This has been a heavy time, with Dr. Ford bravely sharing her story on a national stage. With nearly constant coverage and divisive dialogue, it can feel like we just need a space to breathe.

We invite you to join us at a processing circle to discuss current events with fellow DU community members. This will not be a political space or space for debate. Come simply to be with others as we process; you are welcome to show up and participate in whatever capacity you need.

**WEDNESDAY, OCTOBER 10**
**6-8 PM**
**COLORADO WOMEN’S COLLEGE**
**GARDEN ROOM**

This circle will be facilitated by Kayla Ham, Coordinator of CAPE Advocacy Services and Andy Thyrring, Coordinator of GV Prevention and Education. Grounding tools and light refreshments will be available.

This event has been made possible through support from the Colorado Women’s College, Student Outreach and Support, the Health and Counseling Center, and other campus partners.
