

DU PRE-HEALTH COMMITTEE LETTERS

The DU committee letter is an overall summary/evaluation of a student and also includes the individual letters written in support of your application.

You need to submit the following items to Margene Brewer (in Olin102 or by email at preprofessional@du.edu):

- completed Applicant Profile and Checklist form
- current resume
- informal academic transcript (paper copy of recent APR from myWeb or electronic pdf version)
- MCAT score (or equivalent exam score)
- personal statement (can be a rough draft).

Please send the attached referee form to the faculty referees who are writing your letter of recommendation; your faculty referees should submit the letter and referee form to preprofessional@du.edu. Your non-faculty referees should send a copy of your letter to preprofessional@du.edu.

Margene will start a file and begin collecting the letters of recommendation for you. When she has received the completed profile, resume, APR, personal statement and all letters of recommendation, she will inform you that your file is complete and ask if you are ready for a committee letter to be submitted. If so, Margene will forward your file to the PreProfessional/Allied Health Advising Committee.

You will also need to make an appointment to meet with Dr. Nancy Lorenzon and discuss your career goals and application. You can make an appointment by contacting Margene Brewer in Olin 102 or by email at preprofessional@du.edu.

We will write a committee letter. Your original letters of reference will be included and attached to the committee letter. (Your referees can also submit their individual letter directly to AMCAS).

When you request a Committee letter through AMCAS or AACOMAS, please include my name and contact information as follows:

Nancy M. Lorenzon Ph.D.
Director, PreProfessional/Allied Health Advising
2190 E. Iliff Ave- Olin 102
Denver, CO 80208
(303)871-2871
Nancy.Lorenzon@DU.edu

Please let me know if you have any questions or need assistance with anything.
