WHAT WE HEARD
“Anything fun is off-site”

- Sections along Evans and University need significant thought to grow into a vibrant College Town
- Few dining and entertainment options within walking distance
- Make campus a destination for City of Denver
- The best vibe is downtown neighborhoods
- Local shops and restaurants, not national chains

THEME: Economics of the Edges
“Campus should be welcoming for everyone.”

- Welcoming and clear entries
- Visitor Welcome Center
- Clear wayfinding and signage
- Make campus comfortable for a diverse population
- DU should be warm and interesting
- Campus needs visible activity, even between semesters
- Add night lighting so campus looks inviting to adjacent communities

THEME: Place/ Wayfinding / Sustainability
“Campus should feel like it is part of Denver and the West.”

- Celebrate the Power of Place
- Campus does not connect to Denver and the West as well as it could
- Connecting to the place is part of the student expectation
- Facilities do a good job of highlighting iconic views that celebrate context
Conceptual Plan

Inwardly Focused Campus
Planning Principle

Develop a vibrant DU Village

- Create a welcoming entrance to campus that includes a mix of uses and engaging programs.
- Improve the campus edge and establish an inclusive sense of place.
- Create places that represent and encourage DU’s inventive spirit and embody the commitment to outreach.
- Incorporate thresholds and portals that are welcoming to a wide range of constituents.
- Support students’ needs by providing a diversity of housing options.
- Create a financially-viable master framework plan for the future of DU’s edges.
CAMPUS ACTIVATORS + STANDARDS

Invest in movable, playful seating and campus activators
Extend activity across the seasons
Campus Activators.....
Integrate Seamlessly within Campus Context
CONCEPTUAL IDEAS
University Boulevard: Working Alternative
Buchtel Boulevard: Existing Conditions
