

Environmental Policy

An Overview...

This academic division of University College offers a Master of Environmental Policy and Management and certificates in the following areas: Management of Hazardous Materials, Environmental Regulatory Compliance, Environmental Management, and Environmental Health and Safety Management. The Environmental Policy and Management (EPM) program at University College differentiates itself from other environmental programs by focusing specifically on environmental management and leadership. Science and technology provide the foundation for a blended program emphasizing formulation of sound environmental policies, practical applications of knowledge, and ethical management philosophies.
