When care is needed, call 866.763.8442.

Employees with Cigna medical coverage can call this number, 24 hours a day, seven days a week when they need to access urgent or emergency medical care outside the U.S. When determining your medical situation, consider this:

› When there’s a serious accident or sudden illness, the symptoms are severe and they occur unexpectedly, seek medical help immediately. Emergency examples can include broken bones, uncontrolled bleeding, chest pain, shortness of breath, severe pain, loss of consciousness, sudden paralysis or slurred speech, and suspected overdose of medication or poisoning. In an emergency, go immediately to the nearest emergency facility, or call the local emergency services number.

› Urgent care includes injuries and illnesses that require prompt medical attention, but aren’t considered emergencies. Examples include bronchitis or sinusitis, ear or eye infection, fever, minor laceration, severe sore throat, sprains or strain, stomach flu and urinary tract infection.

Here’s how it works.

Before care: If possible, the individual should call 866.763.8442 to contact Cigna customer service before receiving care. Cigna’s standard rules and guidelines for emergency/inpatient admissions also apply to receiving this kind of care while outside of the country. If the emergency prevented the individual from contacting Cigna prior to care, Cigna must be contacted within 24 hours. If you are personally unable to contact Cigna, please ask a family member or a physician to do this on your behalf.

After care: Cigna is not able to pay a foreign provider, so the individual is responsible for paying for his or her medical care. Once home, the individual can submit a claim for reimbursement, following Cigna’s standard guidelines. The claim must include:

› An explanation of care outside of the U.S.

› An itemized bill, including procedure codes(s)/description of service(s) and a diagnosis code.

› A letter of medical necessity and/or procedure notes, if applicable.

› Proof of payment for the medical care.
