As a graduate body at the University of Denver, we want to celebrate interdisciplinary scholarship, which involves the process of answering complex questions and solving problems that cannot be addressed within the bounds of a single discipline. The summit is an opportunity and invitation to highlight the wide-ranging multi-disciplinary and transdisciplinary work of the graduate students to the DU community. We welcome submissions of:

- Traditional academic papers
- Reflections on learning via experiential practice such as clinical, lab and internship work
- Poster presentations
- Live performances and experimental formats

More details on proposal submissions will be shared soon. For questions, please email
