

# Connecting Change Makers

We serve as connectors and cultivators because we maintain an unrelenting belief in the power of partnerships. By supporting relationships between the campus and community that are forged from mutual trust, respect, and commitment, we see projects that focus on strengths and assets, build power, and rely upon a sharing of resources for mutual benefit.

## Scholar Shop

The Scholar Shop connects community organizations with students and faculty to address public problems through research and/or creative work.

## Public Achievement

Public Achievement (PA) is an international, innovative approach to improving academic achievement and creating positive school culture through civic organizing.

## Community Engaged Fellows

Fellows work with CCESL staff as well as campus and community members to identify activities (events, programming, assessment, etc.) to advance collaboration.

## Volunteer.du.edu

Volunteer.du.edu connects DU volunteers with service opportunities at community partner sites.
