

Have you been exposed to something scary?

Does this experience continue to bother you?

Seeking teens ages 13-17

We're looking for teens who have experienced something frightening or traumatic to participate in a treatment study at the University of Denver.

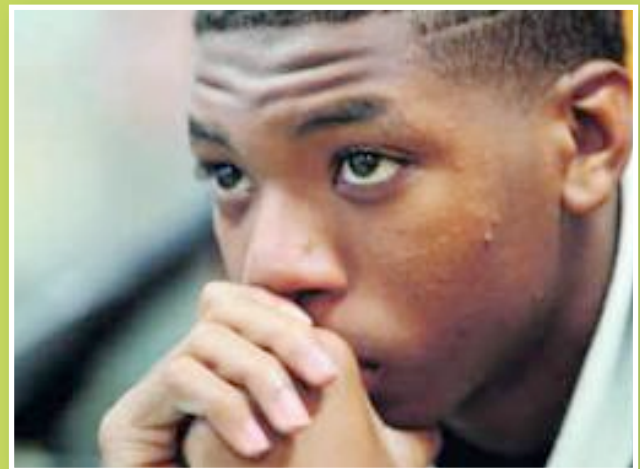

- **Participants and their parent will complete interviews and questionnaires about the teen**
- **Teen will take part in 11 weeks of treatment**
- **Participants will be reimbursed for their time and transportation costs**

Who: Teens ages 13-17 who have experienced a scary or traumatic event, and one parent/guardian

Where: University of Denver
Psychology Department
