

# DU EARTH MONTH 2022

## GREAT EVENTS DURING APRIL FROM OUR PARTNERS ALL OVER THE DU CAMPUS

### Thursday, April 7: Your Brain on Climate Chaos

Join Ekar Farm's Green Kehillah for conversation and workshops around mental health during climate change, and the collective trauma we're experiencing amidst ongoing intense events. Facilitators include Sherry Ellms, Dr. Justin Ross, and Pamela Sica.

### Tuesday, April 19: A Chat with Robin Wall Kimmerer

The Graduate School of Social Work, College of Natural Science and Mathematics, University Libraries, and Center for Sustainability welcome Robin Wall Kimmerer, author of Braiding Sweetgrass (virtually) to discuss Indigenous knowledge and a changing world.

Register here: <https://tinyurl.com/RWK2022>

### Thursday, April 21: Fireside at Five - Green Justice in Denver

What would it look like if every city dweller got to enjoy the benefits of a thriving environment - healthy air, water, food, soil? What if each of us knew how to be part of this change? Join us for a Fireside Chat with the DU Grand Challenges initiative to learn from a diverse panel about how these efforts are underway and how you can get involved.

Register here: <https://tinyurl.com/climatefireside>

### Friday, April 22: Earth Day of DUing

Join the Center for Sustainability and over 30 campus and community partners to do volunteer projects all over the metro area. This is the biggest volunteer event at DU - join 500 of your friends and do some good in celebration of Earth Day!

Register here: [www.tinyurl.com/dayofduing2022](http://www.tinyurl.com/dayofduing2022)

### Friday, April 29: City Nature Challenge at DU

Did you know that there are hundreds of species of bugs, birds, plants, trees, mammals, and others on the DU campus? Help us catalogue how much biodiversity our campus holds, and marvel at all we can learn from them and their presence here. Registration coming soon!
