Post-Graduation Employment Report

August 2011– June 2012

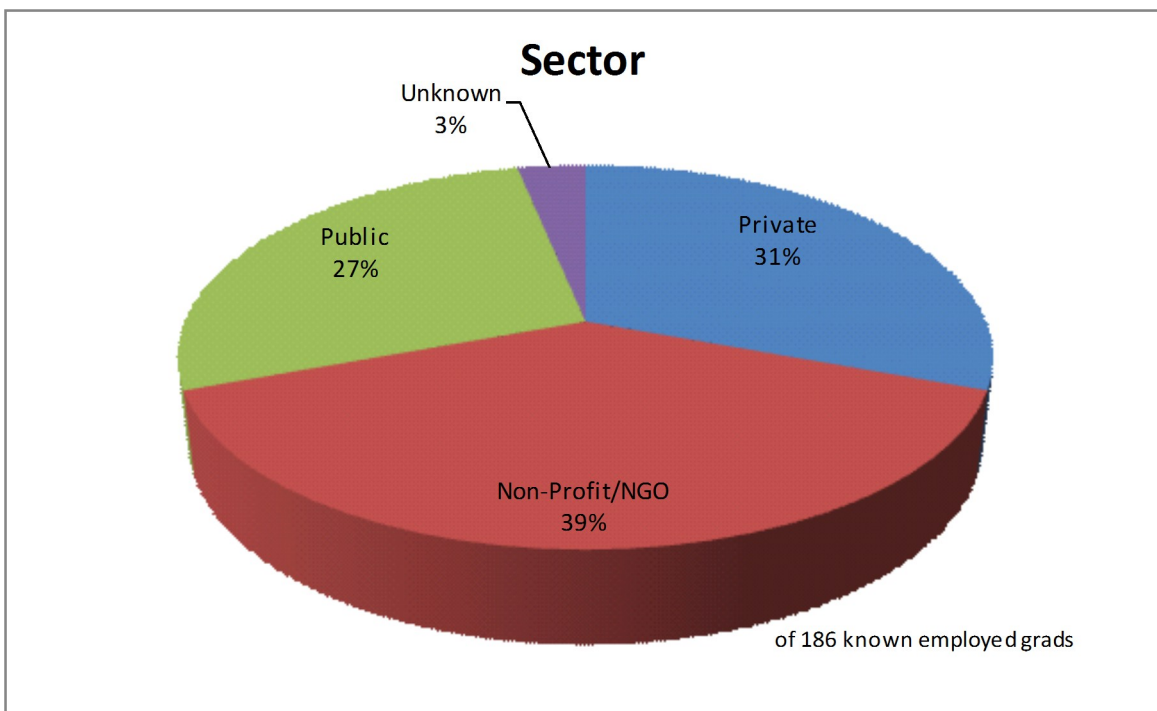

Employment

This represents post-graduation employment data of alumni within one year after graduation. For the August 2011 – June 2012 graduating classes, we have data for 224 of the 248 graduates (91% return rate). This return rate is slightly higher than in recent years, and reflects data for the International Studies, International Development, International Security, International Administration, and Global Finance, Economics and Global Integration M.A. degree programs at the Josef Korbel School of International Studies. For methods in data collection and reporting, please see the final page of this report.

Office of Career and Professional Development

Methods and Definitions

We have done our best to accurately reflect employment *within the one year* following graduation.

We consider “employed” any position that was compensated, with salary, hourly wage, stipend, or grant.

The data reported reflects data collected from surveys (conducted at graduation, at 6 months, and at 1 year), personal contacts of OCPD and JKIS staff and faculty, and publicly available databases such as LinkedIn and Facebook.

This report is for informational purposes only.
