

You're On Your Own (But I'm Here If You Need Me)

by Marjorie Savage

This book equips parents and high school seniors with an explanation of almost every scenario faced as the college experience approaches.

As a parent with 2 college students (Senior Female and Freshman Male) the book is very thorough in explaining what to expect every step of the way. Having both an introvert (very quiet and shy) and extrovert (the center of the party) with completely opposite interests, this book can help analyze and digest all the information that comes with the college experience.

The information guides families through the process from high school until graduation from college; a great investment on your child's future and your own piece of mind.
