APPENDIX M – RESEARCH IN SCHOOLS

The DU IRB requires that research conducted in schools with children be approved by schools, school district authorities or research related committees. Documented approval is required for both **NEW** studies and **CHANGES** in existing studies.

1. Identify the school district(s) in which the proposed research will be conducted:

2. Identify the school(s):

3. Does the school district have its own Institutional Review Board (IRB) or research evaluation policies? *The DU IRB recommends contact the school district to determine this.*

No – Documentation of the approval of the superintendent or principal on school letterhead must be provided before final approval will be granted.

Yes – Documentation of approval must be provided before final approval will be granted

4. Who is the subject of the research?

Check all that apply. Include the required consent, permission and assent forms with the appendix submission to the IRB.

Administrative personnel.
Describe personnel (e.g. principals, school nurse, etc.)

Include consent form

Teacher

Include teacher's consent form

Students
