This workshop is designed to help professionals, such as mental health care workers and teachers, increase their effectiveness when conducting suicide risk assessments and providing associated interventions with clients or students. The course will include an interactive discussion, an exploration of evidence-based risk factors and intervention approaches, and opportunity for group work and mock assessment and intervention sessions.

**APRIL 19TH 2019**

**9 - 11 AM**

**UNIVERSITY OF DENVER - LOCATION TBD**
