

## How it Works

**Pump** according to your regular nursing schedule and refrigerate your milk

**Pack.** Activate the cooling unit in your Milk Stork cooler (instructions included). Then, pack your refrigerated breast milk

**Ship.** Schedule a FedEx pickup on your own, or ask your hotel to help. Your breast milk will be overnighted home\*

**Tote.** Carry your cooler of milk home with you in the reusable tote provided\*\*

### Disclaimers:

\* FedEx Priority Overnight's shipping capabilities allow for next-day delivery to most destinations. FedEx does not operate on Sundays. Alaska, Hawaii and rural destinations may have longer transit times. Occasionally, weather and other events can cause disruptions to FedEx's service. Milk Stork cannot control for these disruptions. Milk Stork's Pump & Ship coolers provide at least 72hr of refrigeration.

\*\* Whether carried on or checked as luggage, your Milk Stork cooler AND your breast milk will be inspected by TSA and may also be X-rayed. If you're toting your breast milk internationally, it is the user's responsibility to research and comply with each country's, airport's, and security agency's regulations for traveling with breast milk. Milk Stork is not responsible for inconsistent or incorrect enforcement of breast milk travel regulations and/or inspection of the Milk Stork coolers in the United States or internationally.
