

Getting Around

without a car

1

Bike! There are great bike routes, bike lanes, and bike trails that go all over Denver. Find a buddy and feel your two wheeled freedom! Register your bike with Parking and Mobility Services and use a U-lock to reduce risk of theft.

2

Walk! There are tons of beautiful parks all over Denver, and many places are easily walkable from DU. Plus, walking is the easiest way to get around campus.

3

RTD! All students get an RTD College Pass, which means that you can use the buses and light rails for free! These will take you to nearly everywhere awesome in the City, like the airport, the convention center, The Pepsi Center, Eliches, and so many more!

4

Ski Bus! Obviously a lot of people come to DU so that they have easy access to the mountains during ski season. The Center for Sustainability and Alpine Club partner every year to charter buses to popular mountains every weekend during the Winter Quarter. Both EPIC and IKON pass destinations are offered.

5

Scooters! Electric scooters are all over Denver, which offer a fun way to get around town. Download one of the apps and start scooting. This is a great alternative to Uber or Lyft.

6

Carshare! For those times when you really do need a car, we have partnerships with both ZipCar and Car2Go at DU, which allows you to rent cars by the minute, hour, or day. Get the benefit of having a car, without adding to traffic or air pollution.

7

Campus Shuttle! There is a campus shuttle that stops at major parts of campus on demand. Don't drive from one end of campus to the other on those cold days, take the shuttle!
