Internship Opportunity with the U.S. Department of the Interior

Purpose

The U.S. Department of the Interior (Department) – Office of Environmental Policy and Compliance’s (OEPC) Denver Region is interested in having an intern(s) during the fall semester.

Background

OEPC provides leadership on a national and regional level for environmental policies and compliance within the Department. The office assures compliance with National Environmental Policy Act (NEPA) reviews on or impacting Department managed resources, as well as coordinates emergency response and hazardous materials management.

Details

This is an unpaid internship. The amount of hours is dependent on the student(s) and his/her availability. The student(s) will gain experience in compliance with NEPA, emergency response and hazardous materials management. In addition, the student(s) will have opportunities to network with bureau staff (including, but not limited to Bureau of Land Management, Bureau of Reclamation, U.S. Fish and Wildlife Service, and National Park Service).

Typically, we identify a special project for the intern to work that can be a part of their portfolio in addition to day to day duties in the office. The project depends on the student and their interests.

If you are interested, please submit a resume to courtney_hoover@ios.doi.gov by May 1, 2017.

More details on OEPC and the Denver Region can be found here: https://www.doi.gov/oepc/regional-offices/denver.

The office is located on the Denver Federal Center, 6th and Kipling in Lakewood, CO. It is accessible via light rail. More details on the Federal Center can be found here: https://www.gsa.gov/portal/content/105070.
