INTERESTED IN PURSUING A CAREER IN BIOMEDICAL SCIENCES?

Come visit and learn about the
Professional Science Master’s program in Biomedical Sciences
at the University of Denver

The Biomedical Sciences program provides graduates with strong technical aptitude, professional competencies, interdisciplinary attitudes, globally-oriented prospective, and maturity.

- Rigorous academic training and professional practical skills in order to prepare students for challenging careers in the biomedical sciences and allied health sciences
- Strong scientific knowledge and global-awareness, ethics, communication and other important professional skills through acquiring knowledge within and across disciplines at DU
- Opportunity to gain knowledge of the many issues, concerns, and future directions of allied health and biomedical sciences industries
- One-year completion timeline

Find out more information about applying to the program, curriculum, advising, capstone experience. Have all your questions about the program answered, and meet some of the current PSM students in the program. If you have not visited the DU campus, join me on a campus tour (optional).
