

The following list was compiled by the Fisher Early Learning Center to provide information to families currently on the Fisher Wait List. It is not intended to provide anything other than basic information, such as address, phone number, hours, whether the center is licensed or accredited, etc. In no way is it a recommendation or endorsement, as the staff at Fisher have not visited these centers.

With that in mind, they suggest contacting the National Association for the Education of Young Children (<http://www.naeyc.org>), and requesting brochures (<http://www.naeyc.org/families/brochures.asp>) that should help you identify what to look for in choosing a child care center that will best meet your family's needs. Another local source for information and assistance is the Colorado Office of Resource and Referral Agencies (CORRA) (<http://www.corra.org/index.htm>). We hope you will find this information helpful.
