STUDY ABROAD: www.du.edu/abroad - 303-871-4912 - duabroad@du.edu

The University of Denver strongly invests in study abroad because we believe as many students as possible should have the opportunity to discover how education really comes to life in an international context.

- All students are eligible for the Cherrington Global Scholars Program after attaining Jr status (90 quarter hours), a 3.0 GPA at DU, and general good standing at DU – a minimum of 2 quarters of full-time enrollment must be completed at DU before studying abroad.
- Cherrington Global Scholars receive benefits that help offset additional costs associated with studying abroad, such as airfare stipends and visa fee coverage.
- Advising is available to determine how study abroad credits will be applied to your degree.
- Advising is recommended a year in advance of your study abroad term.

GUIDED PATHWAYS: https://www.du.edu/registrar/transfer-studyabroad/cccsguide.html

The University of Denver is beginning to review the Degrees with Designation for the schools in the Colorado Community College System. This will enable students to see how courses taken in the community college system will work within given majors. Right now, there are only a few majors that have completed the academic review process. As more complete the process, they will be added to the website above.

ACADEMIC CALENDAR: https://www.du.edu/registrar/calendar/

The University of Denver runs on a quarter system. The academic year consists of three 10 week quarters and an optional summer quarter.

Full time status is between 12-18 credit hours. The vast majority of courses are each 4 credit hours; a typical course load is 3-4 courses.
To be considered transferable, college-level courses must be similar in content to what is offered at the University of Denver and a grade of C- (1.7) or better must be earned as shown on official college transcripts.

- Courses may transfer in as Common Curriculum requirements, major/minor requirements, or electives
  - Common Curriculum requirements are courses offered across many disciplines and are required across all majors (see next page for suggested courses)
  - Online courses may be refused based on instruction methodologies not equivalent to those at the University of Denver
  - Pass/Fail courses will be considered if a pass is equivalent to a C- (1.7) or better; however, they will only transfer in as electives – they will not count toward Common Curriculum requirements or major/minor requirements
  - CLEP and DSST exams are not accepted for credit
  - Military coursework that is listed on an official Joint Services transcript may be approved by the most closely related department at the University of Denver
  - Grades do not transfer and are not included in a student’s University of Denver GPA
    - Keep the syllabus for each course, as it may help determine specific placement of courses
  - Our Bulletin is a great resource to view major/minor options, requirements, and course descriptions: [http://bulletin.du.edu](http://bulletin.du.edu)
    - We keep a list of previously approved courses. You can search for your institution online at [go.du.edu/transfers](http://go.du.edu/transfers). You will be able to search by institution and even view Advanced Placement (AP) and International Baccalaureate (IB) score conversions.
      - The Colorado Community College System (under the state of Colorado) is the most complete in terms of equivalent course listings. If you do not see a course for your school, please check for a similar title under the Colorado Community College System.
      - This is not a complete list of courses. The absence of a particular course or institution may mean that it has not been formally reviewed yet.
      - Courses and institutions will continue to be added as DU equivalents are determined.
  - The University of Denver runs on a quarter system. When the original college or university is not on the quarter system, the transfer credits will be converted to quarter hours.
    - 1 semester hour = 1.5 quarter hours (e.g. 3 semester hour course = 4.5 quarter hours)
      - Institutions not on the semester system will indicate the appropriate conversion on their transcripts.
      - A maximum of 45 credits can be transferred in from AP or IB credit
      - A maximum of 96 quarter hours (64 semester hours) can be transferred in from two-year institutions
      - A maximum of 135 quarter hours (90 semester hours) can be transferred in from any combination of two- and four-year institutions, AP/IB credit, and/or Military credit
    - At least 50% of the required credit hours for the major and minor must be completed at the University of Denver
    - The final 45 credits must be earned in residence at the University of Denver
      - Partner programs within study abroad will count as residency if traveling in the 4th year
  - A more detailed listing of transfer credit policies can be found online at: [www.du.edu/registrar/transfer-studyabroad](http://www.du.edu/registrar/transfer-studyabroad)
