- Internship Exception Request Form
- Request for Field Internship in Place of Employment
- Offers of Employment by Internship Agency
- Student Timesheet
- International Internship Individualized Field Education Plan
- International Internship Evaluation Form
Welcome to the Field Education Program at the University of Denver Graduate School of Social Work (GSSW). It has been an exciting year of changes for GSSW and we now have 4 programs. This Field Manual provides information for the main campus program in Denver, the Four Corners Program in Durango, the Western Colorado Program in Glenwood Springs, and our new MSW@Denver online program.

Here you will find all of the information that you need for the 2017-18 academic year. Because this Field Manual is intended to provide information to students, field supervisors, field liaisons and faculty at GSSW, it is comprehensive for everyone involved. It is organized by topic and has a table of contents to help you find the information that you need.

If you are looking for a quick answer to a specific question, try the Frequently Asked Questions section. If you need more in-depth information about a policy or a process, you can find that information in this Manual as well. All of the forms that you need throughout the year are either contained in this Manual and/or are available electronically.

Throughout the year, you can always find the most up-to-date information about any changes, deadlines, trainings and events on our website www.du.edu/socialwork/fieldeducation.

We look forward to another exciting year in the Field Education Program. Please let us know what we can do to make your part of the internship experience a positive one.

Regards,

Ann T. Petrila, MSW, MPA, LCSW
Assistant Dean for Field Education
Field Education Team

DENVER CAMPUS PROGRAM

Ann Petrila, MSW, MPA, LCSW
Professor of the Practice of Social Work
Assistant Dean for Field Education
303-871-2863, Ann.Petrila@du.edu
Craig Hall, 277

Kathy Johnson, LCSW
Clinical Associate Professor
Associate Director of Field Education
303-871-3896, Kathy.Johnson@du.edu
Craig Hall, 275

Denise Breinig-Glunz, LCSW
Clinical Assistant Professor
Field Education Coordinator
303-871-2917
Denise.Breinig-Glunz@du.edu
Craig Hall, 271

Julianne Mitchell, LCSW
Clinical Associate Professor
Field Education Coordinator
303-871-2071, Julianne.Mitchell@du.edu
Craig Hall, 269

Nigyar Alves
Field Education Program Administrator
303-871-2844, Nigyar.Alves@du.edu
Craig Hall, 276

Meghan Tedder
Field Administrative Assistant
303-871-2844, Meghan.Tedder@du.edu
Craig Hall, 279

Our Vision

The Graduate School of Social Work is among the finest graduate schools of social work in the country, a vibrant center for intellectual development, a leader in promoting diverse communities, and an advocate for an integrated and inclusive model of social work, all within a facility that supports the best educational practices.

Our Mission

The Graduate School of Social Work is committed to excellence in teaching, scholarship, and community leadership and service. Our mission is to foster social responsibility regarding social and economic justice, quality of life and multicultural communities, based on equality for all people. As a center for the creation and dissemination of knowledge, the School provides graduate social work education in order to alleviate and prevent social problems of individuals, families and communities.

Our Values

The guiding philosophy of social work includes values that create a framework for social work education, research and service. These include:

- progressive ideals of equality, social and economic justice, cultural diversity and freedom
- social work's unique focus on person-in-environment as the central concept which shapes our curriculum and practice
- excellence in the development of social work knowledge and its dissemination to students, communities and policy-makers
- responsibility for promoting social change and multiculturalism in the community, and empowerment of the social work profession

Discrimination

The University of Denver strives to create and maintain a community in which people are treated with dignity, decency and respect. The environment of the University should be characterized by mutual trust, freedom of inquiry and expression, and the absence of intimidation, oppression and exploitation. People in this community should be able to work and learn in a safe, yet stimulating, atmosphere. The accomplishment of this goal is essential to the academic mission of the University.

Therefore, the University will not tolerate unlawful discrimination, harassment, or sexual misconduct of any kind. Matters of this kind may also be prohibited by a variety of federal, state, and local laws. This policy is intended to comply with the prohibitions of all applicable anti-discrimination laws.
Title IX

The University prohibits discrimination on the basis of sex, including sexual misconduct, in its educational programs and activities. The University is committed to complying with Title IX of the Education Amendment Act of 1972 and ensuring that the University’s education programs and activities are operated in a manner consistent with applicable federal law, regulations, and provisions.

Equal Opportunity

It is the policy and practice of the University to provide equal opportunity in employment, educational activities, and other programs to all employees, students, and applicants. No person shall be discriminated against in any condition of employment or opportunity because of race, color, national origin, age, religion, disability, sex, sexual orientation, gender identity, gender expression, marital status, genetic information, or veteran status.

Retaliation

No hardship, no loss of benefit, and no penalty may be imposed on any student, faculty, or staff as punishment for: filing or responding to a bona fide complaint of discrimination or harassment, appearing as a witness in the investigation of a complaint, or serving as an investigator or as a member of a disciplinary board. Retaliation or attempted retaliation of this kind is a violation of the Policy and will be subject to severe sanctions up to and including termination or dismissal from the University.

Application

This policy applies to all faculty, staff, students, board of trustee members, volunteers, contractors, guests and visitors of the University. It extends to all University activities, both on and off-campus.

Procedure

The Director of the Office of Equal Opportunity shall develop and publish procedures and rules implementing this Policy. The Provost and the Vice Chancellor for Business and Financial Affairs shall approve such procedures and rules upon the advice of the Director of the Office of Equal Opportunity, the Title IX Coordinator, and University Counsel.

MSW Program Goals and Objectives

Based on the vision, values, and mission of the University and GSSW, and the mission of the social work profession, the goals of the MSW program are to:
• Prepare students for effective, culturally responsive, and ethical advanced clinical or community professional social work practice that enhances human interaction;

• Involve students in critical scholarly inquiry, application and development of knowledge, and consideration of values and ethics;

• Encourage students to assume leadership in promoting social and economic justice, advancing the public good, furthering multicultural understanding, and eliminating oppression.

Derived from the goals of the MSW program, the objective of the MSW program is to graduate students who are prepared to enter advanced, autonomous practice in an area of concentration. Specifically, our graduates will:

• Demonstrate ethical, culturally responsive advanced clinical or community practice that emphasizes: the strengths of individuals and communities; the importance of difference in shaping life experiences; and the role of context in service delivery;

• Analyze policy, identify and collaborate in advocating for strategies that promote social and economic justice, eliminate oppression, foster the public good, and enhance the welfare of clients;

• Demonstrate self-reflective practice that includes: examination of societal and personal bias, privilege, and values; critical evaluation of structural inequities; self-correction to align personal values with the profession’s; and demonstration of professional demeanor;

• Demonstrate career-long learning that includes a continuous process of examining published evidence, using supervision and consultation to improve practice, and communicating clearly with clients, colleagues in social work and systems;

• Make ethical decisions based on the standards of social work practice, examining personal values and ethics, exploring all sides of ethical conflicts, and weighing each side against social work codes of ethics to reach a principled decision;

• Critically evaluate and ethically apply the major theories related to human development and behavior that guide advanced clinical or community social work practice using a person-in-environment lens;

• Demonstrate that advanced clinical or community social work practice (including assessment, prevention, intervention, and evaluation) is guided by a critical review of empirical evidence, including research-based knowledge and practice-based findings;

• Demonstrate preparation for and competency in social work practice with individuals, families, groups, organizations and communities through appropriate interpersonal skills and ability for mutual engagement;

• Demonstrate competency in holistic client and client-system assessment, goal-setting, planning, intervention, and evaluation of practice.
Field Education Competencies, Practice Behaviors and Ethics

The Master of Social Work (MSW) program at the University of Denver is accredited by the Council on Social Work Education (CSWE), a specialized accrediting body recognized by the Council on Post-Secondary Accreditation. CSWE accrediting standards are reflected in the following field education learning goals and competencies.

All educational competencies are linked by cultural responsiveness. Being culturally responsive involves understanding and responding to the way power and privilege shape consciousness and form identity and the human experience. Critical assessment includes analyzing how oppression, marginalization and alienation take place and the way human relations are shaped in the social environment. Culturally responsive social work must be considered in all aspects of a student’s field experience. The dimensions of diversity include issues of race, class, gender, gender identity and expression, religion, political ideology, immigration status, sex and sexual orientation, as well as the variances related to age, physicality, power and privilege, access, family and cultural structures. Cultural responsiveness, then, is the student’s ability to not only recognize, but also utilize culturally grounded social work in practice.

Foundation-Year

- Demonstrate Ethical and Professional Behavior
- Engage Diversity and Difference in Practice
- Advance Human Rights and Social, Economic, and Environmental Justice
- Engage in Practice-informed Research and Research-informed Practice
- Engage in Policy Practice
- Engage with Individual, Families, Groups, Organizations, and Communities
- Individuals, Families, Groups, Organizations, and Communities
- Intervene with Individual, Families, Groups, Organizations, and Communities
- Evaluate Practice with Individual, Families, Groups, Organizations, and Communities

Concentration-Year

- Conduct oneself as a professional social worker
- Apply social work professionalism and ethical principles to guide practice
- Develop professional and effective oral and written communication skills
- Understand and respond to agency and community context for advocacy and practice
- Engage with clients and client systems in an empowering and culturally responsive manner
- Assess clients and client systems using knowledge of human behavior and the social environment
- Design culturally responsive intervention strategies
- Evaluate own practices and plan for termination with clients, client systems and communities
- Demonstrate competencies related to certificate and/or PROGRESS program (as applicable)
• Demonstrate competencies related to specific concentration advanced practice behaviors

All GSSW students are expected to honor the NASW Code of Ethics in their social work practice. The NASW Code of Ethics can be accessed online at www.socialworkers.org/pubs/code/.

**Developmental Stages of an Internship**

“The Developmental Stages of an Internship,” a concept taken from *The Successful Internship – Transformation and Empowerment in Experiential Learning* by H. Fredrick Sweitzer and Mary King (2014, 2009), provides a framework for experiential learning. It is a working model based on the observation that students encounter issues and concerns at certain stages during their experience in field. Students progress through five cyclical stages – anticipation, disillusionment, confrontation, competence and culmination – in a predictable manner and order, but not at the same rate of speed. Students sometimes cycle back through earlier stages when confronted with new or challenging learning opportunities.

The stages are also based on the premise that students need to be at the center of this process and involved in all aspects of the internship experience. By understanding the five stages, students are able to anticipate challenges and develop response strategies that are appropriate to their unique experiences. Through this process, students develop the art of self-evaluation and understanding that are key elements for experiential learning and professional growth. As students become active participants in this ever-evolving process of self-knowledge, they are able to confront and remove barriers to their individual success.

GSSW has adapted this model to conceptualize the journey experienced by our students over the 30 weeks of their internships. It is helpful to both interns and field supervisors to become familiar with these stages and to discuss, in supervision, the student’s progress throughout the internship. This developmental model is outlined on the following page, including specific concerns and strategies associated with each stage. We have found this theoretical framework to be useful in understanding the normal cycles of excitement and discouragement associated with any internship experience. It is also a helpful when attempting to resolve problems that might arise in field.

In their foundation year Social Work Practice class, GSSW students become acquainted with this model through reading, discussion and written assignments. The model is also presented and discussed at field supervisor trainings. Anyone wishing to gain more knowledge about this approach to understanding the internship process is encouraged to read Sweitzer’s and King’s book in its entirety.

(see next page for model diagram)
Developmental Stages of an Internship: Transformation and Empowerment in Experiential Learning

Anticipation Stage
Associated Concerns:
Positive expectations
Anxieties
Self
Role
Appropriate disclosure
Self in Authority role
Responsible adult learner
Professional Presentation

Supervisor:
Supervisory style
Expectations of disclosure and boundaries
Perception and acceptance
Assessment
Learning style
Coworkers:
Organizational structure
And roles
Standards of behavior
Acceptance
Diversity

Field Site:
Philosophy, norms, values
Workload
Hiring potential

Clients
Acceptance and perception
Needs and presenting problems
Cultural Diversity

Life Context:
Responsibilities
Support system

Response Strategies:
Learning contract
Liaison
Realistic, clear, specific goals.
Clarify & assess expectations.
Classroom integration
Make informed commitment
Practice Seminar

Disillusionment Stage
Associated Concerns:
Unexpected emotions
- Frustration
- Anger
- Confusion
- Panic
Adequacy of skills
Breadth of demands
Relationship with clients
Operating values of organization
Social Work Values & ethics
Disappointment with supervisor/coworkers safety

Response Strategies:
Acknowledge gap between expectations and reality
Normalize feelings and behaviors
Acknowledge and clarify specific issues
Acknowledge and clarify feelings.
Developing trust
Site visit
Practice Seminar

Confrontation Stage
(Self-confronting)
Associated Concerns:
Achieve independence
Gain confidence
Experience effectiveness
Changes in opportunities
Interpersonal issues
Intrapersonal blocks.
Risk Taking
Authority
Grades

Response Strategies:
Learning Contract
Liaison
Onsite assessment
Reassess goals and expectations
Reassess support systems
Develop specific strategies
Re-evaluate placement
Assess if placement is a good fit for Student and field instructor
Change of agency
Learn from mistakes
Practice Seminar
Academic Adviser

Competence Stage:
Associated Concerns:
High accomplishment
Investment in work
Quality Supervision
Ethical issues
Worthwhile tasks
Home/self/career issues
Foundation Year
Concentration Year

Response Strategies:
Share concerns openly
Develop coping strategies
Identify and deal with ethical dilemmas
Practice Seminar
Ownership
Responsibility
Self-confidence

Culmination Stage:
Associated Concerns:
Termination with clients
Case management issues
Redeﬁne relationships with:
Supervisor
Coworkers
Facility
Peers
Concentration students
Ending Studies
Post-internship plans

Response Strategies:
Identify feelings
Unexpected emotions: sadness, relief, repression, acceptance, dependency etc.
Recognize unfinished business
Meet with supervisor
Gather with colleagues
Write final reflection
Practice Seminar

Developmental Stages of an Internship
Stages are cyclical and students will rotate through them at their own pace
**Advanced Standing** – The advanced standing program option is available only to incoming students who have obtained a baccalaureate degree in social work (BSW) from a college or university whose social work program is accredited by, or in accreditation candidacy with, the Council on Social Work Education at the time the degree is conferred. A student with advanced standing can complete the MSW degree in one calendar year (four academic quarters). In the MSW@Denver program, the Advanced Standing cohort will begin in January of 2019.

**Block Internship** – A block internship allows students to complete a field internship over a concentrated period of time. The block internship is usually taken in the summer and requires students to complete 40 hours per week, for a minimum of 12 weeks in the foundation year or 15 weeks in the concentration year. Concentration-year block internships typically occur over at least two quarters due to the number of required hours. Students wishing to do a block internship must complete an **Internship Exception Request Form** with the assistance of the Assistant Dean for Field Education (or designee). This form can be accessed by students from the Field Education section of the GSSW Student Resources Portfolio page at: https://portfolio.du.edu/gsswstudentresources.

**Certificate** – Several academic certificate programs are offered to Denver main campus MSW students in their concentration year. These certificates allow students in any concentration to pursue in-depth knowledge in a particular social work specialty. For detailed information about GSSW certificates, please see http://www.du.edu/socialwork/programs/oncampus/twoyear/certificates/index.html.

**Concentration Year (Academic)** – Academic quarters three through six of the two-year MSW program, or academic quarters two through four for students with advanced standing, for students in the Denver, Four Corners and Western Colorado programs. Most students in the Online program will be in their Concentration year quarters five through nine of a nine quarter program.

**Concentration Year (Field)** – This is the second year of the two-year MSW program, or academic quarters two through four for students with advanced standing for students in the Denver, Four Corners and Western Colorado programs. Most students in the Online program will be in their Concentration-year field quarters six through nine of a nine quarter program.

**Field Coordinator** – Field Coordinators are members of the GSSW faculty and the Field Education Team. They work directly with students and agencies in the internship placement process.

**Field Instructor** – The Field Instructor is typically an agency staff member who provides the equivalent of weekly supervision to the student intern. The field instructor must typically have both an MSW degree from an accredited school of social work and a minimum of two years post-graduate professional social work experience. Field Instructors may also be referred to as supervisors.
**Field Liaison** – The Field Liaison provides a link between GSSW, the student and the internship agency. Field Liaisons meet jointly with the student and field supervisor typically once per quarter to discuss progress made toward completing internship assignments. Field Liaisons are also available to the student and the agency for problem resolution. Field Liaisons are experienced MSWs from the community and/or GSSW faculty members. In the MSW@Denver program, all field liaison visits will be conducted virtually.

**Field Placement/Internship** – This is the agency or organization in which the student learns and practices social work skills. A field internship differs from paid employment in that the focus of the internship is on learning and applying classroom knowledge.

**Foundation Year (Academic)** – Academic quarters one and two of the two-year MSW program for students in the Denver, Four Corners and Western Colorado programs. Most students in the Online program will be in their Foundation year quarters one through four of a nine quarter program.

**Foundation Year (Field)** – This is the first year of the two-year MSW program for students in the Denver, Four Corners and Western Colorado programs. Most students in the Online program will be in their Foundation year field quarters two through five of a nine quarter program.

**Individualized Field Education Plan (IFEP)** – The IFEP is the student’s learning plan. It reflects the student’s individualized goals in a field internship and outlines areas where development and growth are expected. The IFEP specifies competencies, practice behaviors, learning activities, methods of measurement and evaluation.

**Internship Coordinator** – The Internship Coordinator is the individual at the field agency or organization who coordinates student internships. In some cases, the Internship Coordinator is also the field supervisor.

**Off-Site MSW Field Instructor** – Agencies without an on-site MSW must identify an off-site individual with an MSW from an accredited school of social work to provide the field instruction, which is in addition to the supervision students receive from the on-site task supervisor. It is optimal for the off-site MSW to be familiar with the agency’s mission and work. In the Four Corners, Western Colorado, and Online programs, field liaisons might also serve as off-site MSW supervisors.

**Placement Specialist** – The Placement Specialist is the individual who coordinates student placements for the MSW@Denver program. All agency approvals and student placement matches are approved by the Associate Director for Online Field Education (or designee).

**Supervision/Field Instruction** – This is the supervision meeting time between the student and the field supervisor which also may be referred to as field instruction. Supervision occurs weekly for the equivalent of 1.5 hours in the foundation year and the equivalent of 1 hour in the concentration year. If a student has both an MSW supervisor and a task supervisor, then a supervision schedule is worked out between the supervisors. During supervision, the supervisor incorporates classroom learning into the context of the field internship and answers the student’s questions about topics including client systems, the agency, policies and social work interventions. Students also receive guidance on the day-to-day tasks of the internship.
**Supervisor** – The Field Instructor and/or Task Supervisor

**Task Supervisor** – This is an on-site supervisor who is involved with the student’s day-to-day tasks and provides supervision in addition to that provided by the MSW field instructor. Every intern with an off-site MSW field instructor also has an on-site task supervisor. A task supervisor must have an advanced degree or a level of experience in the field that allows for supervision of a masters level student.

**Work Placement** – A work placement is an internship in a student’s place of employment.
Frequently Asked Questions
Frequently Asked Questions

General Questions about Field Education

**What is the difference between foundation and concentration-year internships?**
Foundation-year internships are generalist in nature and focus on core social work competencies. Foundation-year students work with a variety of client systems. Concentration-year internships focus on competencies required for more advanced social work practice within the student's academic concentration and, if applicable, certificate program. Students with advanced standing enter directly into a concentration-year internship after one quarter of academic courses.

**How many total hours are required for an internship?**
Foundation-year students spend a minimum of 480 hours in an internship over three academic quarters, or an average of 16 hours per week for 30 weeks for students in the Denver, Four Corners and Western Colorado programs. Most students in the MSW@Denver program will be in their Foundation year internship for 12 hours per week for 40 weeks. Concentration-year students (including students with advanced standing) spend a minimum of 600 hours in an internship over three academic quarters, or an average of 20 hours per week for 30 weeks, for students in our Denver, Four Corners, and Western Colorado programs.

Most students in the MSW@Denver program will be in their Concentration year internship for 15 hours per week for 40 weeks. Some concentration-year internships may require students to be in field more than this number of hours per week. Detailed information may be found in the "Field Dates, Hours and Credits" section of the Field Manual. **No student may be in field for fewer than 12 hours per week at any given time.**

**Do students change internship sites each quarter?**
It is the expectation that students spend their entire academic year at one internship site. Students completing two years of internship must do so in two separate agencies.

**Can students receive field credit for past work experience?**
No, students cannot receive field credit for past experience. The accreditation standards of the Council on Social Work Education (CSWE) state that academic credit for life experience and previous work experience shall not be given, in whole or in part, in lieu of the field internship or courses in the professional foundation areas.

Selecting an Internship

**How do I obtain an internship?**

**DENVER PROGRAM:**
- Foundation-year students work closely with a Field Coordinator to determine agencies with which to interview. Students and agencies interview each other.
- Concentration-year students, during the winter quarter of their foundation year, attend an on-campus Field Fair, where students meet with agency representatives to begin selecting
their concentration-year internships. These students also have access to the GSSW field agency database that lists all agencies offering internships.

- Students with Advanced Standing work closely with a Field Coordinator to determine approved agencies with which to interview. They may also access the GSSW field agency database to identify potential agencies of interest.

**FOUR CORNERS PROGRAM:**

- Liaisons meet with students and discuss interests, career goals and experience.
- Liaisons contact agencies that may be a match and arrange for an interview.
- The internship is secured if the agency, student and liaison agree that it is a good fit.

**WESTERN COLORADO PROGRAM:**

- Students work directly with the program director to find an internship based upon interests, career goals and experience. In working with the program director, students will receive contact information for an agency/agencies that may be a match. Students then arrange interview(s) with identified potential agencies.

**MSW@DENVER PROGRAM:**

- Students work with a Placement Specialist to find an internship in the student's local community.
- Students will be required to interview at a faculty-approved site in order for the site/field instructor to determine student qualifications and fit.
- After the interview, agencies will contact the students to offer them an internship. If a match is not made, students continue to interview until they find a suitable placement.

**Do I have to be living in, or visiting, Colorado to find an internship?**

Since GSSW students in the Denver campus program, 4 Corners and WestCO choose their internships for both their foundation and concentration years, they need to interview with potential agencies. While students who are in Colorado conduct these interviews in person, telephone interviews or other electronic types of communication can sometimes be arranged for students who cannot interview in person. However, it is to the student's advantage to arrange a time to interview in person if at all possible.

Students in the MSW@Denver program will not have to live in or visit Colorado at any time, as their internships will generally take place in their local communities.

**Can I complete my internship in my place of employment?**

Students interested in a work placement must submit a Request for Internship in Place of Employment form to the Assistant Dean for Field Education (or designee). Submitting the required form does not guarantee approval of the request.

Two-year MSW students must typically complete one of their two field internships in an agency other than their place of employment. Students must have been in their place of employment for a minimum of six months and must have an MSW internship supervisor other than their employment supervisor. The internship must provide the student with experiences that are distinctly different from the student’s regular job responsibilities.

**I have been offered an internship. Now what?**
Within one week of securing a field internship, students should submit a Field Confirmation Form online. This form provides official documentation for student records and is required for field internship course registration. Students will not receive academic credit for an internship until this form is submitted. Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on PioneerWeb.

**Are students required to have background checks prior to beginning their internships?**
Many agencies require background checks before a student is accepted for, and/or allowed to begin, an internship. If an agency requires any type of background check and/or medical testing, the agency should notify the intern of these requirements during the interview process. Each agency determines the criteria for passing or failing a background check, and communicates this directly to the student. Conducting background checks is the responsibility of the agency. If an agency is not able to pay for these additional requirements, payment is the responsibility of the student.

**What happens if my internship agency wants to hire me before the end of the internship?**
Students may accept offers of employment and maintain their internship in the same agency upon approval of the Assistant Dean for Field Education (or designee).

**Finding Student Forms and Resources**

**Where can I find student forms online?**
All field-related forms and resources are available for students online and can be accessed from the GSSW Student Resources Portfolio page at: [http://portfolio.du.edu/gsswstudentresources](http://portfolio.du.edu/gsswstudentresources).

If you need help finding or completing forms, please contact the Field Office at 303-871-2844 or field@du.edu.

**Field Supervision**

**What are supervision requirements for an internship?**
All students must be supervised by an MSW from an accredited school of social work who has at least 2 years of post-graduate professional social work experience. Some students are also supervised by a Task Supervisor who must have an advanced degree or a level of experience in the field that allows for supervision of a masters level student. Foundation-year students receive the equivalent of at least 1.5 hours of supervision per week, and concentration-year students receive the equivalent of at least 1 hour per week. If a student has both an MSW supervisor and a task supervisor, then a supervision schedule is worked out between the supervisors. It is recommended, but not required, that field supervisors for concentration-year clinically-focused students be Licensed Clinical Social Workers (LCSW).

**What is the difference between a Field Supervisor, Field Instructor, Task Supervisor, Field Liaison and Field Coordinator?**
Field Supervisors, Field Instructors and Task Supervisors all provide supervision to students. A Field Supervisor is an agency staff member who provides weekly supervision to the student intern. All students must be supervised by an MSW Supervisor (Field Instructor) who has an MSW degree from an accredited school of social work and typically has a minimum of two years post-graduate professional social work experience. In addition some students have a Field Supervisor (Task Supervisor) who has an advanced degree or a level of experience in the field that allows for supervision of a masters level student.
A Field Liaison provides a link between GSSW, the student and the internship agency. Field Liaisons meet jointly with the student and field supervisors typically once per quarter to discuss progress made toward completing internship assignments. Field Liaisons are also available to the student and the agency for problem resolution. Field Liaisons are either experienced MSWs from the community or GSSW faculty members.

Field Coordinators are members of the GSSW faculty and the Field Education Team. They work directly with students and agencies in the internship placement process.

**How does an agency become an approved internship site?**

Agencies in the Denver main campus, Four Corners and Western Colorado programs begin the process of becoming an approved internship site by submitting the Agency Information Form (AIF) online. This generates an in-person or virtual visit from a Field Coordinator, during which time learning opportunities, supervision requirements, non-discrimination policies and other matters are discussed. The approval process is formalized through a written agreement with GSSW's Field Education Program.

In the MSW@Denver program, an agency begins the process of becoming an approved internship site by submitting an online Agency Qualification Form.

**What if an agency does not have an MSW on site?**

Agencies without an MSW must have an on-site Task Supervisor who has an advanced degree or a level of experience in the field that allows for supervision of a masters level student. Agencies without an on-site MSW must identify an off-site individual with an MSW to provide the field instruction in addition to the supervision students receive from the on-site supervisor. It is optimal for the off-site MSW to be familiar with the agency’s mission and work.

**What determines a student's tasks and learning opportunities in an internship?**

Each student, in conjunction with the field supervisor, completes an Individualized Field Education Plan (IFEP) which is reviewed and updated each quarter of the internship. The IFEP addresses all of the competencies, practice behaviors, learning activities, methods of measurement and evaluation for each internship year.

**When and why should students contact their assigned Field Liaison?**

Field Liaisons typically contact students and field supervisors during the first three weeks of the internship to set up a schedule for site visits. Throughout the year, students should contact their field liaison if they have questions or concerns regarding the internship, including work load, supervision, Individualized Field Education Plans (IFEPs), quarterly field evaluations or the integration of classroom assignments and the field internship.

**When and why should Field Supervisors contact their assigned Field Liaison?**

Throughout the year, field supervisors should contact their field liaison if they have questions or concerns about their students, Individualized Field Education Plans (IFEPs), quarterly field evaluations, or the integration of classroom assignments and the field internship.

**What happens if problems arise during an internship?**

Problems that arise during an internship are first addressed between the field supervisor and the student. The field liaison is available for problem resolution as needed. If problems cannot be
resolved between the student, the field liaison and the field supervisor, a Student Review hearing may be called. Detailed information can also be found in the "Field Problems and Resolution" and “Student Review” sections. If problems arise related to an agency or a supervisor the Agency Problem Resolution Process is followed.

Can students request to change internships during the year?
Any decisions about changing internships must be made by the field liaison, the field supervisor, the Field Education Program, and the student. Students must follow the process outlined in the Proposal to Change Internship. Detailed information can also be found in the "Field Problems and Resolution" section of the Field Manual.

Scheduling

Can students begin internships prior to the official start date?
Agencies sometimes request that students begin their internships earlier than the official GSSW start date, due to specific program needs. An agency or student wishing to begin an internship prior to the official start date set by GSSW must email a request, stating the desired start date, to the Field Office at field@du.edu.

When are students in field?
Foundation-year students are typically in field for 16 hours per week on Mondays and Tuesdays and sometimes Wednesdays. Concentration-year students (including students with advanced standing) are generally at their internships 20-24 hours per week on Wednesdays, Thursdays and Fridays. Students typically attend classes on the days they are not in field. No student may be in field for fewer than 12 hours per week at any given time.

In the Online program, students will be in field on days and times that are mutually agreed upon between the student, the Field Coordinator, and the agency. Students in the full time MSW@Denver program are in their Foundation-year internship for 12 hours per week for 40 weeks. Concentration-year students are in their internship for 15 hours per week for 40 weeks. Part-time program options are available for students who choose to complete the MSW@Denver program over three or four years. However, the minimum number of internships hours must be the same as above.

Can an internship take place during evening and weekend hours?
Students need to be at their internship during normal agency business hours and during times when their field supervisor is available. These conditions do not usually allow students to do their entire internship during evening or weekend hours although it might be possible to complete some hours during these times. Students wishing to intern during evening and/or weekend hours must discuss their request with a field coordinator and potential internship sites.

What are the policies regarding University holidays, sick days, vacation days and jury duty during an internship?
GSSW does not require students to be at their internships during holidays officially observed by the University of Denver, except during fall quarter when students are expected to be at their internships into December (see the GSSW academic calendar for official dates). Agencies, however, may require that students be at their internships during University holidays, and this requirement may supersede GSSW's holiday policy. The agency should communicate this to students during the internship interview process. Students needing to take additional time off
during their internships must discuss their requests with their field supervisor. See “Religious Accommodation Policy” for additional information. Students who are called to jury duty while in internship need to discuss their hours with their supervisor.

**Transportation**

*Does a student need a car for an internship?*

Many internships require that students have cars to carry out assignments such as home visits, outreach and community work. In addition, some internships are located in areas that are underserved by public transportation. Therefore, students without cars may need to choose internships that are close to their homes, are available by public transportation or that do not require the use of a car to carry out assigned tasks.

*Can students drive clients?*

Interns shall be responsible for transportation to and from the internship site. Interns should not drive clients unless the agency specifies to the intern such requirement as part of the essential duties of the internship. It is the responsibility of the agency to specify to interns whether or not interns shall drive as a part of their essential duties within their internships and to manage any such driving requirements with the interns. Interns are advised that internships requiring driving as an essential duty may require submission to a Motor Vehicles Records check, notification of their insurance carrier of use of their vehicle within the internship, and compliance with driving policies of the agency. University of Denver shall not be responsible for managing any requirements for transportation or driving as part of internships and shall not maintain insurance for interns driving as part of the essential duties of the internship.

Any accidents involving a GSSW student while participating in an internship should be reported to the GSSW Field Office (field@du.edu or 303-871-2844) and Campus Safety (303-871-2334) for appropriate reporting within the University of Denver.
Field Dates, Hours and Credits
Field Dates, Hours and Credits

</tr>
</tbody>
</table>

** The winter quarter includes an 11th week in the academic calendar, however, students would typically be in their internships for only 10 weeks. Therefore, it is up to negotiation between the student and the agency regarding the student's attendance during the 11th week of the quarter.

*Fall Quarter dates cover more than 10 weeks. With agency approval, internship hours may be banked or otherwise negotiated during this quarter.

Agencies sometimes request that students begin their internships earlier than the official GSSW start date, due to specific program needs. An agency or student wishing to begin an internship prior to the official start date set by GSSW must email a request, stating the desired start date, to the Field Education Program Office at field@du.edu.

Deadlines for the submission of Field Evaluations to Field Liaisons

In order to meet University of Denver requirements for posting of grades, field evaluations must be submitted to field liaisons before the end of each academic quarter. The deadlines by which the field liaisons must receive the field evaluations are as follows:

<table>
<thead>
<tr>
<th>Quarter</th>
<th>Deadline</th>

Field Internship Hours and Credits

Foundation-year students in the Denver Campus program are at their internships for 16 hours per week on Mondays and Tuesdays, and sometimes Wednesdays. Concentration-year students (including students with advanced standing) are at their internships 20-24 hours per week on Wednesdays, Thursdays and Fridays. Students generally attend classes on the days they are not at their internships. Students in the Four Corners, Western Colorado and MSW@Denver program will have different schedules depending on the agreement they have with their agency and Field Coordinator.

Foundation-year students in the Denver Campus, Four Corners and Western Colorado programs spend a minimum of 480 hours in an internship over three academic quarters, or an average of 16 hours per week for 30 weeks. Foundation-year students in the MSW@Denver program spend the same amount of time, but over four academic quarters at an average of 12 hours per week for 40 weeks.

Concentration-year students (including students with advanced standing) in the Denver Campus, Four Corners and Western Colorado programs spend a minimum of 600 hours in internship over three academic quarters, or an average of 20 hours per week for 30 weeks. Concentration-year students in the online program spend the same amount of time, but over four quarters at an average of 15 hours per week for 40 weeks. Some concentration-year internships require students to be in field 24 hours per week, which may allow the student to register for additional field credits. However, students may not retroactively sign up for additional field credits. A list of these internships and detailed information may be found in the “Special Arrangements” section of this Field Manual. Students may not add any additional field credits in any given quarter unless they are in a pre-approved 24-hour per week internship. No student may be in field for fewer than 12 hours per week at any given time.

</tbody>
</table>

Information about field internship hours and credits for the MSW@Denver program can be found at: https://onlinemsw.du.edu.
It is the student’s responsibility to discuss with the field agency, prior to beginning the internship, the number of hours per day and the days of the week the agency expects the student to be at the internship. As in any professional internship, the student should expect that it sometimes will be necessary to spend more than the minimum number of hours at the internship in order to complete a task or take advantage of a learning opportunity. Completing the minimum total number of internship hours prior to the ending dates listed above does not automatically result in an early completion of the internship.

Field Policies and Procedures
Student Field Placement Process

Students attending GSSW are not assigned to their internships. Instead, both foundation-year and concentration-year students are able to interview with agencies and take an active role in the selection process. While this process provides students with more choice, it can also present more challenges. Internships must be completed at approved agencies that meet GSSW’s guidelines as appropriate Master of Social Work learning sites. Therefore, students are expected to follow the guidance of the Field Team regarding the internship process*, **.

*(NOTE: Students in the Four Corners, Western Colorado, and MSW@Denver Programs should consult with faculty and staff regarding the placement process. The following instructions are for students in the Denver Campus program). Policies apply to students in all programs.*

Foundation (First)-Year Students:

Once incoming foundation-year students submit their admission deposit to GSSW, they are asked to complete the “Internship Search Form” (ISF) online. The Admission Office provides detailed instructions for incoming students to complete this form after which a member of the Field Team contacts the student to begin the process of arranging the foundation-year field internship.

Field Coordinators, using the information provided by the student on the ISF, work closely with foundation-year students to assess the student’s readiness for field and to identify agencies with which to interview. Students and agencies interview each other. Students who are in Colorado generally have these interviews in person. Although telephone interviews or other electronic types of communication can sometimes be arranged for students who live out of state, it is to the student’s advantage to arrange a time to interview in person if at all possible. If, after an interview, a match is made, the agency contacts the student to offer an internship. The student either accepts or declines the offer. If a match is not made, the student continues to interview with other agencies. This process takes an average of six weeks to complete, beginning from the time a student is contacted by a field coordinator.

Students in the MSW@Denver Program work with a Placement Specialist to find an internship in an agency in the student’s local community. During the student’s first quarter in the program, they may also identify possible internship agencies in their local community and send a referral to their Placement Specialist. Students will be required to interview at a faculty-approved site in order for the site/field instructor to determine student qualifications and fit.

In the Four Corners Program Liaisons meet with students and discuss interests, career goals and experience. Liaisons contact agencies that may be a match and arrange for an interview. The internship is secured if the agency, student and liaison agree that it is a good fit.

Students in the Western Colorado Program work directly with the program director to find an internship based upon interests, career goals and experience. In working with the program director, students will receive contact information for an agency/agencies that may be a match. Students then arrange interview(s) with identified potential agencies.

After securing an internship, students should notify all agencies where they interviewed to inform them of their decision. Within one week, students should submit a Field Confirmation
Form online. This form provides official documentation for student records and is required for field internship course registration. Students are registered for internship credits by the GSSW Registrar. **Students will not receive academic credit for an internship until this form is submitted.** Instructions on how to complete this form can be found on page 164 (see “Field Confirmation Form”). Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on myWeb at www.du.edu. The Field Confirmation Form is a contract between the student and the agency. Any proposed change in internship after the Field Confirmation Form has been submitted must be approved by the Field Education Program.

In addition to the new student orientation, foundation-year students in the Denver main campus program are required to attend a field orientation at the beginning of fall quarter. At this orientation, students meet their field liaisons, review the Field Manual and learn about policies and procedures for field.

In the MSW@Denver program, students complete an Introduction to the Graduate Internship course during the first quarter of their program prior to beginning their internship during the second quarter. This course is taught by the faculty member who will be the field liaison for those students and field orientation is completed as part of that course.

For the Western Colorado and Four Corners Programs, field orientation is held concurrently with new student orientation and at orientation, students meet their field liaisons, review the Field Manual and learn about policies and procedures for field.

* The Field Education Program reserves the right to prohibit a student from interning at an agency where issues of dual roles, or other conflicts may be problematic.

** The Graduate School of Social Work will make reasonable efforts to work with a student to find a suitable internship, but it does not guarantee an internship to students. Should it be determined that a student is not ready for field or if a student is not accepted for a field internship after reasonable efforts by GSSW, a Student Review will be initiated. Reasons to initiate a Student Review may also include:

- offering the student three field internship referrals, all of which the student refuses; and/or
- three post-interview rejections of a student by potential field agencies

### Concentration (Second)-Year Students:

Two-year MSW students begin the process of selecting their concentration-year internships in the winter quarter of their foundation year. This internship search process is conducted much more independently than in the foundation year.

Students are instructed to complete an online “Internship Search Form” (ISF) specific to their concentration and certificate choices. Information is made available to students regarding searching the field agency database for potential agencies of interest, and field team members are available for consultation as needed. After this, Denver students attend the annual Field Fair, where they have the opportunity to meet with representatives from up to 150 agencies. Students **should not** contact field agencies for interviews until after Field Fair, as the agencies will not be ready to conduct interviews until then.
Students and agencies interview each other. If, after an interview, a match is made, the agency contacts the student to offer an internship. The student either accepts or declines the offer. If a match is not made, the student continues to interview with other agencies.

After securing an internship, students should notify all agencies where they interviewed to inform them of their decision. Within one week, students should submit a Field Confirmation Form online. This form provides official documentation for student records and is required for field internship course registration. Students are registered for internship credits by the GSSW Registrar. **Students will not receive academic credit for an internship until this form is submitted.** Instructions on how to complete this form can be found on page 164 (see “Field Confirmation Form”). Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on myWeb at www.du.edu. The Field Confirmation Form is a contract between the student and the agency. Any proposed change in internship after the Field Confirmation Form has been submitted must be approved by the Field Education Program.

Successful completion of foundation-year courses and foundation-year internship is a prerequisite for students beginning concentration-year internship. Students who fail any of the prerequisites for concentration-year internship are required, in conjunction with the Field Education Program, to inform their concentration-year internship site, in a timely manner, of their inability to begin their internship as planned. The Field Education Program will verify that the concentration-year internship agency has been informed of the student’s situation.

* The Field Education Program reserves the right to prohibit a student from interning at an agency where issues of dual roles, or other conflicts may be problematic.
** The Graduate School of Social Work will make reasonable efforts to work with a student to find a suitable internship, but it does not guarantee an internship to students. Should it be determined that a student is not ready for field or if a student is not accepted for a field internship after reasonable efforts by GSSW, a Student Review will be initiated. Reasons to initiate a Student Review may also include:
  • offering the student three field internship referrals, all of which the student refuses; *and/or*
  • three post-interview rejections of a student by potential field agencies

### Students with Advanced Standing:

Once incoming students with advanced standing submit their admission deposit to GSSW, they are asked to complete the “Internship Search Form” (ISF) online. The Admission Office provides detailed instructions for incoming students to complete this form after which a member of the Field Team contacts the student to begin the process of arranging the concentration-year field internship.

Field Coordinators, using the information provided by the student on the ISF, work closely with students with advanced standing to identify approved agencies with which to interview. Students are also instructed on accessing the field agency database to find agencies of potential interest.

Students and agencies interview each other. If, after an interview, a match is made, the agency contacts the student to offer an internship. The student either accepts or declines the offer. If a match is not made, the student continues to interview with other agencies.

After securing an internship, students should notify all agencies where they interviewed to inform them of their decision. Within one week, students should submit a Field Confirmation Form online. This form provides official documentation for student records and is required for field internship course registration. Students are registered for internship credits by the GSSW Registrar. **Students will not receive academic credit for an internship until this form is submitted.** Instructions on how to complete this form can be found on page 164 (see “Field Confirmation Form”). Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on myWeb at www.du.edu. The Field Confirmation Form is a contract between the student and the agency. Any proposed change in internship after the Field Confirmation Form has been submitted must be approved by the Field Education Program.

Successful completion of foundation-year courses and foundation-year internship is a prerequisite for students beginning concentration-year internship. Students who fail any of the prerequisites for concentration-year internship are required, in conjunction with the Field Education Program, to inform their concentration-year internship site, in a timely manner, of their inability to begin their internship as planned. The Field Education Program will verify that the concentration-year internship agency has been informed of the student’s situation.

* The Field Education Program reserves the right to prohibit a student from interning at an agency where issues of dual roles, or other conflicts may be problematic.
** The Graduate School of Social Work will make reasonable efforts to work with a student to find a suitable internship, but it does not guarantee an internship to students. Should it be determined that a student is not ready for field or if a student is not accepted for a field internship after reasonable efforts by GSSW, a Student Review will be initiated. Reasons to initiate a Student Review may also include:
  • offering the student three field internship referrals, all of which the student refuses; *and/or*
  • three post-interview rejections of a student by potential field agencies
Form online. This form provides official documentation for student records and is required for field internship course registration. Students are registered for internship credits by the GSSW Registrar. **Students will not receive academic credit for an internship until this form is submitted.** Instructions on how to complete this form can be found on page 164 (see “Field Confirmation Form”). Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on myWeb at www.du.edu. The Field Confirmation Form is a contract between the student and the agency. Any proposed change in internship after the Field Confirmation Form has been submitted must be approved by the Field Education Program.

Successful completion of advanced standing prerequisite courses and BSW-year internship is a pre-requisite for students beginning their concentration-year internship. Students who fail any of the pre-requisites for concentration-year internship must, in conjunction with the Field Education Program, inform their concentration-year internship site, in a timely manner, of their inability to begin their internship as planned. The Field Education Program will verify that the concentration-year internship agency has been informed of the student’s situation.

In addition to the new student orientation, students with advanced standing are required to attend a field orientation at the beginning of fall quarter. At this orientation, students meet their field liaisons, review the Field Manual and learn about policies and procedures for field.

* The Field Education Program reserves the right to prohibit a student from interning at an agency where issues of dual roles, or other conflicts may be problematic.

** The Graduate School of Social Work will make reasonable efforts to work with a student to find a suitable internship, but it does not guarantee an internship to students. Should it be determined that a student is not ready for field or if a student is not accepted for a field internship after reasonable efforts by GSSW, a Student Review will be initiated. Reasons to initiate a Student Review may also include:

- offering the student three field internship referrals, all of which the student refuses; *and/or*
- three post-interview rejections of a student by potential field agencies.

**Criteria for the Selection of Field Agencies**

Agencies in the Denver main campus, Four Corners and Western Colorado programs begin the process of becoming an approved internship site by submitting the Agency Information Form (AIF) online.

This generates an in-person or virtual visit from a Field Coordinator, during which time learning opportunities, supervision requirements, non-discrimination policies and other matters are discussed. The approval process is formalized through a written agreement with GSSW's Field Education Program.

The AIF can be accessed at https://gsswinternships.du.edu/index.cfm?page=main.agencyinformationForm

In the MSW@Denver program, an agency begins the process of becoming an approved internship site by submitting an online Agency Qualification Form.
The Field Coordinator completes an on-site assessment of the agency and the prospective MSW field supervisor and, if applicable, task supervisor. The agency assessment should be conducted with the agency executive director (or designee) and the field supervisor(s).

Guidelines for agency assessment are as follows:

- The agency’s program must be compatible with GSSW’s educational objectives.
  - If the agency is to be a foundation-year internship site, it must demonstrate the ability to provide a generalist experience, providing both clinical and community learning opportunities for students.
  - If the agency is to be a concentration-year internship, it must show evidence of the ability to provide the student with practice opportunities and field supervision compatible with the student’s academic concentration and (if applicable) certificate.

- The program must be of sufficient size and scope to provide breadth, diversity and depth in learning opportunities.

- If a broad range of learning experiences, including work with diverse clients and systems, is not available, supplemental experiences in another setting should be planned in order to fulfill GSSW’s educational objectives for its students.

- The agency must provide a field supervisor with a Master of Social Work (MSW) degree from an accredited school of social work and whenever possible, at least two years of post-graduate professional social work experience. If the MSW supervisor is off-site then the agency must provide an on-site task supervisor with an advanced degree or a level of experience in the field that allows for supervision of a masters level student.

- Agency staff must have time available to provide effective supervision, including the prospective supervisors’ participation in a GSSW orientation, trainings and field liaison visits. MSW field supervisors are expected to provide the equivalent of 1.5 hours of field instruction per week for foundation-year students, and the equivalent of one hour per week for concentration-year students. Whenever possible, the MSW field supervisor for foundation-year students must be on-site for the majority of the time that the student is at the agency.

- Supervision for students with off-site MSWs includes weekly (for foundation year) and bi-weekly (for concentration year) supervision with the MSW and weekly supervision with the on-site task supervisor. In the Four Corners and Western Colorado Programs, the GSSW field liaisons may also serve as MSW supervisors.

- Physical facilities must be adequate for effective student learning, including desk space, telephone, computer access, office support, reimbursement of on-the-job costs consistent with staff privileges and budgetary provisions, and (when applicable) confidential client-interview space.

- Agencies must have a written non-discrimination policy.
• Agencies must complete the “Agency Agreement” form and submit a signed copy to the Field Office. This form can be accessed at http://www.du.edu/socialwork/media/documents/agency-agreement-2008.pdf. Should an agency require a special contract or any other University signatures, please contact the Field Office at 303.871.2844 or field@du.edu.

Criteria for Selection of Field Supervisors

The primary goal of the field internship is the student’s professional educational development. Capacity for field supervision requires the ability to adapt social work practice skills to teaching and supervision.

The following criteria shall be used in selecting field supervisors:

• Field Instructors must have an MSW from an accredited school of social work and whenever possible, a minimum of two years in post-graduate professional social work practice. Task Supervisors must have an advanced degree or a level of experience in the field that allows for supervision of a masters level student.

• Social work licensure (LCSW) is recommended, but not required, for those supervising concentration-year interns in clinically-focused internships.

• MSW field supervisors must demonstrate the capacity and commitment to assume responsibility for the teaching of students, as evidenced by professional competence in social work practice, identification with the profession, effectiveness in the creative use of agency function and structure to identify learning opportunities, and by following the GSSW Field Manual.

• Task Supervisors must be present and available during the majority of the time that the student is at the internship site and must provide supervision and guidance for students’ day-to-day tasks and responsibilities.

• All field supervisors must demonstrate motivation for field instruction, including readiness to achieve satisfaction from the professional growth of others, through staff supervision or comparable activities, and a desire to participate in the instruction of students in accordance with the philosophy and educational objectives of the GSSW curriculum.

• All field supervisors must honor the agency’s non-discrimination policies in their work with student interns.

• All field supervisors must have time available for effective educational assessment, planning of learning experiences and scheduling of ongoing supervision. Additionally, field supervisors are expected to participate in field supervisor training sessions offered through GSSW.

• All field supervisors must provide a resumé describing their educational background and professional experience.
Background Checks

Background checks are required by some agencies before a student is accepted for, and/or allowed to begin, an internship. If an agency requires any type of background check and/or medical testing, the agency should notify the intern of these requirements during the internship interview process. Each agency determines the criteria for passing or failing a background check and communicates this directly to the student. Conducting background checks is the responsibility of the agency. If an agency is not able to pay for these additional requirements, payment is the responsibility of the student.

If an agency’s background check policy has recently changed, Internship Coordinators should update this information in the GSSW Internships Database, or contact the Field Office by e-mail at field@du.edu.

Driving

Interns shall be responsible for transportation to and from the internship site. Interns should not drive clients unless the agency specifies to the intern such requirement as part of the essential duties of the internship. It is the responsibility of the agency to specify to interns whether or not interns shall drive as a part of their essential duties within their internships and to manage any such driving requirements with the interns. Interns are advised that internships requiring driving as an essential duty may require submission to a Motor Vehicles Records check, notification of your insurance carrier of use of your vehicle within the internship, and compliance with driving policies of the agency. University of Denver shall not be responsible for managing any requirements for transportation or driving as part of internships and shall not maintain insurance for interns driving as part of the essential duties of the internship.

Any accidents involving a GSSW student while participating in an internship should be reported to the GSSW Field Office (303-871-2844) and Campus Safety (303-871-2334) for appropriate reporting within the University of Denver.

Holidays, Breaks, Vacations, and Jury Duty

GSSW does not require students to be at their internships during holidays officially observed by the University of Denver, except during fall quarter when students are expected to be at their internships into December (see the GSSW academic calendar for official dates). Agencies, however, may require that students be at their internships during University holidays, and this requirement may supersede GSSW’s holiday policy. This should be communicated to students during the internship interview process. Students needing to take additional time off during their internships, or wishing to make up time missed for illness or vacation, must discuss their requests with their field supervisors. Students who are called to jury duty while in internship need to discuss their hours with their supervisor.
University of Denver
Religious Accommodation Policy
(adapted for internship sites)

Rationale

The University of Denver community is enriched by individuals of many faiths that have various religious observances, practices and beliefs. In affirming this diversity, it is university policy and practice to provide religious accommodations for students and employees unless the accommodation would create an undue hardship.

Many of these religious observances are related to holy days, or days of observance. Faculty, staff, student organizations, internship sites and other programming groups are strongly urged to be mindful of major holy days in their scheduling. A list of the most-frequently observed religious holidays can be found at: https://portfolio.du.edu/religiouslife/events-activities/calendar.html. Please note that this list is meant to be inclusive, (although not necessary exhaustive), but that religious holidays have no official status at DU.

Policy

University policy grants students excused absences from class or other organized activities for observance of religious holy days, unless the accommodation would create an undue hardship. Faculty and field supervisors are asked to be responsive to requests when students contact them IN ADVANCE to request such an excused absence. Students are responsible for completing assignments given during their absence, but should be given an opportunity to make up work and internship hours missed because of religious observance.

Once a student has registered for a class or started a field internship, the student is expected to examine the course syllabus and agency schedule for potential conflicts with holy days and to notify the classroom instructor and field supervisor by the end of the first week of classes of any conflicts that may require an absence (including any required additional preparation/travel time). The student is also expected to remind the faculty member or field supervisor in advance of the missed class or internship hours, and to make arrangements in advance (with the faculty member/field supervisor) to make up any missed work, in-class material or internship hours within a reasonable amount of time.

If reasonable accommodations for student absences cannot be negotiated, the field liaison should be contacted for further problem-solving.
Medical/Psychology Professional Malpractice Insurance

The University of Denver maintains medical/psychology professional malpractice insurance covering field liaisons and interns as respects their activities related to their required internships within degree programs. This coverage is an annual policy that expires on June 30th each year and is renewed by the Department of Risk Management. For questions or limits please contact the Director of Risk Management at 303-871-2327.

Any potential claims or liability issues must be reported immediately upon notification to
Director
Enterprise Risk Management
2199 S. University Blvd., Room 414
Denver, CO 80208
http://www.du.edu/risk

Students and/or field liaisons should also notify the GSSW Field Office at 303.871.2844 (or field@du.edu) of any potential claims or liability concerns.

Sexual Harassment

The University of Denver’s sexual harassment policies and procedures may be found at http://www.du.edu/equalopportunity/titleix/. If sexual harassment occurs in the field agency, it should be reported to the agency, the field liaison and the Assistant Dean for Field Education, and handled according to the policies of the agency and the University of Denver.

Student Safety in the Field

Students and agencies must work together to create a safe environment. Each agency is responsible for orienting interns to the safety policies and procedures of its setting, as well as supervision and compliance with all applicable local, state and federal laws regarding safety. Each student is responsible for discussing safety concerns with field supervisors. It is important to discuss guidelines for prevention, as well as crisis management plans and safety plans. Such discussions should also include, but not be limited to, safety issues in the community, during home visits, within the agency building and environments and with particular clients prone to violent behavior, and the security of personal belongings. It is required that agency emergency/safety procedures be included in the Individualized Field Education Plan (IFEP).

Students with Disabilities

Students who have disabilities or medical conditions and who want to request accommodations should contact the Disability Services Program (DSP); 303.871.3241; 1999 E. Evans Ave.; 4+ floor of Ruffatto Hall. Information is also available online at http://www.du.edu/studentlife/disability/dsp/index.html; see Student Handbook.

Students are also encouraged to contact the Student Experience Coordinator for GSSW.
Workers’ Compensation Procedures

If injured in the scope and essential duties of an internship, you should seek medical treatment according to state and federal guidelines.

Students in the internship program may be covered under the University’s Workers’ Compensation program if injured on the job while performing the essential duties of the job during the course of their unpaid internship. The University of Denver - Enterprise Risk Management Office manages the University’s Workers’ Compensation Program. If the internship is paid, please follow the internship agency’s Workers Compensation procedures and notify your GSSW Field Supervisor.

STEPS TO START YOUR WORKERS COMPENSATION CLAIM (see also www.du.edu/risk/)
Steps 1 and 2 are required for all internships

1. Seek treatment immediately if you have a serious or life-threatening injury

2. You and your supervisor should complete and return to Risk Management as soon as possible:
   a. Employee First Report of Injury (All Interns)
      http://www.du.edu/risk/media/documents/employeeinjury.pdf
   b. Supervisor’s Report (Site Supervisor preferred)
   c. A signed copy of the Provider Letter (Denver Metro Interns)
      http://www.du.edu/risk/media/documents/forms/workerscompprovider.pdf

3. Send all completed forms to Enterprise Risk Management within 24 hours
   a. Email: risk@du.edu
   b. Fax: 303-871-4455

4. Call Enterprise Risk Management at 303-871-3810

5. For non-life threatening emergency medical treatment in the Denver Metro area, please select one of the following clinics for medical care. Hours are typically 8 am to 5 pm, Monday through Friday.

   Health One
   5990 S University Blvd
   Greenwood Village, CO 80121
   303-634-2970

   On the Mend Occ Med
   3900 S Wadsworth #325
   Lakewood, CO 80235
   303-634-2970

   Concentra Medical Centers
   1212 S. Broadway, Suite 150
   Denver, CO 80210
   303-777-2777

   Centura Centers for Occupational Medicine (CCOM)
   20 W. Dry Creek Circle, Ste. 300
   Littleton, CO 80120
   303-269-2900

   Any Hospital ER

6. If student’s internship is outside of the Denver Metro Area, they should seek treatment immediately at a local emergency room or healthcare facility (Urgent Care, Occupational Medical Clinic, Dr.’s office). Please provide facility contact information and your status
(diagnosis, restrictions, modifications) to Risk Management within 24 hours. Interns may not transport injured parties unless on-scene EMT’s have provided their OK.

For more information, see the Workers’ Compensation Procedure at http://www.du.edu/risk/wc/index.html
Roles, Responsibilities, and Benefits
Roles, Responsibilities, and Benefits

The University of Denver Graduate School of Social Work (GSSW) seeks to implement the accreditting standards established by the Council of Social Work Education (CSWE). This is accomplished by setting forth the division of responsibility between the field agency and GSSW for the administration of field supervision, and by establishing criteria for the selection and appointment of field supervisors. GSSW acknowledges the vital role played by the field agency and field supervisors in the professional educational experience.

Primary responsibility for implementing the CSWE standards is assigned to the Assistant Dean for Field Education, the Field Education Team, Field Liaisons and the Field Advisory Board.

The division of responsibility in the internship requires a high degree of cooperation among all of the participants: GSSW, the Field Education Team, the field liaisons, the field supervisors and the field agencies. This structure is designed to provide the student with a professional educational experience of the highest quality.

Roles and Responsibilities of the Graduate School of Social Work

The Graduate School of Social Work has ultimate responsibility for the administration of the Field Education Program and for all decisions affecting the student including, but not limited to, grades, credits, field hours, student withdrawal and student termination. Through its Field Team, GSSW assumes the following specific responsibilities in relation to the field internship:

1. To approve student internships, with agency consent, and to provide agencies with pertinent information concerning the students selected, as appropriate.

2. To orient field supervisors to the MSW curriculum and the role of the field internship within the MSW program.

3. To provide a field liaison to be the link between GSSW, the student and the internship agency.

4. To provide field education training and professional education for field supervisors, including a training session for all first-time GSSW field supervisors.

5. To provide opportunities for field supervisors and internship coordinators to be involved with the development of the field education component of the MSW program, including invitations to participate on the Field Advisory Board, committees and task force groups.

6. To provide a syllabus for content of field supervision for foundation- and concentration-year students.

7. To provide guidelines for the formal evaluation of students’ field performance in accordance with the Individualized Field Education Plan (IFEP).
8. To evaluate each agency’s appropriateness and effectiveness as a field internship site.

9. To provide criteria for the selection of field supervisors.

10. To evaluate the performance of field supervisors based on student and field liaison feedback.

11. To approve agencies as field internship sites and review the approval in a timely manner.

12. To provide Field Supervisors the following **benefits:**
   
a. University of Denver library privileges, which may be requested through the Field Office by emailing the Program Manager at field@du.edu.

b. Limited half-tuition waivers that can be used for academic classes only; for complete information, contact the Field Program Office via email at field@du.edu.

c. The opportunity to attend continuing education sessions.

**Roles and Responsibilities of the Field Education Team**

Responsibility for the management of the Field Education Program is assigned to the Field Education Team. The Assistant Dean for Field Education administers the program. The Team consists of the Assistant Dean for Field Education, the Associate Director for Field Education, the Associate Director for Online Field Education, the Field Coordinators, the Field Education Program Administrator, and the Field Assistant. Specific responsibilities are as follows:

- The Assistant Dean for Field Education is responsible for ongoing administration and long-term development of the Field Education program, oversight of agency agreements and special contracts, overall evaluation of the Field Education program, standing member of the MSW Curriculum Committee, Executive Advisory Committee and other relevant committees within GSSW, responsible for assuring compliance with EPAS for field policies and processes, chairs the Field Advisory Board, attends Student Review/Termination Hearings, oversees and coordinates field education with the Four Corners and Western Colorado Program Directors, coordinates and consults with the University Department of Enterprise Risk Management and Office of the General Counsel as needed, encourages the advancement of the Field Education Program by serving on other appropriate university, community, state, national and international committees and professional organizations, supervises Associate Directors and the Program Manager.

- The Associate Directors for Field Education assume responsibility for the Field Education Program in the Director’s absence. The Associate Directors’ responsibilities include supervision of all Field Coordinators, field liaison training and supervision, approving and coordinating student exceptions in field, coordinating Student Reviews that originate in field, coordinating stipend programs and tracking data necessary for program development, internship site development and liaison hiring.

- Field Coordinators handle the day-to-day functioning of the Field Education Program, are available to GSSW students for advice and insight on field internships and provide
guidance during the placement process. The Coordinators’ responsibilities also include recruitment, selection and training of field agencies, field supervisors and field liaisons. The Coordinators advise GSSW faculty and field supervisors on field education issues and serve on committees for academic concentrations and certificates.

- The Field Education Program Manager is responsible for the team’s office support, supervision of the Field Administrative Assistant and all work-study students assigned to the Field Office, maintenance and development of the field database, field supervisor training materials and registrations, and coordinating Field Advisory Board and field liaison meetings. The Manager organizes the Field Fair, at which students meet with agency representatives as they begin to select their concentration-year internships. The Manager is responsible for collecting evaluation data on the field agencies, field supervisors, field liaisons, the Field Fair and training events. The Manager also develops the yearly meeting calendar, handles materials and mailings, receives quarterly evaluations and assists in making field liaison assignments.

- The Directors of the Four Corners and Western Colorado Programs, in consultation with the Assistant Dean for Field Education, are responsible for all aspects of the internship program and processes for students in these programs. The Associate Director of Online Field Education oversees the internship program and internship processes for the MSW@Denver program.

Roles and Responsibilities of the Field Liaison

The Field Liaison is the official representative of the Graduate School of Social Work and acts as a link between GSSW, the student and the internship agency. The field liaison plays a variety of roles and provides a number of services in relation to the field internship, including linkage, mediation, monitoring, administration, consultation and advocacy. Specific services rendered depend upon the needs of the field supervisors and students. The field liaison is an ongoing consultant to the field supervisors and field agencies in the selection and planning of learning experiences that are consistent with the curriculum objectives and developmental needs of the student. Additionally, the field liaison provides monitoring and consultation to the field supervisors regarding the student’s progress in the achievement of educational objectives, and is responsible for the final assignment of the grade given in the field internship.

The following responsibilities are assumed by the field liaison:

1. Attending Field Orientation (for applicable programs) and meet with assigned incoming students.

2. Contacting field agencies within the first 3-5 weeks of the first quarter.

3. A minimum of three face-to-face or virtual visits per academic year, unless otherwise arranged, with students and field supervisors. Exceptions may be made for the Denver Campus Program when internships are more than 60 miles from GSSW, or for block placements, in which case other arrangements will be made.

4. Interpreting the MSW curriculum objectives to field supervisors.
5. Clarifying the GSSW expectations regarding internship objectives and appropriate field experiences to students and field supervisors.

6. Assisting in problem-resolution, as needed, to ensure maximum field learning for students.

7. Monitoring the level of supervision provided to students and appropriateness of assignments.

8. Assisting field supervisors in the identification of each student’s learning style and planning learning experiences to fit this style, including accommodations requested and approved under ADA guidelines.

9. Assisting students in identification of learning needs and educational experiences necessary to meet those needs.

10. Monitoring of students’ progress in field internships.

11. Ensuring completion of IFEPs and quarterly evaluation forms.

12. Assigning and submitting grades for the internship.

13. Documenting necessary actions and time-frames when an “In Progress” grade is given.

15. Assisting field supervisors in the development of supervisory and teaching skills.

16. Attending a Student Review/Termination Hearing, when necessary, to assist in the evaluation of a student’s field and academic performance, as part of determining the future of the student’s educational experience. This includes submitting necessary documentation and may include initiating a Student Review/Termination Hearing.

17. Attending periodic field liaison meetings.

18. Evaluating field supervisors and field internship agencies.

Roles and Responsibilities of the Field Agency

Field education is a collaboration between the Graduate School of Social Work and field agencies selected for their willingness and appropriateness to provide experiential learning opportunities for MSW students. The importance of this collaboration, and the central role played by the field supervisors, cannot be overemphasized.

The success of the internship for any particular student rests heavily on the skill and commitment of the field supervisors and the support of agency administration. Upon accepting an MSW graduate student intern, each agency assumes the following responsibilities:
1. To provide a description of agency functions, services provided, client systems served, learning opportunities available to students, and supervisors available, and to update this information annually, or more frequently if necessary.

2. To provide a qualified MSW from an accredited school of social work to serve as the field instructor and, if applicable, a qualified task supervisor.

3. To structure the workload of employees selected as field supervisors so that the necessary time required for field supervision will be made available to the student.

4. To provide adequate workspace for the student and supplies needed to accomplish assigned tasks.

5. To provide experiential learning opportunities that will enable the student to develop the competencies outlined in the IFEP and evaluation form.

6. To inform students of any special requirements that must be completed prior to the beginning of the internship (e.g., CPR training, medical tests, background checks).

7. To conduct any background checks that may be required by the agency before a student can begin the internship.

8. To follow agency policies and FERPA requirements for protecting confidentiality of student-related information.

**Roles and Responsibilities of the Field Supervisors**

The responsibilities of field supervisors are:

1. To complete the basic field supervisors’ training offered by GSSW and, as needed, to participate in subsequent continuing education offered to field supervisors. This includes both MSW field instructors and task supervisors.

2. To provide the equivalent of a minimum of 1.5 hours per week of formal individual field supervision to foundation-year students, and the equivalent of one hour each week to concentration-year students, in addition to informal conferences, as needed, for the student to proceed independently with assignments.

3. To work with the student within the time frame of an average of 16 field internship hours per week for foundation-year students (12 for online students) and an average of 20 field internship hours per week for concentration-year students (15 for online students). Agency meetings, field supervision time and agency paperwork should all be included in the designated number of field internship hours.

4. To select, with student input at the beginning of each academic quarter, internship assignments that are designed to meet the competencies and practice behaviors outlined in the IFEP and evaluation forms.

5. To consult with and direct the student in completing the written IFEP, and to specify for the student expectations and methods of monitoring progress.
6. To share the completed IFEP with the GSSW field liaison each quarter for review and comment.

7. To monitor the student’s progress toward the achievement of objectives and competencies, and to provide direct and specific feedback prior to the quarterly evaluation.

8. To assist in setting up meetings with GSSW faculty and the field liaison, as requested.

9. To meet with the field liaison and the student quarterly, unless otherwise arranged, and to provide the requested information regarding the assignments and the student’s progress toward meeting objectives and competencies.

10. To notify the field liaison of any substantial difficulties which develop in the internship that may eventually require GSSW intervention.

11. To complete the written quarterly evaluation with as much substantiation of ratings as is feasible, and to submit it to the field liaison on or before the date required.

12. To provide general feedback to the field liaison regarding the operation of the field internship, agency/field supervisor needs, student needs and any agency policy or service changes that may affect the internship.

13. To carry out, within the field internship, the agency’s philosophy, function and services, in accordance with its policies and procedures.

14. To plan and implement the IFEP for each student in accordance with GSSW’s curriculum objectives, competencies and field internship procedures.

15. To arrange assignments and supervision for the student in the event that the field supervisor is temporarily absent.

16. To submit a written report and attend a Student Review/Termination Hearing if needed.

Roles and Responsibilities of the Student

Two-year MSW students are required to successfully complete one field internship in their foundation year and another in their concentration year. Students with advanced standing are required to successfully complete a concentration-year internship.

All GSSW students are adult learners who are expected to take an active role in planning and implementing their learning experiences in the field internship. Each student assumes the following specific responsibilities in relation to the field internship:

1. To work with field coordinators as needed in the internship placement process.

2. To complete the online “Internship Search Form” in a timely manner.
3. To read Field Education Program announcements and e-mails in a timely manner.

4. To follow established procedures for selection of an internship agency.

5. To submit the online Field Confirmation Form in a timely manner, understanding that this is a contract between the student and the agency.

6. To become familiar with, and abide by, agency policies and regulations, as well as those of GSSW, and present her/himself in a manner consistent with these standards.

7. To report on time to the agency on scheduled internship days, to work all required hours and to consult with the field supervisors and field liaison regarding any necessary changes in the schedule.

8. In conjunction with the field supervisors, complete the written IFEP and share it with the GSSW field liaison each quarter for review and comment.

9. To provide detailed accounts of practice experiences and samples of work to the field supervisors and field liaison, as requested.

10. To provide the field supervisor with copies of course syllabi (or provide information on how to access electronic course syllabi) for all courses being taken concurrently with the field internship.

11. To prepare for, and participate actively in, all supervision meetings.

12. To attend, and actively participate in, individual and/or group meetings called by the field liaison.

13. To discuss and sign quarterly field evaluations with field supervisors in a timely manner.

14. To abide by the NASW Social Work Code of Ethics at all times and, in so doing, to protect the confidentiality of client systems when required to present case material from the internship in class or in written assignments.

15. To abide by the Academic and Professional Standards of Performance Criteria for Satisfactory Progress, Evaluation, and Review as stated in the University of Denver Graduate School of Social Work Student/Faculty Handbook to the MSW Program.

16. To successfully complete foundation-year courses and foundation-year internship as prerequisite for beginning concentration-year internship. Students who fail any of the prerequisites for concentration-year internship are required, in conjunction with the Field Education Program, to inform their concentration-year internship site, in a timely manner, of their inability to begin internship as planned. Concentration year students who are not in good academic standing and who risk being dismissed from the program must, in conjunction with the Field Education Program, notify the internship site.

17. To complete internship assignments on time, including documentation, reading and recording tasks.
18. To take responsibility for discussing in a timely fashion, with the field supervisors and/or field liaison, concerns that develop regarding the field internship and/or the quality of the learning experience, and to follow established procedures for solving identified problems.

19. To complete evaluations at the end of the academic year of the field agency, the field supervisors and the field liaison.
Special Arrangements
Additional Field Hours for Concentration-Year Students

Some concentration-year students in the Denver program, especially in certain clinically-focused internships, may be required to be at their internships 24 hours per week. In these instances, students may earn additional field credits. Agencies that are approved for 24-hour per week internships are those that offer substantial training, supervision, didactic sessions and other learning opportunities above and beyond that which is typically provided during an internship. Agencies are not approved for 24-hour per week internships based solely on wishing to have an intern on-site for additional time. Agencies may contact the Field Office (field@du.edu) to explore the possibility of offering a 24-hour per week internship.

Students may earn 6 hours of credit per quarter for concentration-year field only in pre-approved agencies and situations. **Students may not add any additional field credits in any given quarter unless they are in a pre-approved 24-hour per week internship.** Students may not retroactively sign up for additional field credits.

The following agencies are pre-approved to offer 24-hour internships, and for students to receive 6 credit hours per quarter, if the student and field supervisor agree that the available learning supports the extra credit hours:

- Child Welfare Stipend Internships
- Children’s Hospital – some, but not all departments
- Colorado Department of Public Health and Environment
- Denver Reception and Diagnostic Center (DRDC)
- Noeticus Counseling Center
- Maria Droste Counseling Center
- Memorial Hospital – Colorado Springs
- Mental Health Partners
- PROGRESS Stipend Student Internships
- Reisher Scholars Program at CSU
- Rocky Mountain Cancer Centers
- St. Joseph Hospital (SCL Health)
- Swedish Medical Center (HealthONE)
- University of Colorado Denver – some, but not all departments
- University of Denver Health and Counseling Center
- Veterans Administration
- other field agencies, *only upon special request for educational reasons*

To request additional credit hours, the student should indicate 6 credit hours on the registration drop-down menus of the online “Field Confirmation Form.” The GSSW Registrar will register the student for 6 credit hours for each quarter that the student is at the internship. **Students will not receive credit for an internship until this form is submitted.**

Instructions on how to complete this form can be found on page 164 (see “Field Confirmation Form”). Once the form is submitted, students should verify that the field registration process is complete by checking their online registration form on myWeb at www.du.edu. Students are registered for internship credits by the GSSW Registrar.
The student’s Individualized Field Education Plan (IFEP) must reflect the increase in hours in specific and concrete competencies, practice behaviors, learning activities, methods of measurement and evaluation. Students completing an international internship are eligible for a total of 18 Concentration field credits.

**Beginning an Internship Early**

Agencies sometimes request that students begin their internships earlier than the official GSSW start date, due to specific program needs. An agency or student wishing to begin an internship prior to the official start date set by GSSW must email a request, stating the reason and desired start date, to the Field Program Office at field@du.edu.

**Block or Modified Block Internships**

As an alternative to the concurrent field plan, students may request, in writing, a block or modified block internship. This allows students to complete a field internship through additional hours per week over a concentrated period of time. The block/modified block internship is usually taken in the summer quarter and requires foundation students to complete 32-40 hours a week for 12-15 weeks, for a minimum of 480 clock hours and a total of 12 credits. Students approved for a concentration-year block internship complete 32-40 hours of field internship per week for 15-19 weeks, for a minimum of 600 clock hours and a total of 15 credits. Typically, concentration-year students will need to complete a modified block internship covering two quarters, as it is not possible to complete the minimum 600 hours in one quarter.

Requests for block/modified block internships are considered on an individual basis, taking into account both personal and educational issues. Students requesting a block internship must contact the Assistant Dean for Field Education (or designee) **six weeks** before the quarter in which the internship would take place. With the assistance of the Assistant Dean for Field Education (or designee), students will complete the **Internship Exception Request Form.**

Tuition and any other fees and expenses for such internships are the responsibility of the student. When considering a block/modified block internship, students should be advised that choices, programs and clients are often different from internships that occur during the rest of the year. Additionally, field supervisors’ availability needs to be considered. Many field agencies are unable to provide block/modified internships.

Foundation-year students must complete all the required foundation courses prior to doing a block/modified block internship. Concentration-year students will either complete all required core concentration-year coursework prior to the modified block internship or they may take it concurrently.
Field Internship In Place Of Employment

(Denver Campus Program - NOTE: Students in the Four Corners, Western Colorado and MSW@Denver Programs should consult with faculty regarding the placement process and required forms.)

The Graduate School of Social Work recognizes that the personal economic situation of some students makes it necessary for them to explore field internship opportunities in their places of employment. It is recognized that professional activity and learning are not inconsistent, but there is a difference between the goals of educational development and those of employment. The focus of the field internship must be on the student’s learning.

Students interested in an employment-based internship must submit their request via the “Request for Field Internship in Place of Employment” form to the Assistant Dean for Field Education (or designee). This form can be accessed from the GSSW Student Resources Portfolio page at: https://portfolio.du.edu/gsswstudentresources.

Students in the two-year MSW program must typically complete one of their two field internships in an agency other than their place of employment. Students must have been in their place of employment for a minimum of six months and must have an MSW internship supervisor other than their employment supervisor. The student must have learning opportunities for their internship experiences that are distinctly different from their usual job responsibilities.

A place of employment can be an internship setting only when the following guidelines are met:

- The agency must have available either different units or distinctly different learning opportunities that will provide the student with non-employment related social work practice experiences. Thus, the student will work outside of his or her current job description activities for the 16 (foundation year) or 20 (concentration year) hours per week that constitute the field internship to ensure that specific, graduate-level learning objectives may be accomplished.

- The agency must have a qualified MSW from an accredited school of social work, with two years of post-graduate experience, to serve as the field instructor. This must be someone other than the student’s regular employment supervisor to ensure, in part, that the field instructor is free to focus on educational aspects of the internship rather than on workload issues. The field instructor must provide individual field instruction for the equivalent of 1.5 hours per week for foundation-year students, and the equivalent of one hour per week for concentration-year students. If the field instructor has never supervised a GSSW student before, the field instructor must complete GSSW’s basic field supervisor training.

- The agency and GSSW must agree that the assignments given to the student are consistent with the educational objectives of the MSW program, and the assignments must show evidence of sound educational design and planned development of the student’s capacities. This may necessitate lighter caseloads, planned and varied assignments for educational purposes, and additional hours above the normal workweek to achieve internship requirements.
• The student must have completed at least six months of employment at the agency prior to the beginning of the internship.

In developing a field internship in the place of employment, it is expected that the student will take the initiative by making the proposal to the Assistant Dean for Field Education (or designee) and coordinating the administrative requirements of the agency. These steps are to be followed:

1. The student must discuss with the Assistant Dean for Field Education (or designee) intent to request an internship in the agency of employment **six weeks** prior to the beginning of the internship quarter for GSSW-approved field agencies, or **three months** prior to the beginning of the internship quarter for agencies not yet approved as field internship sites. Within the following two weeks, the student must submit to the Assistant Dean for Field Education (or designee) the “Request for Field Internship Agreement in Place of Employment” form. This form can be accessed from the GSSW Student Resources Portfolio page at: [https://portfolio.du.edu/gsswstudentresources/page/44317](https://portfolio.du.edu/gsswstudentresources/page/44317). Submitting a proposal does not guarantee approval of the request.

2. Within a month, the student should also discuss the proposed internship plan with her/his academic adviser.

3. The Assistant Dean for Field Education (or designee) will review the request and notify the student whether the internship is acceptable and/or whether any modifications will be necessary. Notification will be made within two weeks if the agency has already been approved by GSSW as a field agency, or within six weeks if it has not yet been approved. Copies of the approved internship plan will be sent to the student’s academic adviser, field liaison, and the field supervisor.

   If the internship in the place of employment is found to be unacceptable, the student must then agree to find another internship approved by GSSW.

4. A member of the Field Team may visit the agency to discuss with the administrator and/or field supervisors how GSSW’s educational objectives will be met during the internship.

5. It will be the responsibility of the field liaison to determine that the internship remains consistent with GSSW’s educational objectives and the proposal made by the student. Deviations from the internship plan may result in the student’s internship being terminated.

**Offers of Employment by Internship Agency**

*(Denver Campus Program - **NOTE**: Students in the Four Corners, Western Colorado and MSW@Denver Programs should consult with faculty regarding the placement process and required forms.)*

The Graduate School of Social Work recognizes that the goal of most students is to secure employment as an MSW upon graduation. Community agencies also prefer to hire employees who are well educated, already trained, and have proven themselves as valuable members of the team. Thus, there are times when internship agencies will offer paid employment positions to student interns who have not yet completed their internship. While professional activity and
learning are not incompatible, there is a difference between the goals of educational development and those of employment.

Students may accept offers of employment and maintain their internship in the same agency upon approval of the Assistant Dean for Field Education (or designee), only when the following guidelines are met:

- The student submits a proposal which outlines the job responsibilities, internship tasks, and the way in which they will be delineated if the student accepts the offer of employment (see attached form).

- The agency must agree that the student can complete the requirements of the internship (IFEP goals, Concentration competencies, certificate requirements, etc.), even though she or he has become an employee of the agency. This may necessitate lighter caseloads, a longer probationary or orientation period, planned and varied assignments for educational purposes, and additional hours above the normal workweek to achieve the internship requirements.

- There must be a qualified MSW from an accredited school of social work, with two years of post-graduate experience, to serve as the field instructor. This must be someone other than the person who will supervise the student’s work as a paid employee to ensure, in part, that the field instructor is free to focus on the educational aspects of the internship rather than on workload issues. The field instructor must provide individual field instruction for the equivalent of 1.5 hours per week for foundation-year students, and the equivalent of one hour per week for concentration-year students. If the field instructor has never supervised a GSSW student before, the field instructor must complete GSSW’s basic field supervisor training.

- The student must have completed at least one quarter of internship at the agency and have received a passing grade prior to the acceptance of paid employment.

Upon receipt of an offer of employment, it is expected that the student will take the initiative by submitting the proposal to the Assistant Dean for Field Education (or designee) and coordinating the approval of the appropriate agency personnel. These steps are to be followed:

1. The student must submit the “Request for Employment at Internship” form to the Assistant Dean for Field Education (or designee). Submission of a proposal does not guarantee approval of the request.

2. The Assistant Dean for Field Education (or designee) will review the request and notify the student within two weeks as to whether or not the proposal has been approved. A meeting with the Assistant Dean for Field Education (or designee) may be required to discuss the proposal and any modifications that may be necessary.

3. Upon approval of the request, student will be required to complete a new Field Confirmation Form (FCF) if the location or supervisors involved with his or her internship will change as a result of employment.
4. It will be the responsibility of the field liaison to determine that the internship remains consistent with GSSW’s educational objectives and the proposal by the student.

5. Should the request be denied, a student will have two weeks from the date of denial to address the areas of concern and resubmit the proposal to the Assistant Dean for Field Education (or designee). If the revised proposal is still denied, a student may appeal the decision to the Associate Dean for Academic Affairs.

6. Deviations from this process may result in the student’s internship being terminated.

**International and Out-of-State Internships**

GSSW has several established international and out-of-state internship opportunities for concentration-year students. Occasionally students propose their own ideas for internship sites. Two-year students interested in these internships should meet with the Assistant Dean for Field Education (or designee) toward the middle of the fall quarter of their foundation year. Advanced Standing students should arrange a meeting during their first quarter at GSSW. In order for an international experience to count as an internship it must be pre-approved by the Assistant Dean for Field Education (or designee), must be a minimum of 6 weeks duration and must be registered for field credits. Supervision must be available and students must have an International Internship Individualized Field Education Plan (IFEP). A formal plan must be put into place for the details of the internship, the number of academic credits associated with the internship, risk management approval (if needed), and supervision arrangements. A final evaluation must be completed by a supervisor utilizing the International Internship Evaluation Letter template.

These internships typically occur in the summer between the foundation and concentration years although other arrangements are possible. In most situations, students are rarely able to complete the total number of hours required for the concentration-year internship, so they usually complete their hours at a local agency beginning in the fall quarter of the concentration year. The experience is the most meaningful when there is a similar mission between the off-site internship and the local one. It is possible under certain circumstances to complete all Concentration-year field requirements in an international or out-of-state internship.

Advanced Standing students wishing to complete an international internship typically do so in the summer following their academic courses, requiring 5 quarters rather than 4 to complete their degree.

Students completing an international internship are eligible for a total of 18 Concentration year field credits.

For further information about international internships and other international opportunities please see [https://portfolio.du.edu/gsswstudentresources/page/52739](https://portfolio.du.edu/gsswstudentresources/page/52739).
Changes in Internship, Field Problems and Resolution
Changes in Field Internship

Field internships are chosen after a thoughtful process that includes the student, the agency and the Field Team. Once a field internship has been confirmed, it is expected that the student will complete the entire academic year, or block placement, at that internship. Disruption of a field internship is not taken lightly. Changing a student’s internship is considered only when serious circumstances that cannot be remedied merit this radical disruption of the student’s experiential education. Any decision about a mid-year internship change will be made jointly by the Field Team, the field liaison, the field supervisor and the student, with consultation from the academic adviser. No more than one student-initiated internship change may occur per year.

If it appears that there should be a mid-year change in field internship, the field liaison should be consulted for the appropriate process and to guide this change. Students who leave an internship without prior approval of their field liaison risk failing the field internship. Students who are asked to leave their internship because of performance problems may receive a “No Pass,” and a Student Review will be initiated (see Field Problems and Resolution on page 64). Students are not to initiate a search for another internship without the expressed approval and participation of their field liaison and the Field Team.

Below is a list of the criteria for consideration of a mid-year internship change. It is up to the student’s field liaison and/or the Field Team to determine whether particular situations are serious enough to inhibit the student’s learning to the degree that the competencies required to fulfill the internship cannot be met.

Student-related criteria:

- The student has moved to a new location that substantially increases the commute to the internship agency.
- The student has experienced a family/personal crisis (e.g., death, divorce, serious illness) which makes working with the current client population or in the current setting unmanageable.
- The student’s experiential learning needs within a particular GSSW concentration or certificate program are not being met.
- The student, in consultation with the field liaison, identifies irreconcilable conflicts with the field supervisors, including those related to cultural responsiveness, which preclude a productive student-supervisor relationship.

Agency-related criteria:

- The agency is experiencing a period of reorganization that significantly disrupts the student’s learning.
- The agency has relocated, resulting in a substantial increase in the length of the student’s commute.
- The agency has down-sized or otherwise lost the staff who has provided the student’s field supervision, and the agency has no other staff qualified and/or with time available to serve in this role.
• The agency does not have enough internship-related work/learning experiences for the student (e.g., clients, projects, groups, etc.).

• The agency no longer supports the field supervisors in providing the amount of student supervision required by GSSW.

• The agency cannot provide a safe environment for the student.

• The agency’s mission, policies or theoretical base conflict with social work values/ethics or GSSW guidelines.

Field Supervisor-related criteria:

• The field supervisor experiences a personal crisis (e.g., illness, death of a loved one, accident, etc.) which interferes with her or his ability to be available to supervise the student.

• The field supervisor, in consultation with the field liaison, identifies potentially irreconcilable conflicts with the student, including those related to cultural responsiveness, that preclude a productive student-supervisor relationship.

• The field supervisor assigned to supervise the student is not qualified to be a field supervisor.

• The field supervisor is given a new job assignment within the agency that precludes fulfilling her/his field supervisor role, and a qualified replacement cannot be identified.

• The field supervisor does not comply with GSSW’s policies and procedures regarding supervision or evaluation of the student.

Proposal to Change an Internship
Process and Documentation:

If a change in internship is initiated by the student, s/he must first contact field supervisors and participate in the formal problem-solving process outlined on page 62. If a change in internship is initiated by the agency, they must first contact the student and participate in the formal problem-solving process. If the problem-solving process results in the decision to change internships, the student must follow the process outlined below. A student may not search for a new internship until s/he has approval from her/his field liaison. Under some circumstances additional approval is needed from the Associate Dean for Academic Affairs. Students should expect the entire change process to take at least four to six weeks.

The first three documents listed below must be completed and submitted to the field liaison before a student can begin searching for a new internship. The field liaison submits these documents to the Assistant Dean for Field Education (or designee) for approval. The student may be required to make changes to these documents during the approval process. Once the documents are finalized, the Assistant Dean for Field Education (or designee) will forward them to the student’s academic adviser, the field liaison supervisor, and other field team members as appropriate. The documents may also be forwarded to the GSSW Director of Student Services.
and the Associate Dean for Academic Affairs. It is the student’s responsibility, in conjunction with the field liaison, to share these documents with the student’s next field supervisors.

1. A formal termination plan that addresses the student’s termination with clients, the agency and the field supervisors. This termination plan should also address the completion of any assignments or their transition to others in the agency if necessary. This termination plan must be signed by the student, field supervisors and field liaison.

2. A reflection statement by the student that addresses the following:
   - What events led to this decision?
   - What is my rationale for leaving this internship?
   - What was my agency/field supervisors’ role in this situation?
   - What was my role in this situation?
   - In reviewing the “Competency/Skill” areas of my evaluation and/or the agency-level remediation contract, what areas need the most attention? (Your response should address the following 8 points.)
     1. Describe each Competency/Skill that needs the most attention as it relates to my internship.
     2. What were the challenges in my performance?
     3. What steps did I implement to resolve the situation?
     4. How did my field supervisors and other agency resources help me?
     5. What do I need to do in my next internship to address my challenges?
     6. What does my next field supervisor need to know about my challenges?
     7. What is my plan to improve in these Competency/Skill areas?
     8. What did I learn about myself?

3. A final evaluation of the student from the current agency, including a verification of internship hours completed.

4. Students may be required to meet with a Field Coordinator to begin a new internship search.

5. The number of hours that will be credited from the original internship will be determined on an individual basis.

6. A new Field Confirmation Form submitted online once a new internship is obtained. Instructions for completing this form can be found on page 164 of this manual.

Once a new internship is obtained, a formal transition plan must be developed specifying target dates for creating a new Individualized Field Education Plan (IFEP), assuming responsibilities at the new agency, and completing the “Notification of IP Status in Field” form, if applicable. This process is coordinated by the Field Liaison.

**Field Problems and Resolution**

The field internship is an integral part of the student’s educational experience and preparation for professional practice. Performance in the field is a critical indicator of readiness for professional
practice and is a key element of the MSW program. It is important that concerns arising in the field internship be discussed early, and that feedback be given regularly. Concerns related to internships may be raised by students, field liaisons, field supervisors, GSSW faculty, or the Field Education Program.

A student should convey concerns related to the field internship directly to the field supervisors. If, for some reason, the student believes this is not possible, s/he may discuss the concerns with the field liaison instead. In many cases, the field supervisors or field liaison may coach the student in resolving the problem for her/himself. The field liaison will be responsible for monitoring the progress of any attempted resolutions.

The field supervisors should be the first to intervene when a student is experiencing problems in the internship. If the issues are not resolved in a timely manner, or result in actual or potential harm, the field supervisors must notify the field liaison. The field liaison must keep the field liaison supervisor apprised of the situation.

Whenever possible, the following steps should be taken to resolve problems in a field internship:

1. The student and/or the field supervisors identify the problem and attempt to resolve it by meeting together to discuss the problem and possible solutions.

2. If the problem is not resolved, the student and/or field supervisors consult with the field liaison, and another attempt is made to resolve the problem.

3. If the problem is still not resolved, the field liaison facilitates a meeting between the student and the field supervisors as soon as possible. As a result of this meeting, a remediation contract is developed at the agency level to address the problem. In completing this contract, a comprehensive problem-solving plan including specific time frames for resolution must be developed. Within a week following the meeting, the field liaison writes the contract and distributes it to the student, field supervisors, field liaison supervisor and academic adviser. A remediation contract at the agency level is required whenever a student is at risk of failing to meet the requirements for a specific competency or competencies, unless the situation requires a Student Review before the agency-level remediation contract can be developed.

4. If necessary, additional meetings may occur involving the student and the GSSW field team and/or other GSSW faculty.

5. If it is determined at any point that the problem resolution requires that a student change internship sites, then the Change in Field Internship Policy takes effect (see page 60).

6. If the problem remains unresolved, a Student Review or Termination Hearing will be called by the Associate Dean for Academic Affairs. The Student Review and Termination Hearing processes may be found in the *University of Denver Graduate School of Social Work Student/Faculty Guide to the MSW Program*.

7. In a situation in which a student is perceived to have caused actual or potential harm to clients or client systems, the student may be immediately removed from the internship upon the recommendation of the field supervisors, the field liaison and/or the GSSW Field Education Program. If initiated by the agency, this action requires discussion with the field liaison supervisor and the Assistant Dean for Field Education. If such emergency action is required, the student’s academic adviser will be notified and,
whenever possible, a decision on the next procedural steps will be made within a 72-hour period. A Student Review or Termination Hearing will be called as quickly as possible.

8. A Student Review or Termination Hearing will be called if the routine problem resolution steps are not successful and/or if a student is terminated from the internship.

9. At the initiation of a Termination Hearing a student may be withdrawn from the field internship.

10. If a student remains in field following a Student Review or Termination Hearing she/he must intern in a GSSW pre-approved agency with an on-site MSW. The number of hours that may or may not be credited from the original internship will be determined on an individual basis.

11. Lack of success in an internship following a Student Review that originated in field may result in a Termination Hearing.

12. If concerns arise related to an agency or supervisor, the Agency Problem Resolution Process will be followed.

Student Review and Termination Hearing

Student Review and Termination Hearing policies apply to students enrolled in field and academic courses. The policies and procedures can be found in the MSW Student Handbook located on the Quick links section of our website: https://www.du.edu/socialwork/currentstudents/index.html

Agency Problem Resolution Process

Difficulties or concerns can occasionally arise related to an agency or a supervisor that will be addressed directly by the field team because the issues are beyond the scope of what is deemed appropriate for a student to address with his/her supervisor or the agency without assistance. The field internship is an integral part of the student’s educational experience and preparation for professional practice, and the experience, training and supervision provided by the internship agencies are critical to this process. It is important that any concerns related to an agency’s ability to provide a quality learning experience for a student or appropriate levels of safety are discussed and addressed, and that a plan for resolution of the concerns at the agency is mutually agreed upon by the field team and the agency, and implemented by the agency.

Concerns related to an agency may be raised by students, field liaisons, field supervisors, the agency itself or the field team. It is expected that students communicate any concerns they have directly to their liaison. Once a concern has been raised, the field team will take steps to address and resolve. Concerns may become known as a result of a liaison’s observation of the student and the internship, a student’s report of their experience while at the agency, as a result of others involved with the agency in some fashion or as a result of information shared by the student at the end of the year in the program evaluations they complete. Concerns may include inadequate supervision, inadequate or inappropriate tasks or responsibilities, safety concerns, micro
aggressions or anything that is seriously impacting the student attaining his/ her learning goals. The goal of the field team at GSSW is always to assess accurately and work collaboratively with the agency to resolve concerns, and in a fashion that maintains the quality of the professional relationship between the agency and GSSW.

The field team will take the following steps to resolve problems or concerns with a field agency:

1. Once a concern is brought to the attention of the field team, the designated field team member will consult with the liaison assigned to the agency and other involved field members to get accurate and thorough information to assess the nature of the concern and what would be required for resolution. When appropriate a student will be consulted.
2. If a student is currently at an agency, it will be determined whether the concern is serious enough to take immediate action.
3. If appropriate, the liaison will have a discussion with members of the agency to work towards a solution of the problem or concern.
4. If, in consultation with the field team, it is deemed out of the scope of the liaison’s role due to the seriousness of the concerns, a field team member will develop a plan for addressing the concern which could include any or all of the following:
   a. Field team member talking with the appropriate individuals at the agency.
   b. Field team member scheduling a meeting with the individuals at the agency, which may or may not include the liaison.
   c. Temporarily changing the status of the agency to “under review” or “temporarily not accepting students” in the database so there is opportunity to resolve the concern prior to another student accepting an internship there.
   d. Assessing whether the concern is serious enough to warrant removing the student from the internship because of safety concerns or significant compromises to the learning goals.
   e. Assessing whether there has been a pattern of concerns at an agency with previous attempts to resolve.
5. A plan for resolution of the concern is to be mutually agreed upon by the agency and the field team and implemented by the agency. Specifics of this plan will be documented in the journal notes in the GSSW internship database. If resolution is reached, the agency will be made “active” for other students to explore as an internship site. Resolution plans could potentially include any of the following and/or any other adjustments that would respond to the presenting concerns:
   a. Adjusting the supervisory plan to meet the needs of students and the requirements of GSSW.
   b. Adjusting the tasks and responsibilities a student will be given so as to be able to meet the expected competencies.
   c. Reducing the number of students at an agency.
6. In the event that a concern is unable to be resolved to the satisfaction of the field team, and the concerns would seriously impact the quality of the learning or safety for a student, the field team may decide to “close” an agency for future students unless or until a satisfactory solution can be agreed upon. It will also be assessed whether further actions are necessary.
7. If necessary, additional meetings may also occur with the Assistant Dean for Field Education or the Associate Director for Field Education.
8. Once a resolution has been reached, ongoing evaluation will occur to assess the efficacy of the plan. This will occur in consultation with the agency, the liaison and the field team.
Individualized Field Education Plans (IFEPs)

IFEP instructions and templates may be accessed online and downloaded by STUDENTS at: https://portfolio.du.edu/gsswstudentresources/page/44317

IFEP instructions and templates may be accessed online and downloaded by AGENCIES at: http://www.du.edu/socialwork/fieldeducation/agencies/index.html
The completed IFEP will serve as a contract between the student and the field supervisor and should be reviewed and/or updated each quarter, documenting the opportunities provided by the internship and a plan for student accomplishments.

The IFEP and the Quarterly Field Evaluation are designed to work together. It is most helpful to have the Quarterly Evaluation and the list of competencies/practice behaviors in front of you when completing and/or reviewing the IFEP. A summary of the competencies/practice behaviors is listed below, and a full list of competencies/practice behaviors can be found at: http://portfolio.du.edu/gsswstudentresources/page/44317.

- Demonstrate Ethical and Professional Behavior
- Engage Diversity and Difference in Practice
- Advance Human Rights and Social, Economic, and Environmental Justice
- Engage in Practice-informed Research and Research-informed Practice
- Engage in Policy Practice
- Engage with Individual, Families, Groups, Organizations, and Communities
- Assess Individuals, Families, Groups, Organizations, and Communities
- Intervene with Individuals, Families, Groups, Organizations, and Communities
- Evaluate Practice with Individuals, Families, Groups, Organizations, and Communities

Foundation Year
**Individualized Field Education PLAN**

**Part I**

To help students and supervisors determine the basic structure of the internship, it is recommended that these items be discussed at the beginning of the internship.

**Student Schedule** *(Days and Hours)*
________________________________________________________________________

**Supervision** *(Day, time)*
________________________________________________________________________

**Off-Site Supervision if applicable** *(Day, time, location)*
________________________________________________________________________

**Additional Support:** *(Names and contact information of people the student can utilize when the supervisor is unavailable)*
________________________________________________________________________

**Agency Emergency/Safety Procedures:** *(After-hours safety/security, home visits, crisis management, etc.)*
________________________________________________________________________

**Absence Policy:** *(How will absences be addressed? Who does the student contact regarding absences? What is the phone/email information for the contact? After-hours phone numbers?)*
________________________________________________________________________

**Student Space** *(Workspace, available resource (I.e. phone, computer, copier)*
________________________________________________________________________

**Other:** *(e.g.: holidays, tracking of hours, etc.)*
________________________________________________________________________

**Part II**
Students and supervisors should follow these steps in completing the IFEP:

1. Students read over and discuss the Quarterly Field Evaluation with their field supervisor.
   a. Discuss how the practice behaviors listed in the evaluation apply to the agency and the internship responsibilities.
   b. Determine the tasks, activities, and learning that need to occur so that the student can meet the requirements for internship competencies.
   c. If the internship does not include the opportunity to address all of the competencies found on the quarterly evaluation, the field supervisor and the student should explore ways that the internship can be expanded. This process may also occur if the student identifies additional activities or areas of interest.
   d. This discussion should also address the ways that supervision will be structured.
   e. Students will then complete this IFEP. Depending upon the agency, the initial IFEP may contain tasks/activities relevant to the first quarter only or may contain tasks/activities that will be accomplished throughout the year.
   f. Include specific activities in which the student will participate.
   g. Include as many items as necessary.

2. The completed IFEP will be reviewed by the field liaison each quarter. It is important that the student and supervisor review and update the IFEP as needed each quarter.

3. The IFEP will be signed and used as the official learning contract.

Utilizing the list of competencies and practice behaviors (at: http://portfolio.du.edu/gsswstudentresources/page/44317), describe the activities and tasks that will be completed during the internship. Many activities frequently address more than one competency.

- 
- 
- 
- 
- 

(Include as many as needed - Update each quarter)

If applicable, describe other activities and tasks that are available in the internship. This may include optional tasks and/or activities that are of particular interest to the student.
(Include as many as needed - Update each quarter)

Identify issues that the student personally needs to address for professional development (Optional for first quarter, required for second and third quarters)

(Include as many as needed)

COMPETENCY ONE—DEMONSTRATE ETHICAL AND PROFESSIONAL BEHAVIOR

**Practice Behavior One: Appropriate Use of Self**
Use reflection and personal boundaries to manage personal values and maintain professionalism in practice and agency situations. (Q1; Q2; Q3)

**Practice Behavior Two: Professional Behavior**
Demonstrate professional demeanor and expression in behavior and practice, to include: working knowledge of agency, professional appearance, and oral, written, and electronic communication. (Q1; Q2; Q3)

**Practice Behavior Three: Use of Supervision**
Use supervision and consultation to guide professional judgment and behavior. (Q1; Q2; Q3)

**Practice Behavior Four: Application of Social Work Ethics**
Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context. (Q2; Q3)

**Practice Behavior Five: Demonstrate Use of Technology**
Use technology ethically and appropriately to facilitate practice outcomes. (Q2; Q3)

COMPETENCY TWO—ENGAGING DIVERSITY AND DIFFERENCE IN PRACTICE

**Practice Behavior One: Assume the Role of a Learner**
Present themselves as learners and engage clients and constituents as experts of their own experiences. (Q1; Q2; Q3)

**Practice Behavior Two: Self-Awareness and Personal Boundaries**
Apply self-awareness and personal boundaries to manage the influence of personal biases and values in working with diverse clients and constituents. (Q1; Q2; Q3)

**Practice Behavior Three: Awareness of and Respect for Difference**
Apply and communicate understanding of the importance of diversity and difference in shaping life experiences in practice at the micro, mezzo, and macro levels. (Q2; Q3)

**COMPETENCY THREE—ADVANCE HUMAN RIGHTS AND SOCIAL, ECONOMIC, AND ENVIRONMENTAL JUSTICE**

**Practice Behavior One: Advocate for Human Rights**
Apply their understanding of social, economic, and environmental justice to advocate for human rights at the individual and system levels. (Q2; Q3)

**Practice Behavior Two: Promote Justice through Practice**
Engage in practices that advance social, economic, and environmental justice. (Q2; Q3)

**COMPETENCY FOUR—ENGAGE IN PRACTICE-INFORMED RESEARCH AND RESEARCH-INFORMED PRACTICE**

**Practice Behavior One: Apply Practice Experience and Theory in Research**
Increase familiarity with research and best practices; Use practice experience and theory to inform scientific inquiry and research. (Q2; Q3)

**Practice Behavior Two: Critically Analyze Research**
Apply critical thinking to engage in analysis of quantitative and qualitative research methods and research findings. (Q3)

**Practice Behavior Three: Use of Research Evidence**
Use and translate research evidence to inform and improve practice, policy, and service delivery. (Q3)

**COMPETENCY FIVE—ENGAGE IN POLICY PRACTICE**

**Practice Behavior One: Identify Policies Impacting Clients**
Identify social policy at the local, state, and federal level that impacts well-being, service delivery, and access to social services. (Q2; Q3)

**Practice Behavior Two: Analyze Impact of Policies on Clients**
Assess how social welfare and economic policies impact the delivery of and access to social services. (Q2; Q3)

**Practice Behavior Three: Develop and Advocate for Policies**
Apply critical thinking to analyze, formulate, and advocate for policies that advance human rights and social, economic, and environmental justice. (Q3)
COMPETENCY SIX—ENGAGE WITH INDIVIDUAL, FAMILIES, GROUPS, ORGANIZATIONS, AND COMMUNITIES

**Practice Behavior One: Engage Diverse Clients**
Use empathy, reflection, and interpersonal skills to effectively engage diverse clients and constituencies. (Q1; Q2; Q3)

**Practice Behavior Two: Integration of Social Work Perspective**
Integrate classroom learning with field practice: apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks to engage with clients and constituencies. (Q2; Q3)

COMPETENCY SEVEN—ASSESS INDIVIDUALS, FAMILIES, GROUPS, ORGANIZATIONS, AND COMMUNITIES

**Practice Behavior One: Critically Analyze Data**
Collect and organize data, and apply critical thinking to interpret information from clients and constituencies (independently, observed, or with supervised guidance). (Q2; Q3)

**Practice Behavior Two: Analyze Data through Social Work Lens**
Apply knowledge of human behavior and social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the analysis of assessment data from clients and constituencies (independently, observed, or with supervised guidance). (Q2; Q3)

**Practice Behavior Three: Collaborate with Clients**
Develop mutually agreed-on intervention goals and objectives based on the critical assessment of strengths, needs, and challenges within clients and constituencies. (Q2; Q3)

**Practice Behavior Four: Develop Intervention Skills**
Select appropriate intervention strategies based on the assessment, research knowledge, and values and preferences of clients and constituencies. (Q2; Q3)

COMPETENCY EIGHT—INTERVENE WITH INDIVIDUALS, FAMILIES, FAMILIES, GROUPS, ORGANIZATIONS, AND COMMUNITIES

**Practice Behavior One: Implement Appropriate Interventions**
Critically choose and implement interventions to achieve practice goals and enhance capacities of clients and constituencies. (Q2; Q3)

**Practice Behavior Two: Apply Social Work Concepts to Interventions**
Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in interventions with clients and constituencies. (Q2; Q3)

**Practice Behavior Three: Professional Collaboration**

Use inter-professional collaboration as appropriate to achieve beneficial practice outcomes. (Q2; Q3)

**Practice Behavior Four: Client Advocacy**

Negotiate, mediate, and advocate with and on behalf of diverse clients and constituencies. (Q2; Q3)

**Practice Behavior Five: Transition and Termination Skills**

Facilitate effective transitions and endings that advance mutually agreed-on goals. (Q2; Q3)

**Competency Nine—Evaluate Practice with Individuals, Families, Organizations, and Communities**

**Practice Behavior One: Develop Evaluation of Outcomes**

Select and use appropriate methods for evaluation of outcomes such as receiving and integrating feedback, performing ongoing self-evaluation, utilizing agency outcome measures, and seeing how own practice fits into agency. (Q2; Q3)

**Practice Behavior Two: Include Social Work Values in Evaluation**

Apply knowledge of human behavior and the social environment, person-in-environment, and other multidisciplinary theoretical frameworks in the evaluation of outcomes. (Q2; Q3)

**Practice Behavior Three: Evaluate Intervention**

Critically analyze, monitor, and evaluate intervention and program processes and outcomes. (Q3)

**Practice Behavior Four: Use of Evaluation Findings**

Apply evaluation findings to improve practice effectiveness at the micro, mezzo, and macro levels. (Q3)
UNIVERSITY OF DENVER - GRADUATE SCHOOL OF SOCIAL WORK

Individualized Field Education Plan (IFEP) – Concentration Year

Student ____________________________________________________________ Agency______________________________________________________

MSW Field Instructor__________________________________________________________

Task Supervisor (if applicable) ________________________________________________

Field Liaison ________________________________________________________________

Quarter _____ Year _____ (Review and update each quarter as needed)

Student Concentration:

☐ advanced social work practice  ☐ health and wellness
☐ aging services and policy  ☐ mental health
☐ child welfare  ☐ mental health & trauma (MSW@Denver students)
☐ children and youth: risks and positive development  ☐ organizational leadership and policy practice
☐ family systems practice  ☐ sustainable development and global practice

❖ The completed IFEP will serve as a contract between the student and the field supervisor and should be reviewed and/or updated each quarter, documenting the opportunities provided by the internship and a plan for student accomplishments.

❖ The IFEP and the Quarterly Field Evaluation are designed to work together. It is most helpful to have the Quarterly Evaluation and the list of competencies/advanced practice behaviors in front of you when completing and/or reviewing the IFEP. A summary of the competencies/practice behaviors is listed below, and a full list of competencies/advanced practice behaviors can be found at: http://portfolio.du.edu/gsswstudentresources/page/44317.

 o Conduct oneself as a professional social worker
 o Apply social work professionalism and ethical principles to guide practice
 o Develop professional and effective oral and written communication skills
 o Understand and respond to agency and community context for advocacy and practice
 o Engage with clients and client systems in an empowering and culturally responsive manner
 o Assess clients and client systems using knowledge of human behavior and the social environment
 o Design culturally responsive intervention strategies
 o Evaluate own practices and plan for termination with clients, client systems and communities
 o Demonstrate competencies related to certificate and/or progress program (if applicable)
 o Demonstrate competencies related to specific concentration advanced practice behaviors
Part I

To help students and supervisors determine the basic structure of the internship, it is recommended that these items be discussed at the beginning of the internship.

Student Schedule *(Days and Hours)*

Supervision *(Day, time)*

Off-Site Supervision if applicable *(Day, time, location)*

Additional Support: *(Names and contact information of people the student can utilize when the supervisor is unavailable)*

Agency Emergency/Safety Procedures: *(After-hours safety/security, home visits, crisis management, etc.)*

Absence Policy: *(How will absences be addressed? Who does the student contact regarding absences? What is the phone/email information for the contact? After-hours phone numbers?)*

Student Space *(Workspace, available resource (I.e. phone, computer, copier)*

Other: *(e.g.: holidays, tracking of hours, etc.)*
Part II

Students and supervisors should follow these steps in completing the IFEP:

4. Students read over and discuss the Quarterly Field Evaluation with their field supervisor.
   a. Discuss how the practice behaviors listed in the evaluation apply to the agency and the internship responsibilities.
   b. Determine the tasks, activities, and learning that need to occur so that the student can meet the requirements for internship competencies.
   c. If the internship does not include the opportunity to address all of the competencies found on the quarterly evaluation, the field supervisor and the student should explore ways that the internship can be expanded. This process may also occur if the student identifies additional activities or areas of interest.
   d. In addition to choosing the general practice behaviors, students must list the 3 **required** concentration-specific practice behaviors (list found at: [http://portfolio.du.edu/gsswstudentresources/page/44317](http://portfolio.du.edu/gsswstudentresources/page/44317)).
   e. This discussion should also address the ways that supervision will be structured.
   f. Students will then complete this IFEP. Depending upon the agency, the initial IFEP may contain tasks/activities relevant to the first quarter only or may contain tasks/activities that will be accomplished throughout the year.
   g. Include specific activities in which the student will participate.
   h. Include as many items as necessary.

5. The completed IFEP will be reviewed by the field liaison each quarter. It is important that the student and supervisor review and update the IFEP as needed each quarter.

6. The IFEP will be signed and used as the official learning contract.

Utilizing the list of competencies and practice behaviors (at: [http://portfolio.du.edu/gsswstudentresources/page/44317](http://portfolio.du.edu/gsswstudentresources/page/44317)), describe the activities and tasks that will be completed during the internship. Many activities frequently address more than one competency.

- 
- 
- 
- 
- 

*(Include as many as needed - Update each quarter)*
Using the list of concentration-specific advanced practice behaviors (list found at: http://portfolio.du.edu/gsswstudentresources/page/44317), list the 3 required for the student’s concentration. Discuss how each of these practice behaviors will be addressed in the internship. These 3 required practice behaviors will be added to the student’s quarterly evaluation.

1.

2.

3.

If applicable, describe other activities and tasks that are available in the internship. This may include optional tasks and/or activities that are of particular interest to the student

- 
- 
- 
- 
- 

(Include as many as needed - Update each quarter)
Identify issues that the student personally needs to address for professional development (Optional for first quarter, required for second and third quarters)

- 
- 
- 

*(Include as many as needed)*

**CERTIFICATE STUDENTS:**
Describe how the specific requirements of the certificate and/or PROGRESS Program will be integrated into the internship

- 
- 
- 

*(Include as many as needed)*

**SIGNATURES:**

CONCENTRATION PRACTICE
Individualized Field Education Plan (IFEP)
Competencies and Practice Behaviors

COMPETENCY ONE—CONDUCT ONESELF AS A PROFESSIONAL SOCIAL WORKER

**LEARNING GOAL:** I will demonstrate self-awareness and autonomy by recognizing and discussing my personal strengths and weaknesses; having clarity about my own personal values and attitudes and the way in which they impact my practice; accepting full responsibility for my field learning; being efficient in my use of time, honoring appointments, deadlines, and other commitments; and carrying out assignments with appropriate level of supervisory assistance. I will use supervision time appropriately by being prepared for my supervision sessions; being open to ongoing performance evaluations; and revising conceptualizations and interventions based on feedback.

**PRACTICE BEHAVIOR ONE: APPROPRIATE USE OF SUPERVISION**
I will demonstrate the ability to actively participate in the learning process and develop my role as a professional social worker. (2.1.1.1)

**PRACTICE BEHAVIOR TWO: Self-Awareness and Autonomy**
I will demonstrate self-awareness and the ability to take responsibility for my field learning. (2.1.2.1)

**PRACTICE BEHAVIOR Three: Use of Time and Professional Demeanor**
I will demonstrate efficient use of time and professional demeanor in behavior and appearance.

**PRACTICE BEHAVIOR Four: Problem Solving**
I will take responsibility for field learning and demonstrate an ability to problem solve with regard to internship challenges and difficulties.

COMPETENCY TWO – APPLY SOCIAL WORK PROFESSIONALISM AND ETHICAL PRINCIPLES TO GUIDE PRACTICE

**LEARNING GOAL:** I will demonstrate the appropriate application of social work roles and values in my practice by understanding and showing commitment to professionalism and the Social Work Code of Ethics within
the context of the agency; respecting client confidentiality and self-determination; demonstrating cultural responsiveness in values, beliefs, and behavior and with sensitivity to all those facing issues of oppression, marginalization, power and privilege; utilizing research in all aspects of practice; and committing to ongoing development of a conceptual framework for practice in the changing contexts of social work.

**Practice Behavior One: Ethical Practice**
I will demonstrate ethical practice reflecting social work values including maintenance of confidentiality and professional boundaries. (2.1.2.1)

**Practice Behavior Two: Professional Behavior and Agency Culture**
I will demonstrate professional behavior and an understanding of role identification and power dynamics within the agency as well my function within the agency’s structure. (2.1.10(a).1)

**Practice Behavior Three: Awareness, Respect and Advocacy for Diverse Groups**
I will demonstrate an awareness of and responsiveness to diverse client groups and an ability to advocate on behalf of diverse groups. (2.1.9.1)

**Competency Three—Develop Professional and Effective Oral and Written Communication Skills**

**Learning Goal:** I will demonstrate clear oral and written communication skills by using appropriate and culturally responsive professional language; being accurate in reporting processes; using active listening and conflict management skills; being willing to express myself in group situations, and increasing my public speaking skills (e.g. speeches, leading programs, legislative advocacy).

**Practice Behavior One: Written Documentation**
I will document according to agency guidelines.

**Practice Behavior Two: Communication**
I will demonstrate the ability to communicate with clients, colleagues, and community members in a culturally responsive manner. (2.1.3.1)

**Practice Behavior Three: Professional and Agency Terminology**
I will demonstrate a knowledge and use of professional and agency terminology.
COMPETENCY FOUR– UNDERSTAND AND RESPOND TO AGENCY AND COMMUNITY CONTEXT FOR ADVOCACY AND PRACTICE

LEARNING GOAL: I will demonstrate knowledge of the agency and represent them well by adhering to agency policies and procedures; accurately articulating the mission, goals, and structure of the organization; being aware of subsystems, super-systems, and their interrelatedness; recognizing and responding to the changing contexts of practice; and understanding the organizational environment.

PRACTICE BEHAVIOR ONE: AGENCY FRAMEWORK
I will demonstrate an understanding of the theoretical framework of the agency and the context of practice. (2.1.3.1)

PRACTICE BEHAVIOR TWO: AGENCY OPERATIONS
I will demonstrate an understanding of agency programs, community connections and funding agreements.

PRACTICE BEHAVIOR THREE: AGENCY POLICIES AND PROCEDURES
I will demonstrate my understanding and ability to follow agency policies and procedures as well as how they apply to local, tribal, state, and federal systems. (2.1.8.1)

PRACTICE BEHAVIOR FOUR: POLICY DEVELOPMENT AND IMPLEMENTATION
I will demonstrate an understanding of how policies are developed and implemented at the agency. (2.1.8.1)

PRACTICE BEHAVIOR FIVE: DEVELOPING GRANTS
I will demonstrate an understanding of how grants are developed and utilized by the agency, identifying the complexities and social dynamics of the funding process.

COMPETENCY FIVE: ENGAGE WITH CLIENTS AND CLIENT SYSTEMS IN AN EMPOWERING AND CULTURALLY RESPONSIVE MANNER

LEARNING GOAL: I will demonstrate the ability to engage in, develop and research culturally responsive relationships with client systems and community partners, recognizing issues of power, privilege, oppression and marginalization. When working with communities I will practice effectively achieving commitment, ownership, education and sanction for the change process in a culturally responsive manner. By demonstrating sensitivity across various systems, using open-ended questions and exploring verbal and non-verbal communication, I will participate in
forming empowering relationships while working for human rights, social and economic justice.

**Practice Behavior One: Engagement**
I will demonstrate ability to engage and develop culturally responsive relationships with clients, client systems and/or community partners. (2.1.4.1; 2.1.5.1; 2.1.10(a).1)

**Practice Behavior Two: The Change Process**
I will demonstrate my ability to effectively achieve commitment and ownership from constituents so necessary education and appropriate sanction for change may be achieved in a culturally responsive manner. (2.1.10(b).1)

**Competency Six: Assess Clients and Client Systems Using Knowledge of Human Behavior and the Social Environment**

**Learning Goal:** I will guide clients, client systems and community partners in the analysis of their issues, resources, goals and solutions. I will demonstrate the ability to gather facts, analyze issues and apply appropriate interventions and theory bases to clarify issues and identify strengths as well as constraints and will integrate these factors into a viable assessment. I will use research to evaluate and inform practice.

**Practice Behavior One: Analysis of Issues, Resolutions, Goals and Solutions**
I will demonstrate the ability to guide clients, client systems and/or community partners in the analysis of their issues, resources, goals, and solutions. (2.1.10(b).1)

**Practice Behavior Two: Comprehensive Assessments**
I will demonstrate the ability to gather facts, analyze issues, and apply appropriate theory bases to plan interventions based on a comprehensive assessment and/or complete a community needs assessment. (2.1.7.1)

**Practice Behavior Three: Effective Diagnosis and Case Conceptualization**
I will demonstrate the ability to use effective and culturally responsive assessments to determine diagnosis and/or case conceptualization. (2.1.7.1)

**Competency Seven– Design Culturally Responsive Intervention Strategies**

**Learning Goal:** I will demonstrate culturally responsive intervention strategies and skills by establishing genuine, non-judgmental helping
relationships and with awareness of issues of power, privilege and oppression. I will use appropriate interviewing techniques, group leadership skills, brokering/mediating/networking/advocating skills, personal management skills, and administrative skills, maintaining a problem-solving focus; having the ability to explore and clarify the feelings of others and being aware of non-verbal communication. I will use research to inform practice and practice to inform research.

**Practice Behavior One: Promote Social Justice and Advocacy**
I will demonstrate the ability to effectively promote social justice and advocacy by recognizing issues of power, privilege and oppression. (2.1.5.1; 2.1.10(c).1)

**Practice Behavior Two: Program Design and Implementation**
I will demonstrate the ability to design and implement a training, program, or organizing strategy to meet the needs of the identified client, client system and/or community. (2.1.6.1)

**Practice Behavior Three: Individual and/or Family Intervention Skills**
I will demonstrate effective and culturally responsive intervention skills and/or strategies with individuals and/or families. (2.1.6.1; 2.1.10(c).1)

**Practice Behavior Four: Group Facilitation**
I will demonstrate the ability to facilitate a group, meeting, or event.

**Competency Eight: Evaluate Own Practices and Plan for Termination with Clients, Client Systems and Communities**

**Learning Goal:** I will demonstrate evaluation and termination skills by being able to specify objectives for planned intervention with clients systems and community partners and articulating clear criteria for determining the success of the intervention; designing and implementing client and/or program evaluation strategies; being able to evaluate my overall effectiveness in practice; and accepting responsibility for termination/transfer through oral and written communication. This process may occur throughout the internship for various reasons. I will use knowledge of practice-informed research and research-informed practice to evaluate.

**Practice Behavior One: Design and Implement Program Evaluation**
I will demonstrate an ability to design and implement program evaluation strategies.

**Practice Behavior Two: Evaluate Personal Practice**
I will demonstrate an ability to evaluate my practice. (2.1.10(d).1)

**Practice Behavior Three: Responsibility for Termination and Transfers**
I will accept responsibility for termination of client systems and transfer of responsibility through oral and written communication.

**Competency Nine - Demonstrate Competencies Related to Certificate and/or Progress Program (Concentration Students with Additional Certificates Only)**

**Learning Goal:** I will demonstrate competencies necessary for my particular certificate by being able to integrate academic courses and the internship; having knowledge of how agency policies impact service delivery in relationship to the content of the certificate and the populations served; being able to utilize certificate specific strategies needed in working with various client populations; assisting the agency in understanding the nature of the specialized work of the certificate and linking the theories of the certificate to the profession and ethics of social work; and adhering to social work values, ethics, roles and purposes.

**Practice Behavior One: Integration of Classroom Learning and Internship Experience Related to Certificate**
I will demonstrate an application of classroom learning and the specific field requirements of my certificate program in my fieldwork.

**Competency Ten - Demonstrate Competencies Related to Specific Concentration Advanced Practice Behaviors**

**Learning Goal:** I will demonstrate advanced practice competencies necessary for my particular concentration by being able to apply and integrate academic courses and classroom learning into my internship; having knowledge of how agency policies impact service delivery in relationship to the concentration and the populations served in this particular context; being able to utilize concentration specific strategies needed in working with various client populations; linking the theories of the concentration to the profession and ethics of social work; and adhering to social work values, ethics, roles and purposes.

**Note:** On the following pages you will find three advanced competency practice behaviors that have been identified for each concentration that are to specifically be addressed in field. While there are many other competencies and practice behaviors that will be addressed, the three listed are those that are going to be of particular focus on the Individualized Field Education Plan and on the quarterly evaluation for the students’ chosen concentration.
**Advanced Social Work Practice**  
**Advanced Competencies and Practice Behaviors**

Demonstrate professional use of self within a person in environment, strengths based perspective. *(Practice Behavior 2.1.1.2)*

Demonstrate the ability for independent investigation of diversity and difference and apply this knowledge to building relationships with and responsiveness to clients/constituents. *(Practice Behavior 2.1.4.1)*

Promote the development of interventions and services that have the potential to contribute to systemic change and meet the specific needs of the community. *(Practice Behavior 2.1.9.2)*

**Aging Practice and Policy**  
**Advanced Competencies and Practice Behaviors**

Demonstrate reflective practice and use of supervision to identify and correct potential values and biases, including those related to working with persons with limited decisional capacity. *(Practice Behavior 2.1.1.2)*

Apply standards of the profession when making ethical decisions involving clients/constituents and their families with special attention to those who have limited decisional capacity and to marginalized populations. *(Practice Behavior 2.1.2.2)*

Provide care management to link older adults and their families to resources and services. *(Practice Behavior 2.1.10(a).2)*

**Child Welfare**  
**Advanced Competencies and Practice Behaviors**

Demonstrate use of sound ethical judgments in child welfare practice. *(Practice Behavior 2.1.2.2)*

Establish a relationally based process that encourages clients to be equal participants in the establishment of case plan goals and expected outcomes. *(Practice Behavior 2.1.10(a).2)*

Implement child welfare interventions and collaborate with other professionals to coordinate interventions. *(Practice Behavior 2.1.10(c).2)*
Children and Youth
Advanced Competencies and Practice Behaviors

Understand how the NASW code of ethics applies to and guides decision making when specifically working with children and youth, and use this code of ethics to be an advocate for children. (Practice Behavior 2.1.2.2)

Develop a relationship with the client that reflects a consideration of the cultural context of development and risk and protective factors including the role played by race, ethnicity, gender, sexual orientation, and ability/disability. (Practice Behavior 2.1.10(a).2)

Implement empirically supported interventions or best practices that are culturally responsive to a child or youth client and their family. (Practice Behavior 2.1.10(c).2)

Family Systems Practice
Advanced Competencies and Practice Behaviors

Demonstrate professional use of self within a person-in-environment (family systems), strengths based perspective. (Practice Behavior 2.1.1.2)

Identify and use knowledge of relationship dynamics, including power differentials in ethical decision-making. (Practice Behavior 2.1.2.2)

Communicate professional assessments from a strengths based perspective to the various systems involved with families. (Practice Behavior 2.1.3.2)

Health and Wellness
Advanced Competencies and Practice Behaviors

Address the cultural, spiritual and ethnic values and beliefs of clients and respectfully collaborate with diverse perspectives of colleagues. (Practice Behavior 2.1.4.2)

Establish a relationship and collaborative process with clients that assist clients in understanding their own health and wellness patterns and treatment options. (Practice Behavior 2.1.10(a).2)
Implement culturally conscious best practices and strengths based interventions that promote health and wellness for client systems. *(Practice Behavior 2.1.10(c).2)*

**Mental Health**  
**Advanced Competencies and Practice Behaviors**

Demonstrate professional use of self and develop therapeutic relationships with clients in mental health settings using a person-in-environment and strengths perspective. *(Practice Behavior 2.1.1.2)*

Apply ethical decision-making skills to clinical social work in mental health, substance use and trauma. *(Practice Behavior 2.1.2.2)*

Establish a relationship and collaborative process with clients that helps them understand their mental health needs and treatment options. *(Practice Behavior 2.1.10(a).2)*

**Organizational Leadership and Policy Practice**  
**Advanced Competencies and Practice Behaviors**

Promote the development of interventions and services that have the potential to contribute to systemic change in organizational, community and policy settings. *(Practice Behavior 2.1.9.2)*

Engage diverse constituent groups in collaborative and mutually empowering relationships that promote problem solving and policy analysis in community, organizations and policy systems. *(Practice Behavior 2.1.10(a).2)*

Provide leadership, collaborate, coordinate, or negotiate to design and implement community, policy and organizational change. *(Practice Behavior 2.1.10(c).2)*

**Sustainable Development and Global Practice**  
**Advanced Competencies and Practice Behaviors**

View self as learner and engage those with whom one works as an informant and actively promote and engage in co-learning environments. *(Practice Behavior 2.1.4.2)*

Provide leadership in promoting sustainable changes in service delivery and practice to improve the quality of interventions. *(Practice Behavior 2.1.9.2)*
Establish collaborative relationships for the integrity and well being of complex social ecological systems. (Practice Behavior 2.1.10(a).2)
Field Evaluations and Grading Policies

Quarterly student evaluations may be accessed online and downloaded by STUDENTS at: https://portfolio.du.edu/gsswstudentresources

Quarterly student evaluations may be accessed online and downloaded by AGENCIES at: http://www.du.edu/socialwork/fieldeducation/agencies/index.html
Field Evaluations

Quarterly field evaluations are designed to provide an interactive process for the student and field supervisor to review the student’s progress, areas of strength and areas needing continued growth.

Evaluations are due by the dates listed in the “Field Dates, Hours and Credits” section of this Field Manual. It is the student’s responsibility to alert the field supervisor that the due date for the evaluation is approaching. The evaluation must be signed by the MSW field instructor, the task supervisor (if applicable), and the student, then submitted to the field liaison by the specified due date. The field supervisor recommends the grade earned by the student, but the field liaison has the prerogative to submit a final grade different from that recommended by the field supervisor with documented reason.

Students are evaluated at the end of the first, second and third quarters of their internship, focusing on their progress toward mastery of core social work competencies. In the case of a block internship, the number and timing of evaluations will be determined on an individual basis. Field Supervisors have the ability to amend a quarterly evaluation if a student’s performance changes significantly within that quarter.

Fall quarter evaluations are typically completed prior to a student finishing their internship for the quarter.

This evaluation is completed electronically. Instructions for accessing and completing the evaluation are available in the Field Education section of the GSSW website.

Grades

Students receive a Pass, No Pass, or In Progress (IP) grade for each quarter of their internship.

An IP grade may be considered in two situations—those not related to a student’s performance and those that are related to performance.

An IP should be considered for the following circumstances that are not related to a student’s performance:

- Pre-approved reduction of internship hours
- Late start or internship change
- Emergencies (medical, family, personal)
- Agency issues that are temporary
- Hours are not met but student is in good standing

An IP should be considered for the following circumstances that are related to a student’s performance. For an IP to be given under these circumstances, the Problem Resolution Policy must be followed.

- Hours are not met with additional concerns
- Hours are met but time is needed to work on competencies
- Performance issues that require resources such as additional site visits and/or Field Education Program involvement
• Significant number of low ratings on evaluation
• Student Review/Termination Hearing is warranted

The IP resolution process is as follows:

If an IP is given because of issues that are not related to a student’s performance, the following steps are taken to resolve the IP:

• The field supervisor should wait to complete the quarterly evaluation until the IP is resolved.
• Once the IP is resolved, the quarterly evaluation should be submitted to the field liaison.
• Discussion must occur between the field supervisor, the field liaison and the Field Education Program.
• The field liaison completes the necessary documentation and submits it to the field liaison supervisor.

If an IP is given because of issues that are related to a student’s performance, the following steps are taken to resolve the IP:

• The field supervisor should complete and submit the quarterly evaluation.
• Once the IP is resolved, the field supervisor submits a letter to the field liaison on agency letterhead outlining the resolution that has occurred.
• Discussion must occur between the field supervisor, the field liaison and the Field Education Program.
• The field liaison completes the necessary documentation and submits it to the field liaison supervisor.

In some cases, a student’s registration for field credits for subsequent quarters may be impacted until the IP is cleared.
STATEMENT OF CULTURAL RESPONSIVENESS

Being culturally responsive involves understanding and responding to the way power and privilege shape consciousness and form identity and the human experience. Critical assessment includes analyzing how oppression, marginalization and alienation take place and the way human relations are shaped in the social environment. Culturally responsive social work must be considered in all aspects of a student’s field experience. The dimensions of diversity include issues of race, class, gender, gender identity and expression, religion, political ideology, immigration status, sex and sexual orientation, as well as the variances related to age, physicality, power and privilege, access, family and cultural structures. Cultural responsiveness, then, is the student’s ability to not only recognize, but also utilize culturally grounded social work in practice.
### Scoring Guideline

This rubric is intended to show student learning over time. Depending on the student’s prior experience, the student may vary from the lower end of the ratings to the higher end; however, it is generally expected that students will progress throughout the year.

<table>
<thead>
<tr>
<th>N/A</th>
<th>No opportunity to evaluate this competency.</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td><strong>No Pass</strong>; <strong>Requires</strong> field liaison contact.</td>
</tr>
<tr>
<td>2</td>
<td>Significant concern in this area; rating of 2 <strong>requires</strong> field liaison contact and may constitute a No Pass.</td>
</tr>
<tr>
<td>3...4</td>
<td>Initial Ability: Beginning development of skill or knowledge area. Predominantly functions with supervision and support.</td>
</tr>
<tr>
<td>5...6</td>
<td>Shows Growth: More in-depth development of skill or knowledge area in mildly complex situations. Relies heavily on supervision and support. <strong>Typically achieved by the end of second quarter.</strong></td>
</tr>
<tr>
<td>7...8</td>
<td>Routinely: Consistently demonstrates skill or knowledge area in difficult situations with supervision and support.</td>
</tr>
<tr>
<td>9...10</td>
<td>Effectively: Consistent, appropriate, autonomous use of skill or knowledge in difficult situations. <strong>Typically achieved by end of the internship.</strong></td>
</tr>
</tbody>
</table>

It is up to the field supervisor to make the decision of rating. The following table illustrates the student’s approach to their fieldwork. The rubric is designed to measure the student’s movement from dependence to autonomy.

<table>
<thead>
<tr>
<th>3-4</th>
<th>5-6</th>
<th>7-8</th>
<th>9-10</th>
</tr>
</thead>
<tbody>
<tr>
<td>• Tends to be more dependent on supervisor.</td>
<td>• Tends to be more autonomous.</td>
<td></td>
<td></td>
</tr>
<tr>
<td>• Tends to rely more on supervision for direction.</td>
<td>• Uses supervision for collaboration.</td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

### Scoring Instructions

94
• Select the most appropriate rating for the student’s performance *at the point of evaluation*.

• If the student seems to fall between two categories:
  o When a student’s work is between two categories, such as between a 5-6 and a 7-8, the field supervisor must pick the category where the student meets the most criteria.
  o The field supervisor may choose to make a note in the box at the bottom of the page to indicate the reason for this rating.

• If a student receives a rating of 1 or 2, *YOU MUST* note specifics in space provided at the bottom of each page.

*Typically achieved by end of the internship.*

**Notes (required for rating of 1 or 2; optional otherwise):** Jane Doe is between a 6 and a 7, but I gave her a 7 because she can evaluate and understand potential ethical dilemmas, can apply social work values, but still needs some assistance when identifying appropriate resolutions.

**Notes (required for rating of 1 or 2; optional otherwise):** I gave Jane Doe a 2 because I am concerned. She has shown little interest in her fieldwork and does not see the importance of ethical issues. I have set up a meeting with our field liaison next week to discuss this concern.

Being culturally responsive involves understanding and responding to the way power and privilege shape consciousness and form identity and the human experience. Critical assessment includes analyzing how oppression, marginalization and alienation take place and the way human relations are shaped in the social environment. Culturally responsive social work must be considered in all aspects of a student’s field experience. The dimensions of diversity include issues of race, class, gender, gender identity and expression, religion, political ideology, immigration status, sex and sexual orientation, as well as the variances related to age, physicality, power and privilege, access, family and cultural structures. Cultural responsiveness, then, is the student’s ability to not only recognize, but also utilize culturally grounded social work in practice.
**SCORING GUIDELINE**

This rubric is intended to show student learning over time. Depending on the student’s prior experience, the student may vary from the lower end of the ratings to the higher end; however, it is generally expected that students will progress throughout the year.

<table>
<thead>
<tr>
<th></th>
<th>Beginning of Year</th>
<th>End of Year</th>
</tr>
</thead>
<tbody>
<tr>
<td>3-4</td>
<td>5-6</td>
<td>7-8</td>
</tr>
</tbody>
</table>

- N/A  
  - No opportunity to evaluate this competency.
- 1  
  - This rating constitutes a No Pass.
- 2  
  - There is significant concern in this area. A rating of 2 requires field liaison contact and it may constitute a No Pass.
- 3-4  
  - Initial Ability: Beginning development of the skill or knowledge area. Predominantly functions with supervision and support.
- 5-6  
  - Shows Growth: More in-depth development of the skill or knowledge area in mildly complex situations. Relies heavily on supervision and support. This should typically be achieved by the end of the second quarter.
- 7-8  
  - Routinely: Consistently demonstrates the skill or knowledge area in moderately difficult situations with supervision and support.
- 9-10  
  - Effectively: Consistent, appropriate, autonomous use of this behavior or knowledge in moderately difficult situations usually encountered in practice with supervision and support. This should typically be achieved by end of the internship.

**IT IS UP TO THE FIELD SUPERVISOR TO MAKE THE DECISION OF RATING.** The following table illustrates the student’s approach to their fieldwork. The rubric is designed to measure the student’s movement from dependence to autonomy.

<table>
<thead>
<tr>
<th></th>
<th>3-4</th>
<th>5-6</th>
<th>7-8</th>
<th>9-10</th>

<tr>
<td>• Uses supervision for collaboration.</td>
<td></td>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

**SCORING INSTRUCTIONS**
• Select the most appropriate rating for the student’s performance at the point of evaluation.

• If the student seems to fall between two categories:
  o When a student’s work is between two categories, such as between a 5-6 and a 7-8, the field supervisor must pick the category where the student meets the most criteria.
  o Then, the field supervisor may choose to make a note in the box at the bottom of the page to indicate the reason for this rating.

• If a student receives a rating of 1 or 2, YOU MUST note specifics in space provided at the bottom of each page.

</table>

- Beginning ability to identify ethical issues.
- Difficulty identifying solutions to ethical dilemmas.
- Learning that uncomfortable situations are often ethical dilemmas.
- Needs assistance identifying appropriate resolutions.
- Evaluates situations & understands potential ethical dilemmas.
- Applies social work values to resolutions.
- Identifies ethical dilemmas.
- Applies social work values to the resolution process.

Notes (required for rating of 1 or 2; optional otherwise): Jane Doe is between a 6 and a 7, but I gave her a 7 because she can evaluate and understand potential ethical dilemmas, can apply social work values, but still needs some assistance when identifying appropriate resolutions.

Notes (required for rating of 1 or 2; optional otherwise): I gave Jane Doe a 2 because I am concerned. She has shown little interest in her fieldwork and does not see the importance of ethical issues. I have set up a meeting with our field liaison next week to discuss this concern.

**Demonstrate ethical practice reflecting social work values**

**EPAS: 2.1.2.1**

- Beginning ability to identify ethical issues.
- Difficulty identifying solutions to ethical dilemmas.
- Requires instruction on confidentiality and professional boundaries.
- Learning that uncomfortable situations are often ethical dilemmas.
- Needs assistance identifying appropriate resolutions.
- Regularly uses supervision to address confidentiality & professional boundary questions.
- Evaluates situations & understands potential ethical dilemmas.
- Uses supervision to apply social work values to resolutions.
- Can tolerate ambiguity in resolving ethical dilemmas.
- Routinely uses supervision to address confidentiality & professional boundary issues.
- Identifies ethical dilemmas.
- Applies appropriate social work standards & values to the resolution of ethical dilemmas.
- Autonomously maintains confidentiality & appropriate professional boundaries.
- Initiates discussion of confidentiality and boundary issues that arise when needed.

Notes: (required for rating of 1 or 2; optional otherwise)
### 1st Quarter
- Sporadic professionalism.
- Learning how to act appropriately towards clients, community & staff.
- Aware of agency roles but needs help to follow proper organizational structure.
- Learning agency structure & dynamics.

### 2nd Quarter
- Interacts appropriately and with cultural responsiveness with clients, staff, & community.
- Occasionally needs clarification on agency roles & power dynamics.
- Attends agency meetings but is not an active participant.

### 3rd Quarter
- Acts professionally and with cultural responsiveness with clients, staff, & community.
- Seldom needs clarification on agency roles & power dynamics.
- Actively participates and communicates professionally in agency meetings.

**EPAS:**

2.1.3.1

- Beginning understanding of agency’s theoretical framework.
- Beginning knowledge of alternative approaches to practice.
- Articulates an understanding of the agency’s theoretical framework.
- Aware of multiple theories and approaches from other disciplines.
- Recognizes changing contexts of social work practice.
- Solidly understands agency’s theoretical framework.
- Aware of multiple frameworks and approaches from other disciplines.
- Distinguishes between and analyzes social work theory from other perspectives and can articulate this.
- Actively responds and adjusts to changing contexts of social work practice.
- Thoroughly understands the agency’s theoretical framework.
- Applies social work theory in practice.
- Uses input from other disciplines to provide quality services.
- Promotes interventions that contribute to systemic change.

EPAS: 2.1.8.1

#### Initial Ability
- Beginning understanding of agency’s programs, community connections & funding agreements.
- Apprehensive assisting with funding activities.
- Learning basic ideas about developing new community connections.

#### Shows Growth
- Some understanding of agency’s services.
- Growing knowledge of community connections & funding relationships.
- Sporadically assists in activities related to funding & outreach.

#### Routinely
- Solid understanding of programs.
- Shares agency information to outsiders.
- Utilizes current connections & initiates new ones.
- Interested & participates in funding related issues.

#### Effectively
- Excellent understanding of agency programs.
- Identifies potential program changes to enhance services.
- Works with community connections to achieve change.
- Clearly grasps issues related to funding agreements.

#### Notes: (required for rating of 1 or 2; optional otherwise)

### 3rd Quarter

**Demonstrate an understanding of how policies are developed and implemented at the agency**

**EPAS:**

2.1.8.1

- Initial awareness of agency policies & services.
- Not yet able to identify key external influences.
- Wants guidance in how to best advocate for client systems/community partners.

- Beginning knowledge of how the agency develops policies & services.
- Some knowledge of key external influences.
- Plan for client and/or community advocacy with direction from supervisor.
- Analyze policies for impact and social justice.

- Demonstrates knowledge regarding developing agency policy.
- Understands key external influences.
- Collaboratively works with supervisor to advocate for & with clients and/or communities.
- Professionally and appropriately represents agency stance in public contexts.

- Consistently demonstrates knowledge & use of agency policy.
- Utilizes key external influences.
- Participates in meetings & groups that address advocacy issues surrounding clients & communities.
- Communicates persuasively and appropriately for policy advocacy and change.

#### Notes: (required for rating of 1 or 2; optional otherwise)

**Demonstrate knowledge of developing a grant**

- Initial interest in or ability to assist in grant research &/or grant writing.
- Beginning knowledge of grants.

- Increased ability to assist in grant research &/or grant writing.
- Growing knowledge of the grant proposal process.

- Participates in planning, researching, & writing grant proposals.
- Contributes to grant proposal process.
- Is curious about finding grant funding.
- Participates in the networking process.

- Initiates a plan to develop grant(s), research for grants, & writing grant proposals when appropriate.
- Identifies the complexities & social dynamics of the funding process.
- Involved in the networking processes.

#### Notes: (required for rating of 1 or 2; optional otherwise)

### Notes: (required for rating of 1 or 2; optional otherwise)

### 1st Quarter

- Initial ability to engage with clients/client systems about service needs.
- Uses very basic skills when exploring client and/or community presenting issues.
- Finds developing relationship with clients and/or communities challenging.
- Discovering cultural variances and issues of power, privilege and oppression.

### 2nd Quarter

- Engages clients/client systems and/or communities to assess service needs.
- Uses open-ended questions to explore issues beyond presenting conditions.
- Begins to develop relationship with clients/client systems and/or communities.
- Researches and discusses different culturally responsive approaches.

### 3rd Quarter

- Engages clients/client systems & helps them feel at ease.
- Uses verbal & non-verbal communication to explore identified problem.
- Explores environmental factors & societal issues that impact the problem.
- Uses empowering and/or therapeutic relationships to encourage client or community growth.
- Aware and responsive to cultural variances and issues of power, privilege and oppression and advocates for change.

### Notes: (required for rating of 1 or 2; optional otherwise)

- Collaboratively participates in obtaining client/client system buy-in & sanction.
- Demonstrates cultural responsiveness across various systems.
- Uses supervision to improve engagement and culturally responsive skills.
- Advocates for human rights, social and economic justice.
- Consistently & confidently creates workable foundations for buy-in & sanction.
- Adjusts engagement skills to changing contexts in a culturally responsive manner.
- Infuses cultural responsiveness into the agency.
- Actively works for human rights, social and economic justice.

</table>

Guides clients, client systems and/or community partners in the analysis of their issues, resources, goals, & solutions using a strengths perspective.

EPAS: 2.1.10(b).1

- Initial ability to engage clients/client systems and/or communities to analyze their own situations.
- Inclination to “do it for them,” rather than through empowerment.
- Moderate ability to engage clients/client systems and/or communities in analyzing their own situations.
- Learning empowerment techniques.
- Routinely engages clients/client systems and/or communities to analyze their issues, resources, & potential action.
- Uses supervision to navigate and process the successes or failures of client/client system and/or community engagement.
- Effectively engages clients/client systems and/or communities to analyze their issues, resources, goals, & solutions.
- Utilizes supervisor feedback after engagement process to improve future relationships.
- Uses research to evaluate and inform practice.

Notes: (required for rating of 1 or 2; optional otherwise)
Demonstrate the ability to gather facts, analyze issues, & apply appropriate theory bases to plan interventions based on a comprehensive assessment and/or complete a community needs assessment.

EPAS:
2.1.7.1

<table>
<thead>
<tr>
<th>1st Quarter</th>
<th>2nd Quarter</th>
<th>3rd Quarter</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td></td>
<td></td>
</tr>
</tbody>
</table>

- Can conceptualize issues & begin gathering facts.
- Beginning knowledge of theories with some discomfort applying to practice.
- Relies heavily on supervisor for assessment.
- Some discomfort applying theory to practice.
- Assessment may be separate process from engagement.

- Ability to clarify issues & identify strengths.
- Growing knowledge and practice of applying theory to specific situations.
- Collaboratively analyzes clients and/or systems with supervisor.
- Practices applying evidence based theories to practice.

- Leads client and/or community in identification of issues and strengths.
- Utilizes supervision to identify viability, constraints, and theoretical application for the community needs assessment or development of client treatment plan.
- Uses supervisor feedback and agency guidelines in the process.

- Consciously empowers client and/or community to identify issues, barriers to unmet needs, and solutions.
- Integrates client strengths, viability, constraints, and theory into comprehensive needs assessment or treatment plan.
- Engages in reflective supervision regarding needs assessment or treatment plan but has ownership of the process.
- Evaluates programs, polices and interventions using evidence based practice.

Notes: (required for rating of 1 or 2; optional otherwise)

</table>

Demonstrate ability to effectively promote social justice & advocacy, recognizing issues of power, privilege and oppression.

EPAS: 2.1.5.1 2.1.10(c).1

- Initial ability to see the complexity of social justice issues.
- May be overly sensitive or insensitive to client and/or community feelings.
- Understands the complexities of & is often aware of social justice issues.
- Asks for guidance, seeks historical information, & attempts basic advocacy.
- Recognizes and responds to issues of power, privilege and oppression.
- Routinely demonstrates the ability to effectively negotiate complex environments with supervision.
- Researches and anticipates potential social justice or advocacy needs.
- Promotes dignity & self-determination within clients/client systems and/or community groups.
- Negotiates complex social environments & promotes social justice.
- Serves as a resource & is considered a member of the team.
- Designs and implements interventions, programs and/or policies for social justice.

Notes: (required for rating of 1 or 2; optional otherwise)
### EPAS: 2.1.6.1

**Demonstrate an ability to design, implement and evaluate a training, program, or organizing strategy to meet the needs of the identified client/client system and/or community.**

- Learning about training, organizing, & program development concepts.
- Participates in actions of the agency.
- Supervisor leads planning for training, organizing, & program development.

#### EPAS: 2.1.6.1

<table>
<thead>
<tr>
<th>1st Quarter</th>
<th>2nd Quarter</th>
<th>3rd Quarter</th>
</tr>
</thead>
</table>

- Some ability to identify needs & design training, organizing, or program development strategies.
- Uses instruction to develop plans for training, organizing, & program development.
- Understands the connections between different intervention components.

- Able to develop and evaluate comprehensive training, organizing, & program development strategies.
- Uses supervision to assess, implement, and evaluate intervention ideas.
- Interventions take into consideration cause and effect across different systems.
- Uses research to inform use of evidence based interventions.

- Effectively develops and evaluates training, organizing, & program development plans that incorporate social justice.
- Independently able to lead implementation.
- Collaboratively works with supervisor to analyze interventions and assess further needs across different systems.
- Uses practice to inform research.

---

**1st Quarter**
- Beginning knowledge of intervention methods.
- May feel uncomfortable working with clients.
- Wants to solve clients’ problems.
- Relies heavily on supervisor for intervention ideas.
- Learning to engage client in change process.

**2nd Quarter**
- Intermediate understanding of intervention methods.
- Uses supervision to choose appropriate intervention strategies.
- Engages client in ownership of change process.
- Uses research to inform practice.

**3rd Quarter**
- Working understanding of different interventions.
- Devises appropriate intervention strategies with assistance of supervisor.
- Increasingly helps client take ownership of change process.
- Uses practice to inform research and research to inform practice.

**Demonstrate effective and culturally responsive intervention skills & strategies with clients and/or client systems**

**EPAS: 2.1.6.1**

**2.1.10(c).1**

- Knowledgeable of many different intervention methods.
- Empathetic to clients & effectively involves them in treatment process.
- Skillfully allows clients to be responsible for their own change process.
- Evaluates effectiveness of intervention with supervisor using research on evidence-based practices.
### Practice Behavior 4

**Demonstrate ability to facilitate a group, meeting, or event.**

- Developing own facilitation style.
- Some uncertainty in group situations.
- Needs assistance planning & matching materials to group needs.
- Beginning analysis of group dynamics & detecting cues.
- Supervision during groups is necessary.
- Facilitates the group process & elicits interaction among group members.
- May express anxiety about leading groups.
- Supervisor helps plan groups & attends meetings.
- Uses group dynamics to facilitate group interaction.
- Skilled leader & participant.
- Plans for groups independently.
- Asks for feedback & assistance when necessary.
- Extremely skilled at analyzing & influencing group interactions.
- Detects cues of participants.
- Autonomously plans, facilitates, & debriefs groups.
- Uses supervision to improve group process.
- Develops norms for group behavior & nurtures a safe group culture that is conducive for change.

---

### 8. Evaluate Own Practices and Plan for Termination with Clients, Client Systems and Communities

**Initial Ability**

- Shows Growth

- Routinely

- Effectively

**1st Quarter Narrative Evaluation Questions:**

1) Highlight the student's overall tasks and accomplishments during the quarter:
2) Identify the student’s strengths:

3) Identify the area(s) where the student particularly requires further development:

4) What is the plan to address the area(s) for development?

5) Does this internship continue to be a good fit for this student and this agency? Explain
   a. Supervisor’s Comments:
   b. Student’s Comments:

6) What are your mutual goals to make the most of supervision?

2nd Quarter NARRATIVE EVALUATION QUESTIONS:

1) Highlight the student’s overall tasks and accomplishments during the quarter:
2) Identify the student’s strengths:

3) Identify the area(s) where the student particularly requires further development:

4) What is the plan to address the area(s) for development?

5) Does this internship continue to be a good fit for this student and this agency? Explain
   a. Supervisor’s Comments:
   b. Student’s Comments:

6) What are your mutual goals to make the most of supervision?

Syllabi for MSW Field Courses
COURSE DESCRIPTION
This required internship provides foundation students with the opportunity to integrate social work theory and practice for effective professional intervention at clinical and community levels. Pre- or co-requisites: SOWK 4001, 4020, 4132 & 4006, 4003, 4007

COURSE RATIONALE
The field internship program is designed to assist in the development of competent social workers through performance in field agency settings. The field internship is intended to enhance learning through field experiences for students that integrate and apply knowledge, theories, values, methods, and practices of social work acquired in the academic setting. Students are responsible for developing personal management skills congruent with professional behavior and for maintenance of professional standards of ethical conduct as defined in the NASW Code of Ethics. Foundation-year field internship is 16 hours a week at the assigned agency. The Assistant Dean for Field Education (or designee) must approve any deviation from this. A block internship (full time internships for a shorter period of time) or any other special arrangement must also be discussed with the Assistant Dean for Field Education (or designee). Students must complete a minimum of 480 hours in the foundation internship.

EDUCATIONAL OBJECTIVES
Field internship serves as a primary mechanism for evaluating many of the core competencies and practice behaviors. See the quarterly Field Evaluation for specific evaluation of educational objective, competencies and practice behaviors.

Given regular attendance, appropriate participation and successful completion of assigned tasks and activities, students will be able to:

1. Demonstrate knowledge, skills and values reflective of the development and identification of a professional self. This includes demonstration of self-awareness, practicing personal reflection and self-correction in application of social work ethics
and standards, use of supervision, oral and written communication skills, representation of agency, and professional demeanor and boundaries.

2. Demonstrate proficiency in assessment and problem formulation by exploring situations thoroughly, gathering accurate information and presenting this information in a balanced way that can be understood in a variety of professional contexts. This requires understanding the client systems’ point of view; regularly examining and adjusting own opinions of the client system problems; and identifying critical information for a bio-psychosocial assessment.

3. Engage with and assess client systems in planning and goal setting, demonstrating the skills necessary to establish mutually agreed upon short and long terms goals for client systems and to set personal learning goals for own professional development. Demonstrate the ability to develop a plan with a client system based on research and use of evidence based practices.

4. Demonstrate professional communication skills and intervention strategies in the context of multiple dimensions of diversity and issues of power, privilege and oppression. Demonstrate conscious use of self; develop professional and empathic relationships with client systems; attend to verbal and nonverbal cues; and utilize supervision to evaluate development of practice skills.

5. Demonstrate the ability to evaluate the effectiveness of own practice; identify and initiate action for areas of improvement; critically analyze, monitor, and evaluate interventions based on empirical evidence and self-reflection and incorporate this awareness into assessment and plan for termination with the client system and the agency.

6. Demonstrate application of human behavior and social environment concepts by applying systems, developmental and social justice perspectives in work with the various client systems. Develop cultural responsiveness and advocacy skills for practice with client systems and to effect structural changes in the delivery of social services.

7. Demonstrate integration of classroom learning into a broad view of practice by the ability to integrate theories into practice with clients, to discuss and relate coursework to the field experience, and in recognizing the need for career long learning in the changing contexts of social services delivery.

CONTENT ON DIVERSE POPULATIONS
Social workers understand how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

INCLUSIVITY STATEMENT
Social and economic justice is one of the key themes promoted throughout the curriculum at GSSW. As a community we encourage each other to critically examine issues related to power, privilege, and oppression. These issues; therefore, are integrated into each classroom experience at GSSW. As a result, there will be class discussions that may be difficult or challenging. In order to have the most supportive environment possible, we must all commit
ourselves to fostering an inclusive, anti-oppressive space in which each person takes responsibility for their own language, actions and interactions. It is important that we listen to each other about how our words and actions are affecting one another and the learning environment. We share the task of negotiating the dual priorities of authentic free speech and active regard for one another, being open to diverse perspectives and ideas. We recognize that microaggressions happen; however, overt slurs in relation to race, age, ethnicity, gender, gender identity, gender expression, sexual orientation, religion/world view, immigration status, size, nationality, dis/ability, marital status, political affiliation, or any other identities, will be addressed directly. Throughout the course, we will negotiate other guidelines about class discussions.

**METHODS OF TEACHING**

Foundation-year field internship utilizes a combination of observation, practice, discussion and experience. The field supervisor will provide a teaching/learning environment that facilitates student application of classroom concepts and skills through generalist practice, exposing the student to a range of prevention and intervention methods with individuals, families, groups, organizations and communities. Each student’s experience will vary based on the internship site; practice and observation of various skills will be relevant to the specific internship chosen by the student; and will address the basic foundation competencies and practice behaviors as determined by the Council on Social Work Education (CSWE). The field liaison will provide oversight and linkage with GSSW around the student’s progress. The field liaison will perform agency visits and be available for problem-solving initiated by either the student or the field supervisor.

**READINGS**

Washington, DC; NASW

Additional Readings as assigned by the field supervisor.

**COURSE ASSIGNMENTS**

In consultation with the field supervisor and field liaison, the student will develop an Individualized Field Education Plan (IFEP) specific to their learning needs within the context of their field agency and in accordance with the GSSW foundation competencies and practice behaviors. This IFEP will be the outline for the field internship learning. The guidelines for the IFEP can be found in the Field Manual.

**EVALUATION OF STUDENT PERFORMANCE/GRADING**

Field internship serves as a primary mechanism for evaluating many of the core competencies and practice behaviors. See the quarterly Field Evaluation for specific evaluation of educational objective, competencies and practice behaviors. Using the IFEP developed in consultation with the field supervisor and field liaison, the student will
demonstrate learning in each of the educational objectives listed for foundation field. Student field performance will be evaluated quarterly by the field instructor, with input of other supervisors involved in the student’s internship. The field supervisor rates the student’s work in each of the areas listed on the foundation field evaluation. Students are expected to assess their own performance and to discuss their self-rating with their field instructor, although the field instructor will determine the numeric score to be entered into the field evaluation. A template of the foundation field evaluation can be found in the Field Manual and on-line. Field instructors are responsible for entering the evaluation scores and submitting the evaluation electronically according to the schedule published in the Field Manual. The field supervisor recommends the grade earned by the student, but the field liaison has the prerogative to submit a final grade different from that recommended by the field supervisor with documented reason. Students receive a Pass (P), In Progress (IP), or No Pass (NP) for each quarter of field.

ATTENDANCE
Students are expected to attend field on regularly scheduled days, attend meetings or events at other agencies or in the community as instructed by the field supervisor, in accordance with the required number of field hours.

GENERAL GSSW AND DU POLICIES

Please see the GSSW Field Manual (2017-2018) for policies pertaining to field internships.

Policy Concerning Students with Disabilities
Students who have disabilities or medical conditions and who want to request accommodations should contact the Disability Services Program (DSP); 303.871.3241; 1999 E. Evans Ave.; 4th floor of Ruffatto Hall. Information is also available online at http://www.du.edu/studentlife/disability/dsp/index.html; see Student Handbook. Please note that academic accommodations cannot be applied retroactively, so it is important for you to register with DSP as soon as possible if you think you may need accommodations at some point while at GSSW. You are also encouraged to contact the Student Experience Coordinator for GSSW.

Please review materials in the Academic Bulletin & Student/Faculty Handbook for the following policies:

Policy Concerning Religious Accommodations
Policies Concerning Academic Integrity and Ethical Conduct
Name and Pronoun Use in the Classroom
Use of Technology

The University of Denver Graduate School of Social Work Student/Faculty Handbook to the MSW Program can be found on the GSSW website (www.du.edu/socialwork), within the “current students” tab, on the “Quick Links” box on the right side of the page.
BIBLIOGRAPHY

COURSE SYLLABUS

COURSE DESCRIPTION
Concentration students participate in planned social work practice experience that integrates classroom theory, the learning of practice skills and the continued development of social work attitudes, ethics and values in a variety of social work contexts and settings. Prerequisite for 2-year students: successful completion of foundation-year course work and field internship. Prerequisite for students with Advanced Standing: successful completion of advanced standing prerequisite courses and BSW-year internship. Field must be taken concurrently with concentration course work, or after core concentration course work, unless by special arrangement with the Assistant Dean for Field Education (or designee).

COURSE RATIONALE
The concentration-year field internship program is designed to assist in the development of competent social workers through performance in micro, mezzo, and macro field settings. The field internship is intended to enhance learning through field experiences for students that integrate and apply theories, values, methods and practices of social work acquired in the academic setting. Students are responsible for developing personal management skills congruent with professional behavior and for maintaining professional standards of ethical conduct defined in the NASW Code of Ethics. Concentration-year field requires a minimum of 20 hours a week experience at the assigned field agency. Any deviation from this standard requirement which regularly involves more or fewer hours per week must be approved by the Assistant Dean for Field Education (or designee). Block internships, a full time internship in the field placement for a shorter period, must also be discussed with and approved by the Assistant Dean for Field Education (or designee) six weeks or more prior to the beginning of the internship.

EDUCATIONAL OBJECTIVES AND STUDENT LEARNING OUTCOMES
Field internship serves as a primary mechanism for evaluating many of the core competencies and practice behaviors. See the quarterly Field Evaluation for specific evaluation of educational objective, competencies and practice behaviors.
Given regular attendance, appropriate participation and successful completion of assigned tasks and activities, students will competently demonstrate the following knowledge, skills and values:

1. **Conduct oneself as a professional social worker by demonstrating self-awareness and autonomy, by recognizing and discussing personal strengths and weaknesses; having clarity about personal values and attitudes and the way in which they impact practice; accepting full responsibility for field learning; being efficient in use of time, honoring appointments, deadlines, and other commitments; and carrying out assignments with appropriate level of supervisory assistance.** Students will use supervision time appropriately by being prepared for supervision sessions; being open to ongoing performance evaluations; and revising conceptualizations and interventions based on feedback.

2. **Apply social work professionalism and ethical principles to guide practice by demonstrating the appropriate application of social work roles and values in practice by understanding and showing commitment to professionalism and the Social Work Code of Ethics within the context of the agency; respecting client confidentiality and self-determination; demonstrating cultural responsiveness in values, beliefs, and behavior and with sensitivity to all those facing issues of oppression, marginalization, power and privilege; utilizing research in all aspects of practice; and committing to ongoing development of a conceptual framework for practice in the changing contexts of social work.**

3. **Develop professional and effective oral and written communication skills by using appropriate and culturally responsive professional language; being accurate in reporting processes; using active listening and conflict management skills; being willing to express oneself in group situations, and increasing public speaking skills (e.g. speeches, leading programs, legislative advocacy).**

4. **Understand and respond to agency and community context for advocacy and practice by demonstrating knowledge of the agency and representing them well by adhering to agency policies and procedures; accurately articulating the mission, goals, and structure of the organization; being aware of subsystems, super-systems, and their interrelatedness; recognizing and responding to the changing contexts of practice; and understanding the organizational environment.**

5. **Engage with clients and client systems in an empowering and culturally responsive manner by recognizing issues of power, privilege, oppression, and marginalization. When working with communities students will practice effectively achieving commitment, ownership, education and sanction for the change process in a culturally responsive manner. By demonstrating sensitivity across various systems, using open-ended questions and exploring verbal and non-verbal communication, students will participate in forming empowering relationships while working for human rights, social and economic justice.**
6. Assess clients and client systems using knowledge of human behavior and the social environment by guiding clients, client systems and community partners in the analysis of their issues, resources, goals and solutions. Students will demonstrate the ability to gather facts, analyze issues and apply appropriate interventions and theory bases to clarify issues and identify strengths as well as constraints and will integrate these factors into a viable assessment. Students will use research to evaluate and inform practice.

7. Design culturally responsive intervention strategies by establishing genuine, non-judgmental helping relationships and with awareness of issues of power, privilege and oppression. Students will use appropriate interviewing techniques, group leadership skills, brokering/mediating/networking/advocating skills, personal management skills, and administrative skills, maintaining a problem-solving focus; having the ability to explore and clarify the feelings of others and being aware of non-verbal communication. Students will use research to inform practice and practice to inform research.

8. Evaluate own practices and plan for termination with clients, client systems and communities by being able to specify objectives for planned intervention with clients/systems and community partners and articulating clear criteria for determining the success of strategies, being able to evaluate personal effectiveness in practice, and accepting responsibility for termination/transfer through oral and written communication. Students will use knowledge of practice informed research and research informed practice to evaluate.

9. Demonstrate competencies related to concentration and/or certificate program by being able to integrate academic courses and the internship; having knowledge of how agency policies impact service delivery in relationship to the content of the certificate and populations served; being able to utilize concentration specific/certificate specific strategies needed in working with various client population; assisting the agency in understanding the nature of the specialized work of the concentration and/or certificate and linking the theories of the concentration and/or certificate to the profession and ethics of social work; and adhering to social work values, ethics, roles and purposes.

Field internship serves as a primary mechanism for evaluating many of the core competencies and practice behaviors. See the quarterly Field Evaluation for specific evaluation of educational objective, competencies and practice behaviors.

CONTENT ON DIVERSE POPULATIONS
Social workers understand how diversity characterizes and shapes the human experience and is critical to the formation of identity. The dimensions of diversity are understood as the intersectionality of multiple factors including age, class, color, culture, disability, ethnicity, gender, gender identity and expression, immigration status, political ideology, race, religion, sex, and sexual orientation. Social workers appreciate that, as a consequence of difference, a
person’s life experiences may include oppression, poverty, marginalization, and alienation as well as privilege, power, and acclaim.

INCLUSIVITY STATEMENT
Social and economic justice is one of the key themes promoted throughout the curriculum at GSSW. As a community we encourage each other to critically examine issues related to power, privilege, and oppression. These issues; therefore, are integrated into each classroom experience at GSSW. As a result, there will be class discussions that may be difficult or challenging. In order to have the most supportive environment possible, we must all commit ourselves to fostering an inclusive, anti-oppressive space in which each person takes responsibility for their own language, actions and interactions. It is important that we listen to each other about how our words and actions are affecting one another and the learning environment. We share the task of negotiating the dual priorities of authentic free speech and active regard for one another, being open to diverse perspectives and ideas. We recognize that microagressions happen; however, overt slurs in relation to race, age, ethnicity, gender, gender identity, gender expression, sexual orientation, religion/world view, immigration status, size, nationality, dis/ability, marital status, political affiliation, or any other identities, will be addressed directly. Throughout the course, we will negotiate other guidelines about class discussions.

METHODS OF TEACHING
Concentration-year field internship utilizes a combination of observation, practice, discussion and experience. The field supervisor will provide a teaching/learning environment that facilitates student application of classroom concepts and skills through practice with various sizes of client systems and in various contexts. Developed in consultation with the field liaison, the Individualized Field Education Plan (IFEP) will ensure that GSSW curriculum goals are incorporated into field experiences.

READINGS

Additional readings as assigned by the field supervisor

COURSE ASSIGNMENTS
In consultation with the field supervisor and field liaison, the student will develop an Individualized Field Education Plan (IFEP) specific to their learning needs within the context of their field agency and in accordance with the Concentration competencies and practice behaviors. This IFEP will be the outline for the field internship learning. The guidelines for the IFEP can be found in the Field Manual.
EVALUATION OF STUDENT PERFORMANCE/GRADING
Field internship serves as a primary mechanism for evaluating many of the core competencies and practice behaviors. See the quarterly Field Evaluation for specific evaluation of educational objective, competencies and practice behaviors. Using the IFEP developed in consultation with the field supervisor and field liaison, the student will demonstrate learning in each of the educational objectives listed for foundation field. Student field performance will be evaluated quarterly by the field instructor, with input of other supervisors involved in the student’s internship. The field supervisor rates the student’s work in each of the areas listed on the foundation field evaluation. - Go to http://www.du.edu/socialwork/
- Click on Field Education (located on the top row).
- Click on Field Manual (located on the right side of the page). The Field Manual will open as a .pdf document.

To RSVP for a Field Supervisor training (Denver Campus Program):

- Click on For Field Agencies on the left side of the page.
- Click on Training Schedule on the left side of the page.
- Review the dates listed, and Click on “Register for a field supervisor training session” to RSVP (the registration form also includes the dates for all upcoming trainings).
To update agency information:

- Log into https://gsswinternships.du.edu/

  (Note: You must be the “Internship Coordinator” for your agency with an
  assigned username and password in order to access the database.).

To view field education calendars and events (Denver
Campus Program):

- Go to http://www.du.edu/socialwork
- Click on Field Education (located on the top row).
- Events Calendar is on the right side of the page.
- Field Internship Dates can be found under For Field Agencies
  or Field Information for Current Students.

Note: Need Help? Contact the Field Office at 303.871.2844
or field@du.edu for assistance.
Agency Forms

Agency Information Form (AIF)

Agencies complete an online “Agency Information Form” (AIF) which begins the process for agency approval. This may include a site visit from a field coordinator. The information submitted on the AIF is entered into the field agency database and shared with GSSW students.

To complete an online “Agency Information Form”:

- Go to https://gsswinternships.du.edu/.
- Click on About in the upper right corner.
- Click on Agency Information Form.

Agencies are encouraged to provide the following information:

- general agency information (name, address, telephone number)
- the mission or general focus of your agency (“agency description”)
- activities, programs and tasks in which the intern might take part (“internship description”)
- “Focus of Practice” - describing the client population (youth, individuals, families, age, or other systems served) and the particular types of services provided.
Agency Agreement

Colorado Seminary which owns and operates the University of Denver and its Graduate School of Social Work ("School") and ("Agency") mutually agree that the Agency will provide a field placement for educational and on-the-job training experiences that would be beneficial to graduate social work students of the School.

This Agreement will become effective on the date last signed ("Effective Date") and will remain in effect for the period of one year. This Agreement shall automatically renew for one year upon each anniversary of the Effective Date unless earlier terminated. Any termination by Agency shall not be effective, at the election of School, as to any student participating in the educational or on-the-job training experience under this Agreement until said student has completed the experience not to exceed the then current academic term of five (5) months.

During this period of time, the Agency and the School will mutually agree on the student assignments and the accepted level of academic preparation required for each student.

The Agency and the School mutually agree to follow the standards and guidelines of field instruction as outlined in the prevailing Field Manual of the University of Denver Graduate School of Social Work incorporated into this Agreement by reference. The Field Manual is updated each academic year on our website www.du.edu/socialwork/fieldeducation/ under "Quick Links". Updates will become effective as soon as the Field Manual is published on the Graduate School of Social Work website. If there are any material changes to the Field Manual impacting the Agency, Agency will be notified by email prior to the change being published and becoming effective. Agency’s acceptance of students for field placement constitutes Agency’s agreement to be bound by changes to the Field Manual.

Each party agrees that no student in the educational or on-the-job training experience will be deemed to be an employee of the Agency or of the School. Each party agrees that the students will be in a learning situation and that the primary purpose of the placement is for the students' learning. It is further understood that the student shall not at any time replace or substitute for any Agency employee.

Agency shall keep confidential any student records obtained or created by Agency in accordance with the requirements of the Family Education Rights and Privacy Act (20 U.S.C. § 1232 g) ("FERPA") and the rules and regulations promulgated thereunder and the School’s FERPA policy at http://www.du.edu/registrar/general/ferpa_student.html.

Each party agrees to comply, at its own expenses, with the provisions of all state, local, federal, and tribal laws, regulations, ordinances, requirements and codes which are applicable to this Agreement.

Nothing contained in this Agreement shall be construed to create a joint venture, partnership, agent or employment relationship as between School and Employer.
Neither party has the authority to act for the other party, or to bind the other party in any respect whatsoever, or to incur any debts or liabilities in the name of or on behalf of the other party.

The parties agree that in the performance of this Agreement there will be no discrimination against students, employees, or other persons related to race, color, sex, religion, creed, age, national origin, sexual orientation, disability, gender expression, gender identity, genetic background, veteran status or marital status.

The person signing for each party below represents that s/he has the proper signature authority to bind his/her respective party to the terms of this Agreement.

Student Forms

Internship Search Forms

A student’s first step toward securing an internship is to complete an “Internship Search Form” online. This information helps field coordinators get to know the student and his or her human-service experience.

To complete the “Internship Search Form” online:

- Access this form online at the GSSW Student Resources Portfolio page at: https://portfolio.du.edu/gsswstudentresources
- Click on the applicable Internship Search Form.
  - Internship Search Form – Foundation-year Students
  - Internship Search Form – Concentration-year Students
  - Internship Search Form – Advanced Standing Students
  - Internship Search Form – Transfer Students

Field Confirmation Form – Denver Campus Program
(Students in the Four Corners, Western Colorado, and MSW@Denver Programs should consult with faculty and staff regarding the placement process and required forms.)

Within one week of securing your field internship, complete and submit online a Field Confirmation Form which is found in the GSSW Internships Database. This form provides the school with the official documentation needed for your student records and is directly tied to your registration for field credits. Students are registered for internship credits by the GSSW Registrar. You will not receive credit for your field internship until this form is submitted.

- Be prepared to answer specific questions about your internship (agency name and division, agency address, website and MSW supervisor’s phone and email address, and if applicable task supervisor’s phone and email address.) If you are unsure about the correct and complete contact information, please call or email the agency before you start filling out the form to ensure you have accurate contact information.

- Go to: https://gsswinternships.du.edu. Enter the database using your DU ID number (beginning with 87…..) and your Pioneer Web password.

- Near the middle of your Student Details page, click on Field Confirmation Form.

- Fill in all requested information. If for some reason you are unable to provide the requested information, DO NOT enter incorrect information, but STOP and contact the Field Program Office at field@du.edu or by calling 303-871-2844.
The Field Confirmation Form is a contract between the student and the agency. Any proposed change in internship after the Field Confirmation Form has been submitted must be approved by the Field Education Program.

Field Internship In Place Of Employment

The Graduate School of Social Work recognizes that the personal economic situation of some students makes it necessary for them to explore field internship opportunities in their places of employment. It is recognized that professional activity and learning are not inconsistent, but there is a difference between the goals of educational development and those of employment. The focus of the field internship must be on the student’s learning.

Students interested in an employment-based internship must submit their request via the “Request for Field Internship in Place of Employment” form to the Assistant Dean for Field Education (or designee). This form can be accessed from the GSSW Student Resources Portfolio page at: https://portfolio.du.edu/gsswstudentresources.

Students in the two-year MSW program must typically complete one of their two field internships in an agency other than their place of employment. Students must have been in their place of employment for a minimum of six months and must have an MSW internship supervisor other than their employment supervisor. The student must have learning opportunities for their internship experiences that are distinctly different from their usual job responsibilities.

A place of employment can be an internship setting only when the following guidelines are met:

- The agency must have available either different units or distinctly different learning opportunities that will provide the student with non-employment related social work practice experiences. Thus, the student will work outside of his or her current job description activities for the 16 (foundation year) or 20 (concentration year) hours per week that constitute the field internship to ensure that specific, graduate-level learning objectives may be accomplished.

- The agency must have a qualified MSW from an accredited school of social work, with two years of post-graduate experience, to serve as the field instructor. This must be someone other than the student’s regular employment supervisor to ensure, in part, that the field instructor is free to focus on educational aspects of the internship rather than on workload issues. The field instructor must provide individual field instruction for the equivalent of 1.5 hours per week for foundation-year students, and the equivalent of one hour per week for concentration-year students. If the field instructor has never supervised a GSSW student before, the field instructor must complete GSSW’s basic field supervisor training.

- The agency and GSSW must agree that the assignments given to the student are consistent with the educational objectives of the MSW program, and the assignments must show evidence of sound educational design and planned development of the student’s capacities. This may necessitate lighter caseloads, planned and varied
assignments for educational purposes, and additional hours above the normal workweek to achieve internship requirements.

- The student must have completed at least six months of employment at the agency prior to the beginning of the internship.

In developing a field internship in the place of employment, it is expected that the student will take the initiative by submitting the proposal to the Assistant Dean for Field Education (or designee) and coordinating the administrative requirements of the agency. These steps are to be followed:

1. The student must discuss with the Assistant Dean for Field Education (or designee) their intent to request an internship in the agency of employment **six weeks** prior to the beginning of the internship quarter for GSSW-approved field agencies, or **three months** prior to the beginning of the internship quarter for agencies not yet approved as field internship sites. Within the following two weeks, the student must submit to the Director (or designee) the “Request for Field Internship Agreement in Place of Employment” form. This form can be accessed from the GSSW website at: [https://portfolio.du.edu/gsswstudentresources](https://portfolio.du.edu/gsswstudentresources). Submitting a proposal does not guarantee approval of the request.

2. Within a month, the student should also discuss the proposed internship plan with his or her academic adviser.

3. The Assistant Dean for Field Education (or designee) will review the request and notify the student whether the internship is acceptable and/or whether any modifications will be necessary. Notification will be made within two weeks if the agency has already been approved by GSSW as a field agency, or within six weeks if it has not yet been approved. Copies of the approved internship plan will be sent to the student’s academic adviser and field liaison.

   If the internship in the place of employment is found to be unacceptable, the student must then agree to find another internship approved by GSSW.

4. A member of the Field Team may visit the agency to discuss with the administrator and/or field supervisors how GSSW’s educational objectives will be met during the internship.

5. It will be the responsibility of the field liaison to determine that the internship remains consistent with GSSW’s educational objectives and the proposal made by the student. Deviations from the internship plan may result in the student’s internship being terminated.
REQUEST FOR FIELD INTERNSHIP IN PLACE OF EMPLOYMENT

Students interested in a work placement must submit this form and required attachments to the Assistant Dean for Field Education (or designee). Submitting this form does not guarantee approval of the request.

Two-year MSW students must typically complete one of their two field internships in an agency other than their place of employment. Students must have been in their place of employment for a minimum of six months and must have an MSW field supervisor from an accredited school of social work other than their employment supervisor. The internship must provide the student with experiences that are distinctly different from the student’s regular job responsibilities.

This form requires collaboration between the student, the agency, the employment supervisor and the MSW field supervisor.

1. Student Name ____________________________________________________
   Foundation Year □ Concentration Year □ Advanced Standing □
   Student DU ID # ____________________ E-mail ____________________
   Length of Employment ____________________________________________

2. Agency Name ____________________________________________________

Offers of Employment by Internship Agency

(Denver Program - NOTE: Students in the Four Corners, Western Colorado and MSW@Denver Programs should consult with faculty regarding the placement process and required forms.)

The Graduate School of Social Work recognizes that the goal of most students is to secure employment as an MSW upon graduation. Community agencies also prefer to hire employees who are well educated, already trained, and have proven themselves as valuable members of the team. Thus, there are times when internship agencies will offer paid employment positions to student interns who have not yet completed their internship. While professional activity and learning are not incompatible, there is a difference between the goals of educational development and those of employment.

Students may accept offers of employment and maintain their internship in the same agency upon approval of the Assistant Dean for Field Education (or designee), only when the following guidelines are met:

- The student submits a proposal which outlines the job responsibilities, internship tasks, and the way in which they will be delineated if the student accepts the offer of employment (see attached form).

- The agency must agree that the student can complete the requirements of the internship (IFEP goals, Concentration competencies, certificate requirements, etc.), even though she or he has become an employee of the agency. This may necessitate lighter caseloads, a longer probationary or orientation period, planned and varied assignments for educational purposes, and additional hours above the normal workweek to achieve the internship requirements.

- There must be a qualified MSW from an accredited school of social work, with two years of post-graduate experience, to serve as the field instructor. This must be someone other than the person who will supervise the student’s work as a paid employee to ensure, in part, that the field instructor is free to focus on the educational aspects of the internship rather than on workload issues. The field instructor must provide individual field instruction for the equivalent of 1.5 hours per week for foundation-year students, and the equivalent of one hour per week for concentration-year students. If the field instructor has never supervised a GSSW student before, the field instructor must complete GSSW’s basic field supervisor training.

- The student must have completed at least one quarter of internship at the agency and have received a passing grade prior to the acceptance of paid employment.
Upon receipt of an offer of employment, it is expected that the student will take the initiative by submitting the proposal to the Assistant Dean for Field Education (or designee) and coordinating the approval of the appropriate agency personnel. These steps are to be followed:

1. The student must submit the “Request for Employment at Internship” form to the Assistant Dean for Field Education (or designee). Submission of a proposal does not guarantee approval of the request.

2. The Assistant Dean for Field Education (or designee) will review the request and notify the student within two weeks as to whether or not the proposal has been approved. A meeting with the Assistant Dean for Field Education (or designee) may be required to discuss the proposal and any modifications that may be necessary.

3. Upon approval of the request, student will be required to complete a new Field Confirmation Form (FCF) if the location or supervisors involved with his or her internship will change as a result of employment.

4. It will be the responsibility of the field liaison to determine that the internship remains consistent with GSSW’s educational objectives and the proposal by the student.

5. Should the request be denied, a student will have two weeks from the date of denial to address the areas of concern and resubmit the proposal to the Assistant Dean for Field Education (or designee). If the revised proposal is still denied, a student may appeal the decision to the Associate Dean for Academic Affairs.

6. Deviations from this process may result in the student’s internship being terminated.
REQUEST FOR EMPLOYMENT IN INTERNSHIP AGENCY
PRIOR TO COMPLETION OF INTERNSHIP

PLEASE NOTE: Students who are offered employment in their internship agency during their final quarter of internship at that agency may bypass this process and simply submit a letter on agency letterhead signed by the student, employment supervisor and MSW field supervisor. This letter should state that the student can complete the requirements of the internship even though he or she has become an employee of the agency.

Students interested in accepting an offer of employment in their internship agency, prior to the completion of the internship, must submit this form and required attachments to the Assistant Dean for Field Education (or designee). Submitting this form does not guarantee approval of the request.

This form requires collaboration between the student, the agency, the employment supervisor and the MSW field instructor.
