Presents

The Therapy Medical Physicist's Role in Radiation Oncology

Wednesday, January 6, 2016

4:00 PM

F.W. Olin Hall Room 105

2190 E. Iliff Avenue

Presented by

Brandon Merz, M.S.

Medical Physicist

Centura Health

Oregon Health & Science University

Over the past 100 years the field of radiation oncology has been continuously developing, in large part due to the efforts of physicists in medicine. This presentation will give an overview of the field, important developments in imaging and radiation delivery, and remaining challenges in cancer care. In addition to historic and theoretical discussion, insight into the daily life of a clinical medical physicist will be presented.

HOST: Dr. Dinah Loerke, (303) 871-3506, Dinah.Loerke@du.edu

Join us for refreshments & follow-up discussions in Physics Building Room 116,

5:00-6:00 PM
