## **Faculty Evaluation of Administrators 1997-1998 Results**

This issue is comprised of the quantitative results of the thirteenth annual **Faculty Evaluation of Administrators**. A Committee of the Faculty Senate formulated the evaluation instrument. It was circulated to all regular faculty, including those designated in University College, Chairs/Directors, Associate Deans and Deans. Aneita Gullett, Assistant to the President of the Faculty Senate, did the administration, collection and tabulation of the survey. The Executive Committee decided by consensus that all information be provided to the faculty but in such a manner as to preserve faculty anonymity. Thus, averages are given along with the number of responses.

In total, 485 surveys were distributed and 41 percent were returned.

The responses are based on the following scale:

**5=excellent**  
**4=good**  
**3=average**  
**2=fair**  
**1=poor**

The Faculty Senate Executive Committee,
