

Safety and Security

The Safety and Security job family includes those positions that provide safety and security services to the University to ensure order and the safety and security of students, employees, and visitors to the campus. Jobs in this family may rely heavily on skills, knowledge, and on-the-job experience. Many jobs in parking, security and transportation will not require post-secondary training while jobs in emergency management, environmental safety as well as all managerial and senior level roles will require degrees in an appropriate field.
