

Delta Dental Patient Direct is a dental discount program. It is not dental insurance. However, it's an affordable way to look out for your oral health.

The Delta Dental Patient Direct Plan is a Colorado-only plan. There are approximately 550 dentists in the **Delta Dental Patient Direct** network. In order for services to be discounted, they must be performed by a **Delta Dental Patient Direct** network dentist. You can check the list of **Delta Dental Patient Direct** network dentists on the Delta Dental of Colorado website at www.DeltaDentalCO.com.

The attached fee schedule provides a list of co-payments for most dental procedures (your share of the costs). It also shows typical dentist fees, so that you can clearly see the Patient Direct savings.

Why should I choose the Delta Dental Patient Direct plan?

1. It is affordable, valuable and easy to use
2. Low monthly premium
3. No maximums, no deductibles, no waiting periods and no claims to file

With Delta Dental Patient Direct you benefit from:

- No waiting periods
- Unlimited use of discounted services (as much as you like each year)
- No deductibles
- Discounts on orthodontic (braces) services for children and adults
- Reduced fees for cosmetic dentistry (bleaching, veneer bonding, implants)
- An average 65% discount from a general dentist's normal fees

Using a dental specialist with Patient Direct

If you require treatment from a specialist, the copayment schedule does not apply. However, as long as you use a **Patient Direct** network provider, you will receive discounts from the dentist's normal fee. See plan materials for details.
