US Port of Entry Arrival: Form I-94 Automation

**What is a Form I-94?**
- The Form I-94 records your arrival in and departure from the US.

**What is I-94 Automation?**
- Instead of distributing a paper Form I-94 upon arrival at US air and sea ports, Customs and Border Protection (CBP) will scan a traveler’s passport, generating an electronic arrival record.

- Travelers will also receive an admission stamp in their passport indicating their arrival date, non-immigrant status (F-1 or J-1), and admitted until date (D/S).

**Where can I access my electronic I-94?**
- The electronic I-94 can be printed from the following website: [www.cbp.gov/I94](http://www.cbp.gov/I94).

- A printed electronic I-94 must be submitted as part of the ISSS immigration check-in and immigration and public benefit applications (e.g., social security number, driver’s license, employment authorization).

**What do I do when I exit the U.S.?**
- Travelers issued a paper Form I-94, should surrender it to the commercial carrier or CBP upon departure in order for the departure to be recorded.

- If travelers did not receive a paper Form I-94 and the record was created electronically, CBP will record their departure using manifest information obtained from the air or sea carrier.
