Want to expand or jump-start your thinking on how you can best contribute to innovative interdisciplinary and DEI-elevating curricular opportunities for students at the Kennedy Mountain Campus (KMC)? Please join us on Friday May 13th from 1:30-3 pm for a fun online ideas exchange designed to help you ideate with colleagues and think outside the box!

At the event, we will also talk through the CFP (**due June 15**) for the first round of ideas to pilot faculty-led KMC curricular and curricular-meets-co-curricular experiences for students (with start dates of late November 2022 or later).*

*** We're also featuring a Kennedy Mountain Campus curricular ideation lab as part of our upcoming 4D Symposium. Join us!

Details are as follows:

Discovery at Elevation:
A Mountain Campus Curricular Incubator for Faculty + 4D Ideation Lab

(presented by the Faculty Senate in partnership with the Office of the Provost and the 4D Team)

- Event date: Friday May 20, 2022, 10:00-11:30 (via Zoom)
- Welcome Remarks: Mary Clark
- Invited emcees: Renée Botta, Jennifer Campbell, Jennifer Karas, Laura Perille, Sarah Pessin, and Laura Sponsler

(*Please note: While the CFP invites ideas for student-centered classes, 'class-adjacent' events, community partnerships, and other curricular and curricular-meets-co-curricular uses of KMC, our Incubator event will focus in particular on *curricular* innovation—both graduate and undergraduate. Also, while a handful of pilots will be selected for late November 2022 through Summer 2023, we expect broader campus opportunities for faculty to begin in Fall 2023).
