

DU Commute Club

Taking Steps Toward Sustainability

Commute Club Monthly Update

March 18th, 2010

Monthly Results

Commute Club members are sticking to their resolutions to leave their cars at home! Never forget that your choice to leave your car at home makes the DU community a better place to live and work, so thank you!

February

Trips reduced: 1,855

Miles reduced: 14,154.4

Mileage Equivalent: more than 4 trips to Syracuse, NY and back

Prize Winners

February: Burrito Buck from Chipotle

Winners: Walter V, Monica G, Mary B, Jessica C, Paul M

Winner's profile:

Jessica C, one of our winners for February and a Destination DU sign up, diligently car-pooled to work to earn her delicious free burrito 21 days in February.

Monthly DU Transportation News:

Denver Bike Sharing Pre-registration is Live!

Have you noticed the new bikes around campus? If you missed out on the pilot program and can't wait for the real program to start you can go to <http://denver.bicycle.com/> to pre-registered. And if you REALLY can't wait to see the bikes, they will be making their debut at [Vest Fest West](#), which is a fund-raiser for Bike Denver, taking place this Saturday at Jackson's from 3p to 8p. I will be there in an camo vest, so come say hello!

Monthly Sponsor: Chipotle

The original Chipotle is located at 1644 E, Evans, mere blocks west of DU's Campus. Be sure to stop by and grab a tasty burrito.

Chipotle®

What is it? Commute Club is a program through DU's Transportation Center encouraging faculty and staff to adopt multi-modal habits to get to work.

How does it work? Commute Club members sign a pledge to commute to DU using a method of commuting other than driving alone, at least once a week. They also pledge to track and log their commutes at least once a month.

Why belong? This new Commute Club format allows everyone to log their commutes on a daily or weekly basis. You get immediate feedback on miles savings and pollution reduction and help us track all members' contributions to DU's sustainability efforts.
