

Alpine Waste Solutions Proudly Introduces *Compost Recycling*

- **Colorado owned & operated**
- **High quality of service**
- **No fuel surcharges**
- **Largest private hauler in Denver Metro**
- **Clean enclosures**
- **Free Waste Audits**
- **Also offering trash, roll-offs, cardboard recycling, single stream recycling.**

Alpine Waste Solutions is proud to present to the Denver Metro area a new composting program to compliment our very popular recycling programs. The program allows all types of businesses the opportunity to do their part to help keep a sustainable environment.

Small-Container Composting – Never in the city of Denver has a program of this size existed until July of 2006, when Alpine Waste Solutions developed the program to allow everyone the opportunity to be environmentally conscious. The program is a cost effective way for your business to promote a sustainable Colorado while keeping waste out of landfills. All accounts are serviced with dumpsters similar to the dumpsters used for trash. We are very excited about this program as well as being the front-runners in keeping Denver “GREEN”.

Acceptable Compostables

Paper Towels
Napkins
Food Waste (including meat & dairy)
Coffee Grounds & Filters
Teabags
