

Give your child an opportunity to learn how to create their own cool programs! Coding with Kids portfolio of classes is updated with NEW PROJECTS EACH SESSION, so that your student can continue to climb the Coder's Ladder from very beginnings to high school AP courses. We teach kids real programming skills in a very fun way. Below are classes conveniently available at your school.

GAME DEVELOPMENT / BEGINNER

Grades 3-5
Thu, 3:40 PM-4:40 PM
Sep 14 - Nov 9

9-week session
\$179

Do you play games and wonder how they are created? Would you like to build your own computer programs? Come learn how at the Coding with Kids Academy! In this fun after-school class, you will be introduced to the core concepts of computer programming, including loops, conditionals and variables. Using the Scratch development environment, you will learn how to create your own programs, such as simple games, animations, and interactive stories. With new projects each session, you will be able to express your creativity and advance as a coder! Our progressive curriculum will allow you to move to the next level after just 1-2 sessions.

INTRO TO PYTHON

Grades 6-8
Mon, 3:40 PM-4:40 PM
Sep 11 - Nov 6

9-week session
\$179

Are you a Scratch expert who wants to try something new? Take your programming to the next level with this class! Come learn this language while making fun games. Python is a very versatile programming language that is widely used in the professional world. Still learning to type? No worries. We will use Codecademy in this class, which is an environment that allows you to transition drag-and-drop items to typed code.
