.

## HOUSING & MEALS

Students live with host families in Amman as well as participate in a five day rural homestay with a nomadic or semi-nomadic family in the Badia area. Homestay accommodations in Amman vary but host families tend to be middle to upper class with a high level of comfort while the rural homestay would be a more basic standard of living. Other accommodations during the program include hostels, research institutes, and small hotels. Meals are included.

SIT programs provide ample opportunities for cultural engagement and immersion through urban and rural homestays, connections with local experts, educational excursions, and your ISP.
