Dear campus colleagues,

Thank you for choosing to present this “Bulletin Board in a Bag:” Summer in your area this June – August.

In this packet, and any attached documents, you will find everything you need to begin a great bulletin board. The information presented was gathered by CME student staff from personal research unless stated otherwise. Past and future BBBs are posted on our Publications website: www.du.edu/cme/resources/publications.html

How to use
We’ve provided several flyer-sized pages of information, intended to get your board started. For the most part, the Board is just print and post ready. Color is obviously most eye-catching, but most of the graphics should be fine in black and white/grayscale if necessary. We strongly suggest researching and adding additional information that would be of most interest to your particular audience (relevant communities in home states/nations, campus/community activities that appeal to majors and hobbies); this can help expand the board and improve its impact.

If available at the time of publication, we’ve also included information about relevant campus/community events that you can post as well. You can always check our online calendar (right–most column of www.du.edu/cme), the relevant Joint Council student organization www.du.edu/cme/programs-services/joint-council.html and/or other sources to see what events and resources you can add to your Board. And, consider attending one/some of these events too!

Feedback
If you use the board, to help us know where our boards have been, and how audiences have responded to them, please email us (igr@du.edu) the following:
• Your name, hall and floor where the board is posted
• A photo or two of the board up
• A brief description of any reaction/feedback the board generated on your community,
• And any feedback you have about this board or ideas for other Inclusive Excellence-related identities/issues/observances we could provide for the future.

(And in the unfortunate event there’s any defacement or other negative reaction to the board, please follow your hall’s reporting procedures, and let us know.)

THANKS for sharing this important, and interesting, info with your audiences!
