

ENDOWMENT FUNDS

Definitions:

Endowments are funds which donors have given with some stipulation as to the use of the principal of the gift. There are two types of endowment funds.

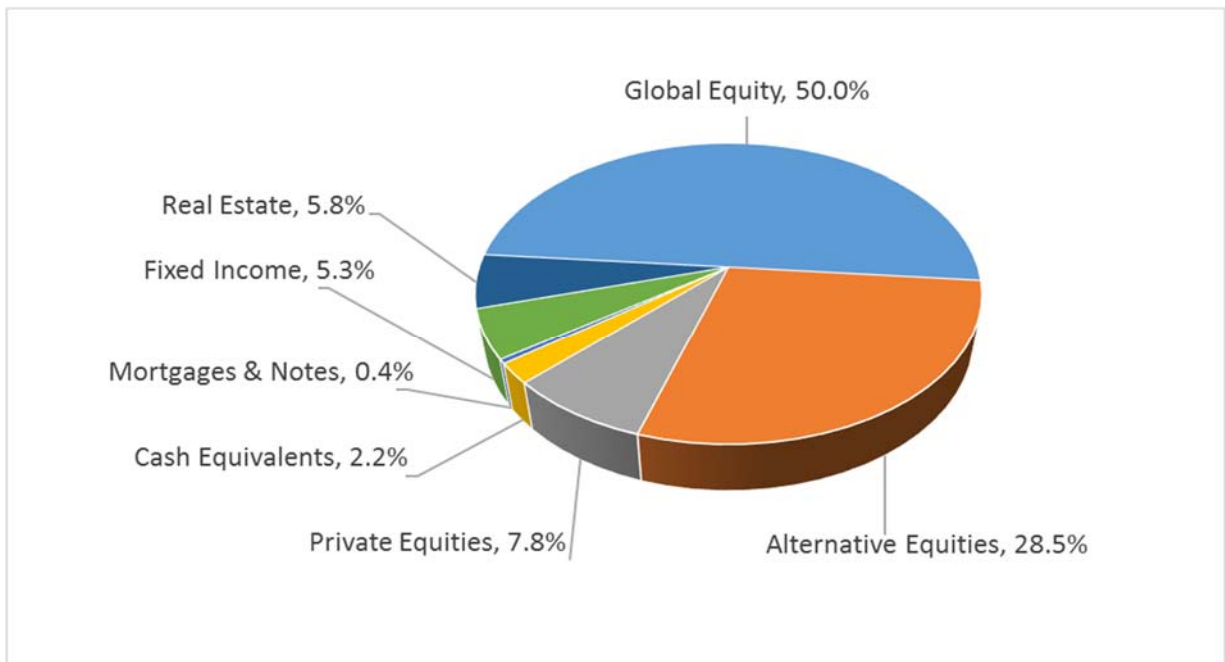

Permanent Endowment Funds: funds where the donor has stipulated the gift is to be maintained in perpetuity with only the income and the gain from this gift to be expended.

Quasi-Endowment Funds: funds, which the Board of Trustees of the University, rather than the donor, has determined, are to be retained and invested with only the income and gain to be expended.
